DAWNS BRIGHTLY FOR THE FARMERS OF AMERICA

ANNUAL CATALOGUE OF CELEBRATED

TRADE MARK
W SEEDS

AND MANUFACTURED SPECIALTIES

J. A. EVERITT, SEEDSMAN

225-227 W. WASHINGTON ST.

INDIANAPOLIS, IND. U.S.A.

OUR TRADE EXTENDS ALL OVER THE WORLD.

C. J. KREHBIEL & CO. CINC.

15 YEARS

AGO I adopted the tra de-mark "O. K. SEEDS." I have always guaranteed that every package, bag or box of seed bearing this trade-mark was O. K. or all right. Encouraged by my success in the past in quickly building up one of the largest mail order seed houses in the country I am more than ever determined to have

Planted on every farm and in every garden in the land. Realizing the fact that planters desire the highest quality in their seeds, **regardless of price**, I always make **quality the first consideration**, yet appreciating another fact that the seedsmen who sell the **best seeds** at a lower price than his competitor, is bound to get the business, and no amount of argument or big catalogues can prevail against it, I will continue conducting my business on an economical basis. This catalogue is a very modest affair as compared with some others, yet I tell you it contains all the varieties of seeds most desired by gardeners and farmers, also unapproachable labor saving machines. If I had spread the matter over twice the number of pages the extra expense would have been \$15,000; three times the pages \$30,000; four times the pages \$45,000, etc, all of which my customers would have been expected to pay in higher prices. Always remember

O. K. Seeds Are Reliable.

Few equal, none better, and are sold at a fair price.

A NEW DEPARTURE.

FREIGHT PAID. No other seedhouse in the country can offer their customers this great advantage. We can do it on account of our central location.

Why send to the far East or North for your seeds when you can save time and freight by getting them from us?

We have our seeds grown North, East, West and South, where the best conditions exist. We bring them all to the centre of the country to distribute quickly and economically to our customers.

NOTE CAREFULLY We will pay freight which will in most cases be a saving of time, trouble, worry and money to our customers. See the accompanying map. **Indianapolis** is the centre.

If your station is within the first circle send us 25 cents per 100 pounds.	
“ “ “ “	between the first and second circles, send us 35 cents per 100 pounds.
“ “ “ “	second and third “ “ “ 50 “ “ “ “
“ “ “ “	third and fourth “ “ “ 75 “ “ “ “
“ “ “ “	fourth and fifth circles, send us \$1.00 per 100 pounds.
“ “ “ “	beyond the fifth circle ask us for rates.

EXCEPTIONS. Beyond the third circle no order will be accepted for less than 200 pounds at the rate as the lowest charge is oftentimes more than the 100 lbs. rate.

Also the rates given above apply to stations on main lines of railroads and their branches, but may not apply to stations on short roads operated by independent companies and to river points. To such stations apply for freight rate, or we will pay to the station on main line where the other road connects.

PERSONAL TO ALL WHO BUY SEEDS.

Indianapolis, Ind., Jan. 1, 1900.

Dear Sir or Madam:

I am glad of the opportunity to place before you my catalogue of seeds, etc., for 1900.

This catalogue is small as compared with some others you may receive, but I offer no apology. You will find by an examination that it contains what you want, and by comparing it with others that what I save in the cost of the catalogue I have taken off of the price of seeds. Therefore the interest of the seed buyer has always been kept in mind. All the money spent in issuing a seed catalogue must be paid by the seed buyer.

Many crops of seed were short last season. There has not been a season in many years when so many crops were adversely affected and some of them so nearly a complete failure. We mention Beans, Cabbage, Onions, Peas and Radishes as the principal sufferers. Prices on some of these I am compelled to advance, yet following out my policy of "giving all I can for the money," you will find my prices quite moderate on all lines.

I wish to ask your particular attention to the Manufactured Articles in the back of this catalogue, all of my own invention and each one made with the object of reducing labor and increasing crops. Some of these machines should be on every farm in the land. Where time is money and ease of doing your work an object labor saving machines are appreciated. Where labor saving machines are used we find the greatest progress and enlightenment. I commend my manufactured specialties to your careful consideration.

I prepay the freight. (See preceding page.) This is a bold departure from the universal way of doing business. I am aware that it will necessitate much additional labor on my part and frequently loss, as in many shipments the freight will exceed the price I ask you to remit. I know, however, from many years' experience that the excessive freight sometimes charged up against farmers and uncertainty of what the freight will be prevents them from getting improved seeds. Our very favorable location allows us to come to their relief by prepaying their freight at very moderate rates.

I will thank you very much to show this catalogue to your friends. Tell them I will mail them one free, or, better, get their order for O. K. Seeds and send with yours. See my offer "Buy a Dollar's Worth of Pkt. seeds and get 50 cents. worth free."

You can take orders amongst your neighbors at regular rates, and send to me on above offer, thus you clear 50 cts. on every dollar's worth of packet seeds.

Give one of the boys or girls permission to canvass the neighborhood on this offer. You will be surprised how easily orders can be taken for O. K. Seeds. Additional order blanks furnished free.

If you have been a customer of my house before and used the O. K. seeds you know they are sure to grow, true to name and certain to produce the maximum crops that the season will permit. If you have not been a customer before I earnestly invite you to begin this year. No difference where you have dealt before I will try to make it to your interest to buy of me in the future, by supplying you with the best seed in the world, at the lowest price, prompt attention to all your orders, and quick delivery.

To those who may not be acquainted with me I refer them to any bank or business house in this city—or any bank in the country where my rating can be found in the commercial directories.

Sending most sincere thanks for past liberal patronage and soliciting a continuance of your favors which will always have my best attention, I am

Yours very truly,

J. A. EVERITT, Seedsman.

Instructions to Purchasers.

MY PRICES as well as the seeds are O. K. They are based on A. No. 1 First Quality Seeds. Nothing else ever enters my house. You may pay double my price elsewhere, but I *defy* you to get any better seeds anywhere.

FREE BY MAIL I deliver all seed free by mail at prices quoted, in packet, oz., $\frac{1}{4}$ lb., 1 lb., 4 lbs., pint and quart. If sent by freight or express, postage may be deducted at rate of 8c. per lb. Beans and Peas 8c. per pint, 15c. per quart. Sweet Corn 5c. per pint, 10c. per quart. Keep this in mind when comparing prices. When goods are sent by freight or express the purchaser invariably pays the transportation charges, except where stated to contrary. See my terms for prepaying freight on second cover page.

WARRANTY I warrant all my seeds to be O. K. or all right, and that they will grow with proper treatment, and be as represented, in so far that if they prove otherwise, I will refill the order or return the money. I exercise the greatest care to have all seeds pure, true and reliable, yet so many contingencies arise over which I have no control that I can not warrant the crop. If not accepted on these terms they must be returned at once.

TERMS are cash with order. I will occasionally send goods C. O. D. if enough is remitted to guarantee charges.

Express companies charge extra to return money for C. O. D. shipments.

HOW TO REMIT a Registered Letter. This is one of the best and most convenient ways to remit, and a sender gets a receipt for the letter as soon as it reaches its destination. Every postmaster must register letters. Post-office Money Orders, Bank Draft on New York, or Express. Postage stamps taken same as money in small amounts—1-cent preferred, until February 20th. 2-cents after that date.

REDUCE FREIGHT and EXPRESS Through my efforts the railroad companies have made a lower rate on Seed Corn, Oats, Wheat, etc., going to farmers. I ship such seeds from Indianapolis for about one-half the former rate. This is an item for you to consider in placing your order. Our Express rates are 20 percent less than regular merchandise express rates. See terms for prepayment of freight on second cover page.

PREPAY STATIONS. If there is no agent at your station, remit extra for the freight or I can not ship.

GIVE FULL ADDRESS every time you write.

ALL ORDERS ARE IMMEDIATELY FILLED. Hence if you don't get your seeds in a reasonable time you had better repeat your order, and be sure to give the same post-office as first given.

If the seeds you planted heretofore were unsatisfactory for any reason, plant the O. K. Brand this year, and you will be pleased.

O. K. SEEDS INSURE YOUR CROPS.

It is a pleasant task to report the results from **O. K. Seeds**. I have never had seeds of better quality in all my experience. The standard varieties were up to standard in every case. None of them inferior to the highest standard placed by the Department of Agriculture. Novelties merit highest praise. Early Othello Beet is better than Egyptian. Better shape; very uniform in size and color. Indiana Wonder Corn is sweetest and best Early Corn I ever grew, and I believe I have grown every kind. Evergreen Lettuce is Queen of Summer. Does not become bitter. Rose-colored DeCassese Onion a beauty. Mild flavor. Good size. Wonderfully productive. Glass Radish. You cannot know how we appreciate it. A very handsome sort. Excellent quality; crisp and mild. Kuttawa Dwarf Tree Tomato is the best of the dwarfs, self-supporting. Equal to Stone. Keeps better, and better flavor. Good shipper. No signs of rot this summer; heavy yield. In short, one of the four best out of forty varieties tested. Among all the large order of seeds obtained from you there was not a poor variety.

REV. J. REYNARD LAWRENCE, Laneshore, Mass.
Your seeds are all O. K., and all you claim them to be.
A. J. NICHOLS, Hivasse, Ark.

Eureka Water Melon beats them all. It was the best melon I ever ate.
R. ROSEBORO, Loudonville, O.

According to the Eureka Water Melon, I had 8 vines out of 9 seeds. The 8 vines bore 40 melons, and they were the finest melons I ever ate.
O. W. HOWELL, New Haven, O.

Farmers' Interest is a fine corn. The largest-earred corn I ever saw.
A. D. BECK, Wood Co., O.

Your Melon Seed brought a great surprise to this country. I never saw the like for fine melons nowhere. You will hear from me when it comes time to buy seeds again.
W. D. ANDERSON, Dryden, Ky.

Your **O. K. Seeds** are fully as good as recommended. The Everitt's Earliest Cabbage always heads, and a good solid head. Early Valentine Beans splendid. Prize-Taker Onion good. **O. K. Seeds** always grow. Everybody should use them.
WM. J. GARR, Martinsville, Ind.

O. K. Seeds are always as represented.
JAMES W. McFADDEN, Mt. Liberty, O.

I have raised your Mortgage-Lifter Corn 2 years and find an excellent sort for Northern Indiana, especially prize it for feeding cattle, for which purpose don't think it can be excelled. It is the largest-earred Yellow Corn I ever saw grown in Northern Indiana.
M. T. ROSE, Orlando, Ind.

Your White Vienna Radish was all you claimed. Fourth of July Oats all O. K. As long as I stay on the farm I know where to get good and cheap seeds.
M. E. LAUGHLIN, Kirksville, Mo.

I think your Up-To-Date Farming and Gardening contains good instructions and offers many helpful suggestions. All kinds of seeds obtained of you were as represented.
MRS. C. B. SPENCER, Chardon, O.

This is the first season I planted your seeds, and I consider myself so lucky that I found where to get such reliable seeds. The Beans, Melons, Onions, Pumpkins, Cabbage, etc., are great sights to all who visit my garden. They never saw such vegetables before as grew from your **O. K. Seeds**.
J. D. K. MERRILL, West Windham, N. H.

We have planted your **O. K. Seeds** for 2 or 3 years and are much pleased with them. Your Logan's Giant Tomato is the finest and most solid I ever grew, and do not rot when all others did. Hoosier Canteloupe is very large and sweet. They just melt in your mouth. The Eureka Melon is the most delicious Water Melon I ever tasted. Don't forget to send your next catalogue.
T. J. EADS, Eadsville, Ky.

I planted some of your Dwarf Essex Rape Seed, and it is fine. I have 118 sheep and lambs pasturing on it, and they are as fat as hogs. I don't know what I should have done for feed if I did not have the rape, for pastures are all dried up.
SILAS F. RILEY, Hadley, Mich.

Reporting on the Eureka Water Melon, I never ate a sweeter or better melon. My friends who have sampled them say they are simply "Out of Sight."
G. W. ADAMS, Maple Grove, Mo.

The package of Fourth of July Oats I sowed on common land and raised 65 pounds of nice, clean, plump oats. My Kuttawa Dwarf Tree Tomato is ahead of anything that has been in our county.
J. F. LEE, Leitchfield, Ky.

Your Fourth of July Oats surpassed any other in this section in yield and quality. Melons are Up-To-Date. You will receive all my future orders.
CLARK RAILING, Monzel, Pa.

Your **O. K. Seeds** gave perfect satisfaction. Will order from you again next spring.
Mrs. L. E. SCOTT, Ewell, Va.

The Eureka Melons did splendidly; size 9-13 in. in length, 7-9 in. in diameter. They are the sweetest melons I ever ate.
JOHN ECKJOHN, Teutopolis, Ill.

Indiana Sweet-Heart and Hoosier King Watermelons can not be beat for fine eating quality and good shippers. We had good success with Yellow Globe Danvers Onion. Logan's Giant Tomato is as fine as I ever saw. New Champion and Mammoth Sweet Corn are certainly fine. Evergreen Cucumber is one of the finest for the table. Long Blood and Lane's Sugar Beets extra fine. I will plant no other but **O. K. Seeds** when I can get them.
W. S. WINTER, Mansfield, Texas.

I am well pleased with **O. K. Seeds** from your house for 2 years and will want some more next year, and my neighbors want the **O. K. Seeds** also.
F. M. WENDT, Patterson, Texas.

I am well pleased with **O. K. Seeds**. There is none better than Everitt's Earliest Cabbage. Indiana Sweet-Heart Melon is the best. Logan's Giant Tomato is excellent. I have been planting **O. K. Seeds** for 4 years, and I think they are the best for this country. My advice to all is, "Plant **O. K. Seeds**."
Geo. W. RISLEY, Karnes City, Texas.

I have used your **O. K. Seeds** for 11 years and like them best of all. Your Early Valentine Beans were ready for use in May. Best I ever raised. Rough and Ready and All-Head Early are the finest cabbages. I would not be without them. Purple Top Munich Turnips surprised my neighbors. Early Six Weeks Potatoes, early and fine; can't be beat. **O. K. Seeds** are the best. I will use no others, and my neighbors will order through me next season.
M. L. WEST, Kirk Key, Breckinridge Co., Ky.

Brill's None-Such is the most tender and sweetest cabbage we ever grew. Thoroughbred Potatoes are early, good croppers and good quality. Logan's Giant Tomatoes are of enormous size.
J. C. MOSSFORD, Millbrook, Pa.

I am much pleased with **O. K. Seeds**. Green Mountain and Six-Weeks Potatoes are my favorites. Carter's Cardinal Turnips are fine. Yellow Globe Danvers and Red Wethersfield Onion are always found in my garden. I am so well pleased with **O. K. Seeds** that I will send an order for next year. I also want to get a Man-Weight Machine.
A. L. REYNOLDS, Logansport, Ind.

I have planted your **O. K. Seeds** and like them. Send me a Catalogue and I will send another order.
W. S. THOMPSON, Riley, Okla.

The **O. K. Seeds** from you were the best and cheapest I ever planted. Every seed seemed to come up. The Indiana Sweet-Heart Melon made a fine crop when others failed. Everitt's Earliest is the earliest cabbage I ever planted. Logan's Giant Tomatoes are large, solid and fine flavor. Green Mountain Potato made a fine crop, notwithstanding the drought.
J. T. SOUTHERLIN, Brooklyn, Va.

We are well pleased with **O. K. Seeds**. Don't think we could have done any better anywhere.
H. E. BELM, Greensburg, Ky.

O. K. Seeds are the best I ever saw. No trouble to get plants if you sow **O. K. Seeds**. Logan's Giant Tomato is the best I ever saw. It stands at the head of the list in size, quality and yield. JAMES L. NOBLITT, Stammer's Creek, Ind.
My corn did extremely well. Cabbage and Japanese Climbing Cucumber good. Prize-Taker Onion extra good.
SHERMAN BATES, Bales Landing, Ky.

O. K. Seeds from your house all proved satisfactory. The sugar corn was the best we ever saw. Everitt's Earliest-of-All Tomato the earliest we ever raised. Logan's Giant Seedling grew to weigh 5 and 6 pounds each. It was the largest ever seen in this part of the country. It is also the best flavored and the best for canning.
ROBERT PENDLETON, Milton, Ky.

I have bought and planted your **O. K. Seeds** for four years, and I can say I am well pleased with them. They are just as you say. Space forbids me mentioning all varieties, but I want to especially mention Brill's None-Such Cabbage, Prize-Taker Onion, Gladiolus, Caladiums. Also the Early Six-Weeks Market Potato, which leads for earliness.
B. D. YODER, West Liberty, Ohio.

I like your **O. K. Seeds** better than any other. Logan's Giant Seedling Tomato was the finest I ever raised. Your Superior Late Flat Dutch Cabbage was excellent. The largest heads in the neighborhood.
Mrs. LIZZIE JONES, Ellinsville, Ind.

A Page of Superb Vegetables.

Lack of space prevents me from printing illustrations of these superb new vegetables. Nevertheless, they could not be any better with illustrations, and my customers will make a mistake if they do not include all or a goodly part of them in their orders.

BEAN.

Burpee's Stringless Green Pod. The only stringless green-pod Bush Bean in cultivation, it surpasses all other varieties in crisp and tender flavor. Pods are absolutely stringless, thick meated, straight, beautiful green and fine appearance. This variety is earlier than the Imp. Red Valentine and Yellow 6 Weeks, and a great value not only to the Market-Gardener, but also to the amateur, who seeks finest quality for the home table. **Pkt. 10c, Pint 25c, Quart 45c, Peck \$2.00, bush. \$7.50.**

BEET—Columbia.

The roots are of a neat turnip shape, with smooth skin and deep blood red flesh, of rich, tender quality. It is ready to use very early, growing as quickly as does the Egyptian, while it does not become coarse and stringy, when of large size. Compared with such famous sorts as Eclipse and Edmunds, the Columbia has proved earlier than either, and even better in quality. Its habit of growth it is very even; the foliage small, neat and of a rich bronze color. It is also good for winter, grown from seed sown in July. **Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 60c.**

CABBAGE—Mammoth Rock Red.

A Market Gardener's strain of unusual size, color and weight. Its handsome appearance, large size, solidity and good quality will make it very desirable to all who like Red Cabbage. Color very dark red. Every Market Gardener should plant this splendid variety. **Pkt. 5c, oz. 25c, ¼ lb. 70c, lb. \$2.50.**

CUCUMBER—Cool and Crisp.

The skin is very dark green, very near black and covered with knobs upon which the spines set, which give the pickles a very attractive appearance. They are very early and prolific. It is an excellent cucumber for slicing. **Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 50c.**

MUSK MELON—Long Yellow Cantaloupe.

This variety is one of the largest cantaloupes in cultivation. In flavor it is luscious, sweet and deliciously rich. It has been grown to weigh from 15 to 20 lbs., and from 15 to 18 inches long. It is hardy, vigorous and continues a long time in bearing. Flesh salmon. **Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 50c.**

MUSK MELON—Grand Rapids.

One of the earliest Musk Melons in cultivation. Flesh pure salmon color, clear to the rind, skin finely netted and is of vigorous growth. Melons grow in two different shapes, oblong and round, but the majority grow oblong. The quality is not as good as later varieties but its extreme earliness, large size and attractive appearance makes it a good seller for early marketing. We don't recommend this Melon for main crop. **Pkt. 5c, oz. 10c, ¼ lb. 15c, lb. 50c.**

MUSK MELON—Tip Top.

There is a distinctness about this excellent melon, which readily enables any one to select it in a group. The universal testimony of every one cultivating the Tip Top is, that every fruit produced, whether big or little, early or late in the season is a good one—sweet, juicy, fine flavor, firm, but not hard fleshed, eatable to the very outside coating. As a yielder it is not surpassed. One of the best varieties for Market Gardeners to plant for main crop. **Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 50c.**

MUSK MELON—Long Island Beauty.

A new variety of the Hackensack type, originated on Long Island. It possesses so many advantages over that well known sort that it is destined to supersede it. In form it resembles the Hackensack, but is more ribbed and of handsome appearance, besides this superior quality it is a week earlier. **Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 50c.**

PEA—Magnificent.

A second early variety of great merit. It is a green wrinkled main crop variety, growing about 2½ feet in height. The pods are very large, slightly curved, produced mostly in pairs and all over the vine from top

to bottom. The Peas are large, beautiful green and of delicious flavor when cooked. The vines are very sturdy, and being of a branching habit this variety can be sown more thinly than most varieties. Its season is just right to succeed the Extra Early varieties as it comes into bearing when varieties are about finished. We ask Gardeners and Truckers to give this splendid variety a trial. **Pkt. 5c, Pint 25c, Quart 45c, Peck \$1.75, Bushel \$6.00.**

PEA—Heroine.

Since its introduction a few years ago this variety has given wonderful results. Every one who sees it, wants it. The Heroine is a green wrinkled pea; grows about 2½ feet high and is literally covered with its long, heavy, pointed pods, in fact, so striking and distinct is this variety that it would be picked out at once in a field of one hundred other varieties. The pods are well filled with large peas, containing from 8 to 12 peas. The quality of this pea is simply perfection and owing to its rich, buttery, marrow-like flavor it will be grown by all leading Market Gardeners in this country. **Pkt. 5c, Pint 25c, Quart 45c, Peck \$1.75, Bu. \$6.00**

PEA—Allen's Gradus, or Prosperity.

An ideal extra early variety, and in our opinion will in time occupy a foremost place both for the amateur and Market Gardener.

In this new variety we have now large, tender, sweet and delicious peas early in June. The vine has heavy stems with long, dark green leaves and grows from 2½ to 3 feet in height.

It produces uniformly large pods, measuring from 4 to 5 inches long, well filled with peas of enormous size for such an early variety.

The peas remain tender and sweet for a long time. We highly recommend this splendid wrinkled pea to Market Gardeners. Its abundant bearing and large well filled pods will make it extremely profitable. **Pkt. 5c, Pint 25c, Quart 45c, Peck \$2.00, Bushel \$7.50.**

RADISH—Rose Gem Forcing.

It is one of the very earliest in cultivation, being a week earlier than Scarlet Turnip White Tipped, which it somewhat resembles in form and color. Their shape is perfectly globular, with rich deep scarlet top, blending into pure white at the bottom, exceedingly tender, crisp and delicious, never becoming hollow or pithy. It is fit to pull in three weeks from sowing. **Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 60c.**

RADISH—Vick's Early Scarlet Globe Forcing.

A most excellent early radish for Garden culture and for Hot-bed forcing. It is the earliest; its color is the handsomest; in flavor it is the mildest, most crisp, juicy and tender. It is the Market Gardener's Favorite as a forcing radish. It forms a small top and will stand a great amount of heat without becoming pithy. Its fine shape makes it sell for a higher price and more rapidly than any other shaped sort. **Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 60c.**

RADISH—Non Plus Ultra.

An improvement on the Deep Scarlet Turnip. Remarkably fine in quality and of very quick growth and ready to pull within 3 weeks after sowing. Perfectly globular, little roots, of very bright color and excellent shape; certain to insure ready sale on the market. It is one of the best radishes for forcing. **Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 60c.**

SQUASH—Chicago Warty Hubbard.

This strain without doubt grows the finest Hubbard in existence. The wartiness indicates a very hard shell, which is one of the features in a long-keeping squash; it also denotes extra choice quality—the harder and more warty the shell of a Hubbard Squash is the more delicate and sweet the flesh will be found to be. A Hubbard Squash, large, blackish green, hard as wood, with warty knobs all over it satisfies even the inexperienced observer that it is the best of its class, rich in quality, a keeper, and thick fleshed, and will sell at sight. **Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 60c.**

MAMMOTH WHITE FRENCH

The losses to farmers from hog cholera alone every year amount to millions of dollars. The most certain preventive, and at the same time the least expensive, while it furnishes a wholesome and valuable food, is a crop of our Mammoth White French Artichokes.

No farmer who raises hogs should let another year pass without providing a patch. They surely prevent cholera, and in this way are worth millions of dollars. A couple of dollars invested in Artichoke tubers may save many farmers from bankruptcy.

Every evidence is in favor of this crop as a cholera preventive. The wonderful productiveness and ease with which these Artichokes can be produced is always a surprise to those who cultivate them for the first time. They are an excellent food for cattle, sheep and horses, and the cheapest and healthiest hog food known, **1 acre being equal to 2 acres of corn** for building up large, healthy frames with plenty of bone and muscle. They not only grow rapidly, but fatten on them, only requiring corn for a short time in the finishing process. The hogs harvest them themselves, thus saving all expense, even that of feeding. Freezing and thawing does not injure them, and hogs will feed themselves until late in the spring, when grass has come, except when the ground is frozen solid. We have never known hogs fed on Artichokes to die with cholera, while herds around them died by the score. No farmer can do better than to plant a piece of ground to Artichokes without delay. On good corn land they produce 600 to 1,000 bus. per acre, and do not fail in dry seasons. They delight in a moist, rich soil.

Ground too wet for general farm crops will produce immense crops. To destroy them plow under when they have attained a foot in height. Plant in the fall or early in the

spring, cut small like potatoes, 18 inches apart in rows 2 feet apart, 3 to 6 bus. on an acre. They make a full crop the first year. Each following year the field should be plowed in the spring. The plants will come up all over the surface and must be cultivated out and left stand in hills or the crop will be too thick.

PRICE—The crop was cut short this year by an early frost yet we will continue to sell them very low, so every farmer can devote a patch to this inexpensive, never failing valuable crop. **By mail, postpaid, 1 lb. 25c, 4 lbs. 60c. Freight or express 1-4 bu. 40c, 1 bu. \$1.00, per bbl. of 3 bus. \$3.00.**

GREEN GLOBE ARTICHOKE—The flower head is the part used. **Pkt. 5c, oz. 30c, 1-4 lb. 75c, 1b. \$2.25.**

ARTICHOKES.

G. W. Lupkins & Sons, Boone Co., Ind., say: "We have not lost a hog by cholera since we raised Artichokes, while it has carried many off all around us. You can not recommend the Mammoth White French Artichokes too highly as a hog food and cholera preventive."

Robt. Ridgeway, Miami Co., Ind., says: "I have grown Artichokes for years and would not think of discontinuing them while I raise hogs. They are a great preventive of cholera."

Everitt's Alpha Pole Bean.

The Earliest Pole Bean in Existence. Can be Grown as Far North as Bush Beans. Green Pods.

It is with no small degree of satisfaction that we offer this new Bean to our customers. Each seedsman aspires to be the first in offering new things, and the great competition to secure really valuable vegetables oftentimes runs the price up to high altitudes. We never let price prevent us from securing a really good article, and we paid for the stock of this bean, about 2 bushels, \$75. Our experience with it in the past proves that our investment was a wise one. There are several splendid varieties of green pod Pole Beans, but none of them approach Everitt's Alpha in earliness by more than two weeks. This Bean is so early that it can be grown in the far North wherever Bush Beans succeed, while for any section they are unsurpassed in productiveness by any Pole Bean, whether grown on poles or with corn. The vines produce nearly all pods and very few leaves. On this account they may be planted close together, about 2x3 feet. Also are better suited to grow in corn, not pulling the stalks down like the Beans with heavy foliage. The vines keep in bearing a long time. Quality is in all respects equal to the well-known Kentucky Wonder. The color of the seed is bright yellow, which is different from any other Pole Bean, thus proclaiming them a distinct sort. They have never been known to rust or blight. Pods long, round, thick, stringless.

The Beans that are enjoyed the most are usually the ones that come first. This is the Bean to grow. Also, the Bean that brings the most money is the earliest. Here we have it again.

As soon as the merits of this Bean are known it will be grown as generally as the now famous Kentucky Wonder. **Pkt. 10c, pt. 20c, qt. 35c, by mail, postpaid; by express, 4 qts. 80c, peck, \$1.50.**

FREIGHT PAID on O. K. Seeds. See 2d Cover Page. No other seed house in the country can make such an offer, because of their unfavorable location.

BEANS.

The crop was short. Prices are consequently high, and liable to change without notice. 1 quart to 100 feet of row, 1 1/2 bushels per acre. We pay postage on beans offered by packet, pint and quart. Half-bushels at bushel rates. **PRICE OF ALL BY MAIL, UNLESS STATED TO THE CONTRARY, Pkt. 5c, Pt. 25c, Qt. 40c.**

Davis Kidney Wax.

A Wax Podded Bush Bean with Clear White Seed. Every Seedsman, every Canner,

every Gardener, in short, every person who has tested this Bean, concedes that it is a great way in advance of any other Bean of the kind ever offered. It is **absolutely rust-proof**, and so productive that a field viewed from a distance shows more yellow from the pods than green from the leaves. The plants are a complete mass of pods, yet they hold up well from the ground. Pods are always full of large, plump, white Beans; never a blank. Pods are larger and handsomer, flavor finer and yield greater than any other Kidney Wax Beans in Cultivation. *Early as Golden Wax.* For canners this Bean fills a long felt want. *Its pearl white Beans, combined with other qualities mentioned, make it entirely without a peer.* In a test of all the principal Wax Beans, **Davis Kidney yielded 1/2 more than any other. Pkt. 7c, pt. 25c, qt. 40c.**

DAVIS KIDNEY WAX.

Dwarf Wax Podded.

VALENTINE WAX—*The Earliest Wax Bean.* A perfect round pod Valentine Bean, with wax pods, and the earliest Wax Bean in cultivation. The pods are very thick and meaty, with so little string that they may properly be called stringless. Free from rust, a vigorous grower, and will surely become a great favorite with all gardeners for home or market. To show its extreme earliness, we need only to relate the fact that beans planted June 18 produced pods 4 inches long by July 25, and on August 1 half a crop could be picked. **Pkt. 7c, pt. 25c, qt. 40c.**

KEENEY'S RUSTLESS GOLDEN WAX—*This new Bean is the result of many years' efforts on the part of one of the most experienced and largest Bean growers in the country.* It combines hardness, productiveness and fine quality. Strong grower and rust-proof. **Produces, under favorable conditions, 100 to 150 fold. Peck \$2.00, bu. \$7.50.**

RUST-PROOF GOLDEN WAX—This is the handsomest and hardest of all Wax Beans. Pods long, thick and rust-proof. Much exceeds Golden Wax in yield and is of better quality. Should be grown in every garden. **Peck \$1.50, bu. \$6.00.**

WARDWELL'S KIDNEY WAX—Week earlier and yield 1/2 more than Golden Wax. Stalk erect. Pods long, broad, flat, brittle, stringless. Delicate waxy color. Seed white, with a reddish-purple spot. **Peck \$2.00, bu. \$7.50.**

CHALLENGE BLACK WAX—*The first to produce a full crop of pods.* This habit is of inestimable value to market gardeners. Plants are more upright than the old Golden Wax. Pods large, good color, stringless and of superior quality. **Peck \$1.50, bu. \$6.00.**

NEW BLACK EYE WAX—*Extra early.* The seed is white, with black markings around the eye. The pods are about an inch longer than the Golden Wax, and plants are vigorous in growth. It is very productive. **1-4 bu. \$1.50, bu. \$6.00.**

DWARF GREEN PODDED.

LIGHTNING EARLY VALENTINE—*The earliest snap short in the country.* The most profitable variety for market. This variety is well named, as it is lightning quick in ripening in comparison with any other stock of this popular Bean. The pods are large, it is very productive, and, when young, entirely stringless. It can not be recommended too highly to the market gardener, as he derives his greatest profit from the earliest crop. With the **Lightning Early Valentine** you beat your competitor one to two weeks, which means many dollars in profits. Sure to give satisfaction. **By freight or express, peck. \$2.00, bu. \$7.50.**

LMP. EARLY RED VALENTINE—So well and favorably known as to not need description. More extensively grown than any other tender green pod Bush Bean. **Peck \$2.00, bu. \$7.50.**

IMP. EARLY YELLOW SIX WEEKS—Well known old sort. *Very early.* **Peck \$1.25, bu. \$5.00.**

EARLY MOHAWK—An old sort. The hardest variety. Esteemed for first planting, as it will stand a slight frost. **Peck \$1.25, bu. \$5.00.**

BEST OF ALL—Pods long, fleshy and entirely stringless. Very productive. *Very early* and bears a long time. **Peck \$1.25, bu. \$5.00.**

NEW EXTRA EARLY REFUGEE—A selection from the well-known Refugee, and is ready for market, about the time the ordinary Refugee is in flower. An immense yield and sure to produce a crop in either wet or dry season. Best for pickling. **Peck \$1.25, bu. \$5.00.**

3. LEADING DWARF OR BUSH LIMA BEANS.

One Packet of each, 15 cents.

BURPEE'S—This is the true large Lima in bush form, and comes true from seed. The plant grows 18 to 20 inches high, branching so much that each bush is circular and 2 to 3 feet in diameter. **Pkt. 6c, pt. 25c, qt. 40c, peck \$2.00.**

DEER'S—We recommend them highly. Very delicious flavor, medium size. **Pkt. 6c, pt. 25c, qt. 40c, peck \$2.00.**

HENDERSON'S—This was the first Bush Lima Bean offered. It is a very early variety and enormously productive. It is largely grown as a field crop for dry beans, being a reliable and heavy yielder. A light soil, inclining to sand, suits them best. **Pkt. 6c, pt. 20c, qt. 35c, peck \$1.25, bu. \$5.00.**

BUY A DOLLAR'S WORTH OF PACKET SEEDS
and I will give you 50 Cents' worth FREE. I am determined to lead in liberality as O. K. Seeds lead in quality.

Field Beans

Plant $1\frac{1}{2}$ bus. per acre.

The cultivation of Beans as a field crop is increasing, and in many sections of the country it is now an important and profitable industry. The varieties we offer are the very best that can be grown.

GREAT WESTERN—Unusually early, productive and the handsomest Bean of all, being large, round, ivory white. When other kinds fall down and spoil in a wet season, these stand up on a strong stalk. Resists rust and mildew. Will stand in the field after maturity longer than any other and not waste. The Great Western grows the heaviest top of all, with a root in proportion, thus enabling it to withstand drought, and fits this variety particularly well for our Western country. The pods hang in clusters all over the top (see illustration). *This stalk was photographed suspended by the root.* Also, notice the pods contain from 7 to 9 Beans each, denoting a remarkable productive sort. **This Bean yielded in a test at the rate of 450 bushels per acre.** They are the grandest Bean of all, and surprise and please every grower. Pkt. 5c, pt. 20c, qt. 30c, peck 75c, bu. \$2.50.

WISCONSIN TREE—Quite distinct from the Mexican or California Tree Bean, the Bean being twice as large, more productive and very early. The Beans are very white, of finest flavor, and cook in less time than the Navies. Pkt. 5c, pt. 15c, qt. 28c, peck 75c, bu. \$2.50.

WHITE WONDER—A very early Field Bean that can be planted on ground where other crops have been removed. It greatly outyields the Navy on the same ground and under same conditions. Seed is about the size of Navies. Pkt. 5c, pt. 15c, qt. 28c, peck 75c, bu. \$2.50.

WHITE MARROWFAT—A standard field variety. Largely grown. Pkt. 5c, pt. 15c, qt. 28c, peck 75c, bu. \$2.50.

Pole or Running Beans.

LAZY WIVES.—No good wife would like to be called a "lazy wife," yet she will be excused for exhibiting a lazy spell when "Bean picking" time comes, if she has the foresight to plant this variety. They are called Lazy Wives because they hang so full and the pods are so long and broad that a mess is soon picked. The pods are green, wonderfully broad, thick, fleshy and entirely stringless, retaining all their good qualities until nearly ripe. The peculiar taste and agreeable flavor of this Bean are so captivating that other varieties are not desired while the Lazy Wives can be obtained. Pkt. 6c, pt. 25c, qt. 40c.

EARLY GOLDEN CLUSTER WAX—It grows rapidly, bearing very early, clusters of 3 to 6 pods of

**GREAT WESTERN
FIELD BEAN**
INTRODUCED BY
J. A. EVERRITT, SEEDSMAN
INDIANAPOLIS, IND.

der and succulent. Good green or dry. A wonderful yielder. Pkt. 5c, pt. 20c, qt. 35c, peck \$2.00.

Pole Lima Beans.

Price of Each:
Pkt. 6c, pt. 25c, qt. 45c, $\frac{1}{4}$ bu. \$2.00.

DREER'S IMPROVED—An improvement in quality on the large Lima. They are plumper and richer; remain green longer.

LARGE WHITE.—This well-known and delicious Bean is everywhere esteemed. Very large.

KING OF THE GARDEN—A magnificent variety in growth of vine and number and size of pods. Specimens have been grown over 9 inches in length and containing 7 great large beans.

CHALLENGER—Have been constantly improved by saving Beans from the strongest vines and best filled pods. They yield an amazing quantity of shelled Beans.

SEIBERT'S EARLY—This variety was developed by a market gardener, who selected the largest green Beans from the thinnest and most easily opened pods. Practical value to the market gardener has been the object aimed at, and we believe it to be the very best sort for their use. The vine is very productive and exceptionally hardy and vigorous. It produces pods very early and the Beans are of fine quality. The green shelled Beans are of immense size, but so tender and succulent that they shrink in drying to about the size of the Large White Lima. Pkt. 10c, pt. 25c, qt. 45c, postpaid.

rich golden color. Pods average about 8 inches in length, tender and entirely stringless, retaining their plumpness and tenderness long after they have attained a large size, and continue to bear, if the pods are picked, until frost. Pkt. 6c, pt. 25c, qt. 40c.

WHITE CREASE BACK—For String Beans it is simply perfection. Its handsome green pods grow from 5 to 6 inches long, perfectly round, with a crease in the back. They ripen early and bear continuously all summer; the vines being loaded from one end to the other. Pkt. 6c, pt. 25c, qt. 40c, $\frac{1}{4}$ bu. \$2.00.

KENTUCKY WONDER—A very prolific sort, grows vigorously and climbs well; pods grow in large clusters, green, 9 to 10 inches long, nearly round; crisp and tender. Sure to give satisfaction; excellent to grow in corn. Seed long, oval, brown color. We sell more of this variety of Pole Beans than of any other to our city gardeners. This hint may be of advantage to parties undecided what to purchase. Pkt. 6c, pt. 20c, qt. 40c, peck \$ 00.

HORTICULTURAL—A round speckled bean, used both in pods and shelled. Pkt. 6c, pt. 20c, qt. 35c, peck \$1.75.

EARLY WHITE DUTCH CASEKNIFE—One of the earliest of all. Suitable for corn or for poles, flat pods, well filled with fine, large beans. Excellent for winter use. Pkt. 6c, pt. 20c, qt. 35c, peck \$1.25.

RED SPECKLED OUT SHORT—An excellent variety and particularly valuable for planting among corn. Vines medium, pods short, round, tender and succulent. Good green or dry. A wonderful yielder. Pkt. 5c, pt. 20c, qt. 35c, peck \$2.00.

CROSBY'S IMPROVED EGYPTIAN BEET

EARLY...

OTHELLO.

Dark Blood Turnip Beet.

1 Pkt.
of
each
15c.

This very desirable variety will become very popular with the market gardeners, who require a variety of the darkest color for their main crop. It is the result of a very careful selection of the finest formed and very darkest roots, having been annually selected for years for seed stock, and we venture to say that there is no Beet in this country superior to it for its dark, rich color, perfection of form or sweetness of flavor; foliage dark crimson. Pkt. 8c, oz. 15c, ¼ lb. 30c, lb. 75c.

A superior strain of the well known **EARLY EGYPTIAN**. The result of years of careful selection by a noted Eastern market gardener. Retains the earliness of the parent stock and is the best Beet for forcing or for first sowing outside. Desirable for small Beets for forcing or for early market, as it assumes its turnip shape in the early stages of growth, and on this account is preferable to other varieties requiring a longer time to attain a marketable shape and size. Is of handsome form, not so flat as the ordinary Egyptian nor as round as the Early Eclipse; of good size, fine quality, dark blood red color, with very small tap root and few small tops. Of very rapid growth, and may be sown outside as late as July. Per pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 60c.

Crosby's Improved Egyptian.

**EVERITT'S
FIRST & LAST
BEET**

First and Last Beet

This very fine and decidedly improved variety of Beets was discovered several years ago. While it then showed superior qualities, it has been still further improved by careful growing and selecting for the ideal shape, size and color, until now, we believe, we have the **perfect Beet**. The roots are of the very best form, with smooth skin and deep, blood red flesh. Quality sweet and tender. It comes for use as early as Egyptian, of better quality. If left in the ground they will continue to grow and attain large size for fall and winter, retaining all their good qualities, hence the name, **First and Last**. Top small and neat. All customers should plant a package or more of this superior Beet. Pkt. 10c, oz. 20c, ¼ lb. 35c, lb. \$1.00.

THIS BEETS ALL—One pkt. each of these unsurpassed Beets for only 15c.

ENGRAVED FOR
BY A. EVERITT, SEEDSMAN

BEETS.

CONTINUED.

1 oz. will sow 50 feet of row.

Price of all varieties in this list except where given: Pkt. 3c, oz. 5c, $\frac{1}{4}$ lb. 12c, lb. 35c, post-paid. By freight or express, 5 lbs. or more of a kind, 25c per lb.

IMPROVED BLOOD TURNIP—The best strain of this popular sort. The result of years of careful selection, which has increased its size and made it earlier. Color, rich, deep red; fine grain, solid. Excellent for all purposes.

DETROIT DARK RED TURNIP BEET—One of the very best sorts for the market and home garden. Its small, upright top, early maturity and splendid shape make it popular everywhere. Flesh, bright red, crisp, tender and sweet, and remains in prime condition a long time. Pkt. 5c, oz. 8c, $\frac{1}{4}$ lb. 20c, lb. 60c.

ECLIPSE—A great acquisition to our list of Turnip Beets. Always gives the greatest satisfaction among market gardeners. It is as early as the Egyptian, and much more desirable, owing to its globe shape, great smoothness and regularity, having a small top, very sweet, flesh fine and dark blood color.

EDMAND'S TURNIP—A selected strain, very uniform and even in type; flesh, deep blood red, exceedingly sweet and tender; of good market size. It is very early, and for marketmen's use is justly popular and much called for wherever it has been sold.

EXTRA EARLY EGYPTIAN—Ten days to two weeks earlier than the Blood Turnip. Of fair quality, medium size; fine for forcing.

IMPROVED LONG BLOOD RED—One of the finest Beets for winter and spring use, also on account of its great productiveness; very valuable to grow for cattle. Sweet, crisp and tender; color, rich red; withstands drought.

DEWING'S IMPROVED BLOOD TURNIP—Very symmetrical in shape and free from fibrous roots; flesh, deep blood red.

HALF-LONG BLOOD—An excellent second early. Good, also, for winter and spring.

LENTZ'S EXTRA EARLY BLOOD TURNIP—As early as Egyptian; larger and of unsurpassed quality, being tender and sweet at all times, old or young. Will produce a crop six weeks from planting. A great favorite with Eastern gardeners, and popular wherever known.

BASTIAN'S EXTRA EARLY—Very early, of quick, large growth; fine turnip form and bright, red color.

EARLY YELLOW TURNIP—Similar to Blood Turnip in form, but yellow flesh.

SWISS CHARD—A distinct vegetable, and makes superior greens. The ribs are used as asparagus, the leaves as spinach. We recommend all our customers to grow it.

Mangel Wurzel and Sugar Beets.

For Stock Feed and Manufacture of Sugar. Price of all varieties: Pkt. 3c, oz. 5c, $\frac{1}{4}$ lb. 12c, lb. 30c, by mail. By freight or express, 5 lbs. or more at 25c per lb.

MAMMOTH GOLDEN GIANT—Color, yellow; broad at top and bottom, making very heavy roots. A favorite with leading farmers.

MAMMOTH LONG RED—Grows to an immense size, single roots weighing 30 to 50 lbs. Under high culture, 2,000 bus. per acre have been grown. Quality excellent.

GOLDEN TANKARD—The flesh is deep yellow to the center. One of the best and richest for food for sheep and cattle. Highly prized by stockmen.

CHAMPION YELLOW GLOBE—The short root makes it particularly valuable for light soils; of fine quality and a heavy cropper.

Sugar Beets.

Price same as Mangels.

KLEIN WANZLEBEN—This is the variety of Sugar Beet which the analytical chemists, both of Germany and this country, have united in recommending as

THE GREAT SECRET

If you want the best Seeds at the lowest cost, that will produce the best crops and realize the most money, plant Everitt's

Celebrated O. K. Seeds.

possessing the highest sugar-producing qualities, which scientific investigations have been fully sustained by the practical results of sugar making in the factories, as much as 18 tons of sugar having been made from 100 tons of roots of this variety. It is endorsed and recommended by the Department of Agriculture at Washington.

LANE'S SUGAR BEET—Long, symmetrical roots, fine grained and very sweet; a heavy cropper; splendid for table use or cattle feeding.

FRENCH YELLOW SUGAR—Grows very large; much above ground. Very rich in sugar.

VILMORIN'S SUGAR BEET—Color, white; medium size. Greatly esteemed by sugar manufacturers. This is recommended as being next to the Klein Wanzleben in the percentage of sugar it will produce.

Some Odds and Ends.

BROCOLI—Early Purple Cape. Produces large heads of a brownish purple color; very close and compact and of excellent flavor. Pkt. 5c, oz. 25c, $\frac{1}{4}$ lb. 75c.

BRUSSELS SPROUTS—Improved Dwarf. They grow about 2 feet high, and produce from the sides of the stalk numerous little sprouts, 1 or 2 inches in diameter, resembling cabbage. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 60c.

CHICORY—Large Rooted or Coffee. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

COLLARDS—Georgia Southern. A variety of cabbage. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 35c, lb. \$1.00.

CORN SALAD—Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 75c.

CRESS OR PEPPER GRASS—Sow early in the spring, very thickly in shallow drills. The sowing should be repeated every week, as it soon runs to seed. Use as a small salad. Extra curled. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 70c.

WATER CRESS—True. Pkt. 10c, oz. 25c, $\frac{1}{4}$ lb. 75c.

GARLIC—They are cultivated for flavoring. The flavor and odor are similar to onions, but more powerful. Plant on very rich soil in rows 14 inches apart, 6 inches apart in row. Pkt. 5c, $\frac{1}{4}$ lb. 20c, lb. 50c.

KOHL RABI—Early White Vienna. Very early, small, handsome, white bulbs. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 50c.

Early Purple Vienna—Identical with former, except in color. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 50c.

LEEK—American Flag. Used for soups and salads; also fine when sliced and cooked with peas. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 40c, lb. \$1.25.

MUSTARD—Black or Brown. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

White—Best for salad. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

New Chinese—Highly esteemed for salads, particularly in the South. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb: 65c.

To compare our prices with others. To remember that O. K. Seeds are the best. That we will fill your orders at once. To order all your seeds from us. To order a Man-Weight Cultivator and Drill. To order an Eureka Seed Drill. To order an Electric Bug Exterminator. To order a New Idea Broadcast Seed Sower. To order a Universal Powder Distributor. To use "Fertio-Insectono" to kill all Bugs and Worms on all crops. To subscribe for UP-TO-DATE FARMING AND GARDENING. And you will succeed in 1900.

EVERITT'S EARLIEST CABBAGE ALWAYS HEADS AND ALWAYS SOLID HEADS.
THE GREATEST & MOST PROFITABLE FOR MARKET GARDENERS.
EARLY CABBAGE.

WE MAIL 500,000 COPIES OF THIS CATALOGUE - - - - -

and should sell 500,000 PACKETS of this Beautiful, Good, Earliest of All

Cabbage

Of course you will understand by this that we think everybody should grow it. This expresses the matter exactly. It should be in every garden throughout the land.

IT'S THE FIRST TO HEAD.

IT MAKES GOOD SIZED SOLID HEADS LIKE THE ILLUSTRATION.

Not a bunch of leaves like some other early varieties. **70 days from sowing** the seed you have Cabbage on the table or sell it in market and get the big price if you plant **Everitt's Earliest**. The heads are very solid, while the edible part is sweet and tender. The illustration shows a half section of a head which can not be surpassed by any variety, early or late, in fine texture, small ribs and solidity. By reason of this Cabbage coming so early, a second crop of late Cabbage or some other crop can be grown on the same ground. Set the plants 15 inches apart in the rows and rows 2½ feet apart.

If you are an **Up-to-Date Gardener** you will certainly want some of this Earliest Cabbage. It is one of the best things we offer, and we again express the hope that every person who receives this Catalogue will obtain a package or more of it, even though they omit something else. **Pkt. 8c, 3 for 20c, oz. 20c, ¼ lb. 50c, 1b. \$1.75.**

CWT. Cabbage. Every body knows that **CWT.** means hundred weight, and this is the largest and heaviest of all varieties of Cabbage, **single specimens weighing nearly a hundred pounds.** It is the grandest type of mammoth Cabbage, and certainly whoever raises for exhibition purposes should not fail to include the **CWT. Cabbage.** A late fall and winter sort. Splendid keeper and of good quality. For kraut it is simply immense, a few heads filling a barrel. If you want the largest Cabbage ever seen in your neighborhood, and, besides, one of splendid quality, plant some of **CWT.** **Pkt. 10c, oz. 20c, ¼ lb. 60c.**

A GRAND NEW CABBAGE EVERITT'S LATE WHITE DUTCH.

THIS IS THE CABBAGE TO GROW FOR PROFIT.

LARGE, LATE,
ROUND, SOLID
HEADS.

The numerous varieties of Cabbages being introduced are liable to cause confusion to growers, but it is our aim to test and sift the varieties, so we offer not one sort but what meets a real need in some part of the country, or is needed to round out the rotations of the seasons properly.

We don't pretend to offer any excuse for bringing this new, valuable and distinct sort to the attention of growers, as its merits warrant high praise. In compactness, solidity, hardness, weight, size of head, uniformity of shape and excellent keeping qualities it is unsurpassed by any sort heretofore on the market, and possesses the best qualities to give it the greatest commercial value.

The average weight of the heads is from 18 to 24 lbs. This is the greatest winter and spring Cabbage, not rotting like many other kinds do. For table there probably never will be a better, the head being as white as snow, solid,

The
Newest
and Best
Late Cabbage.

crisp and fine grained, while for market and shipping it will lead wherever offered.

\$250.00 WORTH FROM 1 LB. OF SEED, AND OTHER REPORTS.

"We have raised the White Dutch Cabbage this year for the first time with very good results. We sowed one pound of your seed on two and one-half acres and the crop will bring about \$250.00. We set our plants two to three feet apart; we think we obtain better results than would be obtained by setting the plants closer together. We fertilized the land with 500 pounds per acre, using Ludlam's Dragon's Tooth Brand. One load of White Dutch Cabbage, 500 heads, weighed 4,500 pounds, an average of nine pounds per head, which is the best average we have ever seen, when all the plants were cut through the patch. I would say in conclusion that White Dutch Cabbage Seed grows the largest, hardest and most matured heads of any Seed I have yet seen, some of our heads weighing 21 pounds after being trimmed for market. Yours truly, H. N. BLAIR, Skaneateles, N.Y."

"In regard to the White Dutch Cabbage, they were the best I ever raised, and I have been raising Cabbage for 20 years. The average weight was from 12 to 18 pounds, and they often weighed 25 pounds. They are good keepers and do not rot, as other kinds often do. The quality was of the best, and the color could not be better. I set 8,000 to try them, and will raise no other this year. The Cabbage, after heading, did not crack, but stayed solid and firm until fall. Yours truly, JACOB WRIDE, Auburn, N.Y."

"The best I ever had. **Grows Quick, sure to head, large size, and of very fine flavor.**"
"ANTHONY PERRY, Pawtucket, R. I."

"We have placed considerable of large, late, White Dutch Cabbage Seed in the hands of the market-gardeners, and they all report that it has given entire satisfaction. I will say personally that our trade has increased very much, and feel confident that we can dispose of a large amount this coming season. **The people now demand it. I feel confident that it will fill a long desired want in this market.**"
"THOMAS J. GREY & CO., Mass."

"The sample of White Dutch Cabbage sent for trial in my grounds the past season proved it a fine strain of this popular Cabbage. As a shipping variety it is very valuable. The solidity of its round heads, whether large or small, and its snowy whiteness, make it particularly attractive as a market variety."
C. L. ALLEN, Floral Park, Long Island."

"I consider your White Dutch Cabbage the best and most remunerative variety to grow, as it is a sure header, of good size, firm, and of excellent flavor, making it a very valuable market variety."
"HENRY A. GALDE, Marlborough, N. Y."

"Dear Sir: Find enclosed \$1.25 for one-half pound of large, late, White Dutch Cabbage Seed. I had some of that seed last year, and it did excellent. I have the cabbage now, and they are bringing a good price. They are fine keepers."
GEO. E. GOWEN, Stratham, N. H."

PRICE. This Cabbage Seed, in fact, all our varieties of Cabbage Seed, are cheap at the prices we ask. Every ounce of our Cabbage Seed is grown under the constant watchfulness and care of the best Growers in the world, insuring purity and fidelity to their particular kinds. Farmers and Gardeners must not judge quality entirely by price, but by the reputation of the seller. O. K. Seeds are always right, regardless of price. 1 Pkt. 10c, 3 for 25c, 8 for 50c, oz. 25c, ¼ lb. 75c, per lb. \$2.50.

Everitt's Short Stem Drumhead Cabbage.

This famous variety is a grand variety for truckers to raise for distant markets, while it is also a magnificent and reliable variety for all purposes. Very reliable to head in the South. Grows a compact head. Withstands drought well. Seldom bursts or rots. Heads frequently weigh 30 lbs. each. Keeps until late spring. Stem very short. It is almost all head and very sure to head. Pkt. 5c (worth 5 times the price), oz. 15c, ¼ lb. 60c, lb. \$2.00.

ROUGH & READY OR HARD HEADING CABBAGE

Owing to the peculiar and extraordinary keeping qualities of this Cabbage, which preserves the heads until late spring as green as when gathered in the fall, it is pre-eminently the King of Cabbage for late spring selling. For get up and getting there this variety occupies the field without a superior. Season late. Sure to produce large heads of the greatest solidity, even under unfavorable circumstances. The heads grow medium to large, but owing to their hardness it is one of the heaviest cabbages grown.

Those who have this Cabbage for sale in the spring will coin money. Pkt. 10c, oz. 20c, $\frac{1}{4}$ lb. 60c, lb. \$2.00

GEORGE BLUE'S "TREASURE" CABBAGE.

DEFINITION OF TREASURE—"SOMETHING VERY MUCH VALUED."

This variety of Cabbage has been grown by Mr. Geo. Blue, trucker, near Indianapolis, for a number of years, and, as is well known by other gardeners, the seed has been guarded as the most valuable treasure by Mr. Blue, and all efforts to obtain the seed in its purity have heretofore failed. About 5 years ago some seed was sold by another seed house in this city under the name of "Acme," which purported to be the Blue Cabbage, but it was not, and the crop showed it to be a bad mixture and worse than worthless. We guarantee our seed to be strictly the true genuine Blue Cabbage, and we name it **Geo. Blue's Treasure Cabbage** as we know that it will be a valued treasure to other growers as it has been to Mr. Blue. Our seed was grown by Mr. J. M. Lupton on Long Island, who is the most extensive grower of Cabbage seed in the country, and a person eminently qualified to judge a variety of Cabbage on account of his personal contact with all the known varieties and consequently the opportunities he has to make comparisons. He says:

"In regard to Blue's Treasure Cabbage, there is no question as to its being distinct. There is no other variety like it catalogued. * * * As to its superiority, it depends a good deal on the locality. I understand that in your section the gardeners like this particular Cabbage better than anything else they can get and that it is suited to your market. I have no doubt it will be liked all through the West. It is an excellent keeper and some gardeners think a great deal of that. I think this Cabbage is well worth introducing. With me the Cabbage grows with comparatively few outer leaves, a medium size, round, deep head, short stem, with a wavy edge to the leaf. Is dark bluish-green color. True to color and type and a first-class keeper."

The description of this Cabbage given by Mr. Lupton is correct, and we will add that it is a very sure grower, and reliable header. Every stalk will produce a solid head. We know gardeners who would have paid \$2.00 an ounce for this Cabbage seed if money would buy it, also we know that bribery offered Mr. Blue's farm hands failed to get the seed, and we have no doubt attempts have been made to steal the seed or plants from the field, but all attempts of this kind failed. **Price, Pkt. 10c, oz. 25c, 1-4 lb. 75c, lb. \$2.50.**

George Blue's Treasure Cabbage.

HOLLANDER CABBAGE.

This is a variety of cabbage that has been exported to this country from Holland, arriving late in the season, and on account of its well preserved condition, great solidity and depth of head, sells at higher prices than American sorts. **It is one of the hardest varieties in cultivation, enduring drought and frost that would destroy other varieties.** Head of medium size, round and very solid; matures late and keeps best of all for late spring use. *Every head coming out in the spring as sound as a dollar and of healthy bright color.* We offer the genuine, every seed strictly true. *Don't take chances, as there is much spurious seed on the market.* **Pkt. 5c, oz. 20c, 1-4 lb. 60c, lb. \$2.00.**

EXTRA EARLY AND EARLY CABBAGE.

1 oz. of Seed produces about 3,000 Plants.

EARLY YORK—A well known extra early sort. Pkt. 3c, oz. 10c, $\frac{1}{4}$ lb. 40c, lb. \$1.20.

EARLY ETAMPES—Quickly forms fine, solid, pointed heads. Of extra quality. Pkt. 3c, oz. 12c, $\frac{1}{4}$ lb. 40c, lb. \$1.20.

EVERITT'S EARLY GIANT—No other variety grows as rapidly as this, and early in the summer you have cabbage heads equaling the fall and winter sorts. Heads very solid. If planted late is a fine fall and winter sort. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

IMP. EARLY WINNIGSTADT—One of the best Extra Earlys, being a sure header and will grow a head under circumstances where many others would fail. The heads are so solid that cabbage worms can not penetrate them. Valuable for summer, fall and winter. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 60c, lb. \$2.25.

SELECTED EARLY JERSEY WAKEFIELD—A favorite sort. Heads very compact, solid, of conical shape. Few outside leaves. Pkt. 5c, oz. 25c, $\frac{1}{4}$ lb. 75c, lb. \$2.50.

ALL HEAD EARLY—A new variety and one of the largest earlys in cultivation. Being a very thoroughbred variety the heads are very uniform and it is certain to head; growth compact, admitting close planting. If planted late, it is a splendid winter cabbage. Pkt. 3c, oz. 20c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

IMP. EARLY SUMMER—A popular sort. Our strain of this peerless cabbage is not excelled. Fine, large, solid heads will form in 90 days from sowing the seed, with proper care and cultivation. Pkt. 3c, oz. 20c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

EARLY FLAT DUTCH—Popular wherever grown. A good second early, of excellent quality. Pkt. 3c, oz. 15c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

LOUISVILLE EARLY DRUMHEAD—A very choice variety, largely grown in this section and following immediately after the Early Summer. When planted late makes an excellent winter cabbage. Pkt. 3c, oz. 20c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

LATE VARIETIES.

AUTUMN KING—A grand autumn and winter cabbage. Heads of enormous size and very solid. This variety is scarcely excelled by any other in weight of crop per acre. Pkt. 4c, oz. 15c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

ALL SEASONS—We have sold this reliable variety for over 8 years with the greatest satisfaction to our customers. If sown early will produce large heads early, and if sown late is a superior winter sort. We sell this cabbage in large quantities to many large growers, who prefer it to all others. Pkt. 3c, oz. 15c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

EVERITT'S SUPERIOR LARGE, LATE FLAT DUTCH—So well known as to scarcely need description. Our "superior" strain is unexcelled. Pkt. 3c, oz. 15c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

SUCCESSION—A fine fall and winter cabbage. This variety is one of the surest to head, scarcely a plant failing. Pkt. 4c, oz. 15c, $\frac{1}{4}$ lb. 50c, lb. \$1.50.

SURE HEAD—Takes its name from its quality of always heading up, even under unfavorable conditions. In all cases gives great satisfaction for general crop. Pkt. 3c, oz. 15c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

FOTTLER'S IMPROVED BRUNSWICK—Produces a large, firm, solid head, often weighing from 20 to 30 pounds. Pkt. 3c, oz. 15c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

DRUMHEAD SAVOY—A very large-headed variety, partaking of the size of the Drumhead Cabbage; flavor of the Savoys. Pkt. 3c, oz. 15c, $\frac{1}{4}$ lb. 50c., lb. \$1.75.

THE LUPTON.

A FINE NEW MAIN CROP CABBAGE.

Originated by Mr. J. M. Lupton, the largest individual Cabbage-grower on Long Island, who says of it: "I originated the Lupton from a single early plant of a late variety. It is between the two in point of size and season of maturity, coming in after the second earlys and before the late—more thoroughbred and holding color better than any late sort. It combines the health and vigor of late sorts with the uniformity and sure heading qualities of the best second earlys. I believe it will become the leading main crop Cabbage." Prices of seed grown by originator: Pkt. 5c, oz. 25c, $\frac{1}{4}$ lb. 75c, lb. \$2.00.

BRILL'S NONE-SUCH.

This new, distinct and valuable variety of Cabbage is really an "All Seasons" variety. Sown in the fall or in early hot-beds, it will head immediately after the Wakefield. The originator, who is the pioneer grower of Cabbage Seed on L. I. says: "The None-Such is unquestionably the best Cabbage for general purposes ever introduced. Succeeds admirably as second early, summer, fall or winter variety in every section of the U. S. and Canada. L. I. gardeners and others, who saw this Cabbage growing, willingly paid \$10 per pound for seed." Pkt. 15c, oz. 20c, $\frac{1}{4}$ lb. 60c, lb. \$2.00.

CAULIFLOWER.

EARLY SNOWBALL—Gilt Edge Strain. Probably grown more than all other varieties together for forcing or wintering over for early crop. We spare no pains or expense to produce the best seed possible, and confidently recommend it as equal to that offered by any one. Pkt. 10c, $\frac{1}{2}$ oz. 80c, oz. \$2.00, $\frac{1}{4}$ lb. \$7.50.

EXTRA EARLY DWARF ERFURT—Gilt Edge Strain. Our stock is almost as early as Early Snowball and is very desirable for forcing or for planting outdoors. Plants compact, with a few narrow, upright leaves; making it the best for close planting. Our stock of this is unsurpassed. Pkt. 15c, $\frac{1}{2}$ oz. 75c, oz. \$1.75, $\frac{1}{4}$ lb. \$6.50.

EARLY PARIS—An excellent early sort. Short stocks, white head. Pkt. 10c, $\frac{1}{2}$ oz. 35c, oz. 60c, $\frac{1}{4}$ lb. \$2.00.

GARDENER'S FAVORITE CAULIFLOWER—The earliest and finest Cauliflower in the country. Resembling Snowball in habit, and sure heading under adverse conditions to the most marked degree. It will head when all others fail. Dwarf erect habit, with few surplus leaves, allowing to be planted closely. Heads are very solid, pure white and of finest table quality. Pkt. 10c, $\frac{1}{2}$ oz. 50c, oz. \$1.00, $\frac{1}{4}$ lb. \$3.50.

CARROTS.

Sow 1 oz. to 200 feet of Drill, two lbs. to the Acre.

Price of all Carrots, unless otherwise quoted. Pkt. 3c, oz. 7c, $\frac{1}{4}$ lb. 15c, lb. 50c. By freight or express, not less than 1 lb. of a kind, 40c. per lb.

EARLY FRENCH FORCING—The earliest variety, largely grown for forcing purposes; globe-shaped root of an orange-red color.

EARLY SCARLET HORN—Best for early planting out of doors. Tops small; roots top-shaped; surface dented, skin orange red.

OX-HEART—Intermediate in length, between the half-long varieties and the Short Horn, but much thicker than the latter, attaining at the top 3 or 4 inches in diameter. It is of fine quality for table use, and deserves general cultivation.

HALF-LONG SCARLET NANTES—Tops medium; roots cylindrical, smooth, bright orange; flesh orange, becoming yellow in center; of the finest quality.

NEW CHANTENAY—This new, half-long, stump-rooted Carrot is one of the most productive varieties known; has an extra large shoulder, is easily dug, and is in every way desirable. It is very smooth, fine in texture, and of a beautiful rich orange color. Well worthy of cultivation.

DANVERS HALF-LONG ORANGE—A most excellent variety for all soils. It will yield the greatest bulk with smallest length of roots of any variety, 20 to 30 tons being no unusual crop per acre.

RED SAINT VALLERY—A large, beautiful Carrot, of a rich, deep orange-red color. The roots grow very straight and smooth, from 10 to 12 inches long. Very fine quality for table use, and very productive.

LARGE WHITE BELGIAN—Grows one-third out of the ground; immense yield; large size; easily gathered; very suitable for stock.

IMPROVED LONG ORANGE—Long roots, good yielder. Good for table or stock. We offer the best strain of this fine variety.

Plant O. K. SEEDS. It is the best kind of crop insurance.

Giant Victoria

The Largest Yellow Carrot

MOST PRODUCTIVE OF ALL.

This is the **largest** and unquestionably the **heaviest cropping** and **most nutritious** Yellow variety in cultivation. It is the largest and best form of Orange or Yellow Carrot known. The roots are remarkably **fine, very symmetrical** and of **excellent quality**, possessing **high feeding** properties. It is a **heavy cropper** on all soils, but especially adapted for strong or rich land. It grows fully twice as much weight per acre as the ordinary varieties, and as the roots grow more above the ground it is much easier to gather the crop. The roots frequently measure **12 to 18 inches** in circumference and yields **20 tons per acre**. Nothing excels this Carrot in quantity and quality of stock feed that can be grown on a limited area of ground. This grand variety is sure to suit every one who grows it.

N. P. CLARK, St. Cloud, Minn., *Importer and Breeder of Clydesdale Horses, Short-horn and Guernsey Cattle*, says: "In expressing my opinion as to the value of Carrots for stock, will say that no one who feeds stock can afford to be without them. I feed each year Mangel Wurzels and Ruta Bagas and esteem them very highly, but Carrots I regard as **indispensable**. I increase my acreage of Carrots each year and believe I secure better results from them than anything else I feed, and no variety can be better in quality and great productiveness than the Victoria."

Pkt. 5c, oz.
10c, ¼ lb.
25c, lb. 60c,

paid.

JUST THINK

Every Post-Office, Freight or Express Office in the country is a branch store for O. K. SEEDS. What could be more convenient? Hand the Postmaster a letter and in a couple days you will receive the best seeds that are planted under the sun. All charges paid. Why risk your crops on store seeds of uncertain age and quality? O. K. SEEDS planted means success. Store seeds planted means—WHAT? ? ? ? ? ? ? ? ? ? ? ? ? ? ? ?

The last obstacle to the universal growers of Celery removed. Choice Blanched Celery can be raised as easily as a head of cabbage or lettuce. We have sold many thousands of packets of our Eureka Self-Blanching, and we have not had one customer to complain, but, on the contrary, we sell to many of our customers of previous years by the oz., ¼ lb. and lb. They say they **never raised any crop that met with as much favor among customers as the Eureka Celery**. The only trouble we have with it is to grow enough seed to supply the demand. One great advantage of the Eureka is the fact that it **will keep all winter**, while any other self-blanching variety will not keep much beyond Christmas. Stalks beautiful in appearance, compact in growth and solid. Dwarf habit. Color of outer leaves, cream, tinted with green; stalks and inner leaves creamy white; ribs very crisp, tender and **of the most superior flavor**. All who have not heretofore grown this Celery should do so without further delay. It is bound to give satisfaction. Pkt. 10c, 3 pkts, 25c, oz. 50c, ¼ lb. \$1.50.

A Page of the Best Varieties of **Celery.**

GOLDEN SELF-BLANCHING—Gilt Edge Strain.—A remarkable stocky and strong growing variety; solid and delicious flavor, self-blanching and a good keeper. One of the very best for early market. Pkt. 10c, oz. 30c, ¼ lb. 75c.

GOLDEN SELF-BLANCHING—As usually sold. Pkt. 4c, oz. 15c, ¼ lb. 50c.
WHITE PLUME—Gilt Edge Strain. Each year adds to the popularity of this variety. Many market gardeners now plant their entire crop of it. The heart and stock are naturally white, and consequently requires very little earthing. Eating qualities are the very best; will not keep late in the winter. Pkt. 10c, oz. 25c, ¼ lb. 75c.

WHITE PLUME—As usually sold. Pkt. 4c, oz. 15c, ¼ lb. 50c.
KALAMAZOO BROAD RIBBED—A distinct variety, its broad ribs, thick and closely set, are solid, crisp and of fine flavor. Grows rapidly, and by reason of its neat and compact growth and showy appearance, makes a grand market variety. Pkt. 4c, oz. 15c, ¼ lb. 50c, lb. \$1.50.

NEW ROSE—The red or rose Celeries are better in many respects than the white. They are more solid, hence keep better, and have to a greater degree that nutty flavor so desirable in celery. Red Rose is the best colored celery. Pkt. 4c, oz. 15c, ¼ lb. 50c.

GOLDEN HEART—In quality, appearance and size, this variety leaves little to be desired. Pkt. 4c, oz. 15c, ¼ lb. 40c, lb. \$1.50.

GIANT GOLDEN HEART—Originally produced by a careful selection from the Dwarf Golden Heart by a gardener, who made the need of a critical market his study for years. The quality is fully equal to the original stock, and in habit of growth is taller than its parent; the stalks are very thick, perfectly solid, of excellent flavor and unexcelled as a long keeper. It is one of the best Celeries for winter storage, for market or for the private planter. Pkt. 4c, oz. 15c, ¼ lb. 50c.

PERFECTION HARTWELL—The best flavored, most crisp and tender of the white varieties; the stalks are medium size, round, very solid, crisp and tender; fine nutty flavor. Pkt. 4c, oz. 15c, ¼ lb. 45c, lb. \$1.50.

CRAWFORD'S HALF DWARF—Early, solid; of vigorous growth and nutty flavored; very ornamental. Pkt. 4c, oz. 15c, ¼ lb. 45c, lb. \$1.50.

GIANT PASCAL—It excels in flavor, and is free from any bitter taste. The ribs are the largest, of all, thick, hard, solid, stringless, and of a beautiful waxy appearance. Pkt. 4c, oz. 15c, ¼ lb. 50c.

CELERIAC—Turnip rooted Celery. Pkt. 4c, oz. 15c.

Grand Surprise.

If you want a Celery that will keep until the following May, after all other celeries are done, and sell at a high price, plant the **Grand Surprise**. It is certainly the grandest winter and spring Celery ever offered. Grows medium size and is not excelled for **solidity, crispness and fine nutty flavor**; every particle can be eaten. Plant is beautiful in appearance, blanching to a cream white. No celery grower should fail to plant part of his crop of this, and there awaits him a **grand surprise**. Pkt. 15c, oz. 45c, ¼ lb. \$1.25.

GRAND SURPRISE.

SWEET CORN.

All Eastern grown and free from flint and glaze. One quart will plant about 500 hills; one bushel, 6 acres.

Indiana Wonder, A NEW SWEET CORN.

As early as Early Adams, with an ear twice as large, and the sweetest Corn ever put on the table. This Corn originated in Indiana and is a great honor to the Hoosier State. We confidently believe there is not its superior for earliness, quality and size of ear in existence. For evidence of this, read the reports below. A very strong and rapid grower; bears two or three ears to the stalk; ears large, like illustration; grain deep, large, much shriveled when dry. We recommend it to all, and guarantee it as recommended. Last year we did not have near enough to supply the demand. We have a large supply this year, but anticipate a greatly increased demand. Early orders are advised. Price, pkt. 10c, pt. 20c, qt. 35c, postpaid. By express or freight, per peck, \$1.00, bu. \$3.00.

REPORTS FROM GROWERS.

Mighty fine, large and very sweet. C. M. SUBER, Broad Ripple, Ind.
Indiana Wonder Sweet Corn is the earliest and largest eared variety I ever grew. CHAS. M. DOLEN, Waverly, Ind.
Earlier than any other I ever tried; of superior quality, with larger ear than Early Adams. It can not be too highly recommended. F. V. BEELER, Friendswood, Ind.
Planted same time with Early Adams. It was a little earlier, much larger ear, well formed. Remained in condition for table longer than any other kind I ever raised. URAH LOW, Carlton, Ind.
Indiana Wonder Corn made a quick growth and big yield. We highly recommend it as far superior to Adams in size of ear, table quality and earliness. S. A. BEELER, Zionsville, Ind.
Best I ever raised. It surpasses all others in continuing in good condition. A. V. HIGHTSHOR, Clermont, Ind.
Much larger and better than Adams. JOHN N. GRAHAM, Whiteand, Ind.
The earliest, largest eared and best quality Corn I ever grew. W. T. MEMIFER, Brownsburg, Ind.

We sell all kinds of Sweet Corn, unless otherwise quoted, as follows: By mail, postpaid, pkt. 5c, pt. 18c, qt. 30c. By freight or express, peck 75c, bu. \$2.50.

EXTRA EARLY ADAMS—The earliest white Corn grown; ready for use in sixty days; used extensively wherever introduced. Can be planted earlier than sugar varieties. Also called Imitation Sugar.

EARLY ADAM—Similar to above, but larger and not quite so early.

FIRST OF ALL SWEET CORN—This is the earliest Sweet Corn in cultivation; it is a week earlier than the Cory and of superior quality. The ears are of medium size, very full, sweet and of delicious flavor. You want it.

WHITE COB CORY—Ears are very handsome, sweet and fine quality. It is the earliest of all the sugar varieties. Two crops can be raised on the same ground in one season.

MAMMOTH WHITE CORY SWEET CORN—A decided improvement over both the popular White and Red Cory, producing large ears from 7 to 8 inches long and the best of all extra early sorts. The ears are 12 rowed, fully twice the size of the old Cory, white cobbled and covered with very large white grains of extra quality. No other Sweet Corn will find as ready sale in a market which is supplied with Mammoth White Cory. Every Market Gardener and Farmer who wishes to get the cream of the trade should plant this splendid new sort.

CROSBY'S EARLY SUGAR—Early and a great favorite. Ears small, but is productive and of excellent quality.

EARLY MINNESOTA—A well known early dwarf variety; ears fine size and excellent quality.

SHAKER EARLY SWEET CORN—A splendid market sort, ready about the same time as Early Minnesota, but the ears are much larger. The stalks in good soil attain a height of 6 feet, bearing usually 2 large ears, well filled out to the tips of the cob. The kernels are of nearly whiteness and most deliciously sweet flavor.

PERRY'S HYBRID SWEET CORN—This is a second early twelve rowed variety, growing only 4 to 5 feet high. Ears are of very large size and set very low on the stalk; red cob, kernels white, large, sweet and very tender.

EARLY MAMMOTH SWEET CORN—Produces large ears, which are filled to the tip with large, full kernels, sweet, tender and delicious. A very popular variety for canning.

COUNTRY GENTLEMAN—Is the sweetest and most tender of all. Ears medium, cob small, kernels of extraordinary depth, pearly whiteness and irregularly crowded together on the cob, it is very productive, bearing two to four ears to the stalk. Matures medium to late.

EGYPTIAN—One of the best and the handsomest of all the late sorts. Ears large, none more uniform, and excels all in filling out white. Very productive and used extensively for canning purposes.

NEW INDIANA WONDER SWEET CORN.

perfectly at the tip end. Cob and grain pure white.

Pedigree Stowell's Evergreen.

This grand variety is more largely grown than all others. My seed is the result of scientific selection and growth in a locality perfectly adapted to the growth of this variety to the greatest perfection. Lovers of tender, juicy, Sweet Corn will make no mistake if they plant this Pedigree Stowell's Evergreen. As I furnish this seed to compete with inferior grades in price, there can be no excuse for taking chances on your crop. Pkt. 5c., Pint 20c., Quart 35c., Peck 75c., Bushel \$2.50.

POP CORN. Price of all varieties; Pkt. 5c., 1/4 lb. 10c., lb. 20c., 4 lbs. 75c. By express, 10c per lb., 10 lbs. 60c.

MAPLEDALE PROLIFIC—A profitable variety; has borne as high as 18 ears on one stalk, but we find 4 to 6 a good average.

QUEEN'S GOLDEN—

Large ears, golden yellow grains. A great yielder. Unexcelled as a popper.

WHITE RICE—A very handsome variety. Ears short, kernels long, and resemble the grain of rice. Color, white; of the best quality for popping, and as it is the standard market variety, with a good reputation everywhere, we advise its growth by every person who grows Pop Corn to sell.

SNOW BALL—Like the flakes of snow falling as it pops, and like a pile of pure white snow as it lies in a heap. Tender, rich, melting.

BOY'S FAVORITE—Quite a novel sort. Grows of many different colors, all growing on the same stalk.

ENDIVE. GREEN CURLED—Not only most useful as a salad, but it is highly ornamental from its delicately cut and colored leaves. It is much used for garnishing. Pkt. 5c., oz. 10c., 1/4 lb. 25c.

BROAD LEAVED BATAVIA—Chiefly used for flavoring. Price same as above.

GOURDS. The following varieties will be found very useful about every house. Start the seed early and transplant.

NEST EGG. They exactly resemble the eggs of hens, and are very useful as nest eggs. The plant grows very rapidly and is useful in covering unsightly places, being quite ornamental. Pkt. 5c., oz. 15c.

DIPPER. This variety makes a splendid tool for dipping hot liquids. The handles do not heat through. Pkt. 5c., oz. 15c.

BIBBLET. Makes an admirable vegetable dishcloth. The peculiar lining is the part used, which is spongelike, porous, very tough and elastic. The vines are very ornamental. Pkt. 5c., oz. 20c.

SUGAR TROUGH. Grows to a very large size, holding from 4 to 10 gallons each, having hard, thick shell. They are used for a great variety of purposes, such as buckets, baskets, soap, and salt dishes, nest boxes, etc. Pkt. 10c., oz. 25c.

HERBS. Indispensable to the cook, useful in the sickroom, and many kinds fine for perfuming clothing, etc. The varieties marked with an asterisk (*) are perennial, and when once started in the garden may be preserved for years with but little care.

ANISE—Used for cordial, garnishing and flavoring. Pkt. 5c., oz. 10c.

BALM—Leaves have a fragrant odor. Pkt. 5c., oz. 25c.

BASIL SWEET. Leaves used for flavoring soups, stews, and highly seasoned dishes. Pkt. 5c., oz. 20c.

BORAGE. Leaves used for flavoring. Pkt. 5c., oz. 15c.

CATNIP. Leaves and young shoots are used for seasoning. Pkt. 5c., oz. 40c.

CARAWAY. Grown for the seeds, which are extensively used for flavoring of bread, pastry, candy, etc. Pkt. 5c., oz. 10c.

CORIANDER. Pkt. 5c., oz. 10c.

DILL. Seeds used for pickling cucumbers. Pkt. 5c., oz. 10c.

FENNEL SWEET. Pkt. 5c., oz. 10c.

HYSSOP. Is a stimulant and used for asthma and chronic catarrh. Pkt. 5c., oz. 20c.

HOREHOUND. Leaves used for making cough medicine. Pkt. 5c., oz. 30c.

LAVENDER. Pkt. 5c., oz. 20c.

MARJORAM SWEET. Pkt. 5c., oz. 20c.

PENNY ROYAL. Pkt. 5c.

ROSEMARY. Ornamental herb. Pkt. 5c., oz. 40c.

RUE. Good for colds and croup. Pkt. 5c., oz. 15c.

SAFFRON. Pkt. 5c., oz. 10c.

SAGE. Extensively used for seasoning and dressing. Pkt. 5c., oz. 15c.

SAVORY SUMMER. Pkt. 5c., oz. 15c.

SAVORY WINTER. Pkt. 5c., oz. 20c.

TANSY. Pkt. 5c., oz. 30c.

THYME. Pkt. 5c., oz. 30c.

WORMWOOD. Is beneficial to poultry. Pkt. 5c. oz. 25c.

GENUINE STOWELL'S EVERGREEN.

NEW EVERBEARING CUCUMBER.

The Great Yielder.

200 TO 400 BU. PER ACRE.

PERFECTION IN QUALITY, COLOR AND CRISPNESS.

Vines continue to produce fruit till frost.

VERY EARLY, Perfect Shape, Fine Green Color.

NEW EVERBEARING CUCUMBER.

In calling especial attention to this new and unique variety, we wish to emphatically state that it is one of the most valuable sorts ever introduced. It is of small size, **very early, enormously productive** and valuable as a green Pickler. The peculiar merit of this novelty is that the vines continue to flower and produce fruit until killed by frost, **whether the ripe Cucumbers are picked off or not**—in which respect it differs from all other sorts in cultivation. Cucumbers in every stage of growth will be found on the same vine. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Livingston's Emerald

A Dark Green Cucumber that will hold its color.

It is a selection from the White Spine, made after 7 years' careful, systematic work. It retains every good quality of the best White Spines, and in addition it possesses a rich dark green color, so long sought for, but never before obtained in any other variety. It is strictly evergreen, retaining its color until fully ripe. The fruit sets early and the vigorous vines abound with beautiful long, straight, handsome Cucumbers of the crispest and best quality. For forcing and long shipping unexcelled. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Climbing Japanese Cucumber

This great novelty was introduced from Japan into Europe, where it created a great sensation and was the reigning novelty, and met with phenomenal sale. From Europe it crossed over to this country, where they are also having an enormous sale.

The vines are healthy, vigorous growth, with rich dark green foliage, and throw out *strong, grasping tendrils*, which enable it to climb trellis, wire netting, brush, or any other suitable support. It clings so tightly that it is not prostrated by heavy storms of wind or rain. It comes into bearing quickly and continues to set the fruits abundantly throughout the season, while the climbing habit of growth enables the fruit to grow perfectly straight; of large size from twelve to sixteen inches in length. The Cucumbers are thick, exceedingly tender, and of delicate flavor, of cylindrical shape, flesh pure white, skin dark green turning to brown and netted; when ripe they are of excellent quality for slicing, and when young make attractive pickles. With this variety of Cucumbers, the product of a given area of ground can be increased three fold, thus making them particularly valuable in small gardens or to grow on high-priced land. The vines continue bearing late in fall. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c.

ALL THE
BEST

CUCUMBERS

ONE PKT. EACH OF
15 VARIETIES LISTED.

40 Cts.

PRICE OF ALL VARIETIES, UNLESS OTHERWISE QUOTED: Pkt. 3c, oz. 7c, 1/4 lb. 15c, 1 lb 40c, by mail. By freight or express per lb. 30c.

GIANT PERA—A variety remarkable for its great size, often attaining a length of 18 ins. and 10 ins. in circumference. Notwithstanding this immense size, their quality is excellent. They are fit to eat at all stages of their growth, even when full grown, and are free from the green cucumber taste. Superior for slicing. Pkt. 5c, oz. 10c, 1/4 lb. 30c.

GHERKINS—Very small and prickly fruit, used expressly for pickling. Pkt. 4c, oz. 10c.

PARISIAN PROLIFIC PICKLING—A great acquisition. Very long, slender, cylindrical, densely covered with fine prickles, and deep, rich green in color. The flesh is very crisp and tender. One of the best for slicing, as well as for pickles. Enormously productive.

NICHOLS MEDIUM GREEN—Very thick through, full at both ends. Handsome in appearance and of fine quality. The vines are vigorous in growth and very productive.

WESTERFIELD'S CHICAGO PICKLING—Fruit medium length, pointed at each end, with very large and prominent spines; color deep green. Largely grown for factories. Extra early and very productive.

GREEN PROLIFIC OR BOSTON PICKLING—A very prolific variety; thriving in any locality. With good culture 200,000 can be raised on an acre.

IMPROVED EARLY WHITE SPINE—Vines vigorous, fruiting early and abundantly; fruit straight and handsome, light green with a few white spines.

EARLY FAME—A well known early sort. Vigorous growth, productive and fine quality.

EARLY GREEN CLUSTER—A short, prickly variety, bearing in clusters near the root. It is a great bearer and matures early.

IMPROVED LONG GREEN—Forms fruits for the table nearly as early as the shorter. Grows 12 inches long, firm and crisp, with very few seeds. The young fruit makes the best of pickles.

ARLINGTON—The young fruits are unusually crisp and tender, and are of a very dark green color, so that the variety is considered by many to be the best for small pickles.

SNAKE—This cucumber grows sometimes to the length of six feet, curled up like a snake. Pkt. 10c.

JERSEY PICKLING—Certainly one of the finest pickling cucumbers in the market. Early and a great bearer, well formed, firm and crisp.

EARLY RUSSIAN—The earliest of all; small size.

EVERGREEN CUCUMBER—This variety has been thoroughly tested and has proved itself to be an evergreen and also an everbearing sort. In cases where cucumbers had not been gathered and frost killed the vines, the ground when viewed from a short distance appeared to be entirely covered with cucumbers. Our special claim for this variety is its wonderful productiveness, while it is also one of the most handsome and valuable sorts grown. Pkt. 5c, oz. 10c, 1/4 lb. 25c, 1 lb. 60c.

O. K. SEEDS
ARE
RELIABLE.

EGG PLANT.

1 oz. will Produce about 1,000 Plants.

No gardener should be without a few plants of this most delicious vegetable. If all were acquainted with their excellence they would be grown as generally as tomatoes.

NEW PEARL WHITE—This great novelty is sure to meet with a warm welcome from all who love this delicious vegetable. It resembles the New York Purple in shape, but it is pure white, and oftentimes exceeds that popular variety in size. It is unequalled by any other sort in productiveness and of superior table qualities; fruits very early. In short, it is **unsurpassed**. Pkt. 10c, 3 for 25c.

NEW YORK IMPROVED LARGE PURPLE—The leading variety grown by market men everywhere; fruit large, smooth and deep purple; flesh white and of good quality. Pkt. 5c, oz. 20c, ¼ lb. 75c, lb. \$2.75.

EARLY LONG PURPLE—Hardier and earlier than the New York Purple, succeeding further north. Fruit from 6 to 9 inches long. Good quality; one of the best. Pkt. 3c, oz. 15c, ¼ lb. 50c.

EXTRA EARLY DWARF ROUND PURPLE—Same in general appearance to New York Purple, but smaller. Its great merit is its hardness and extra earliness, hence it is valuable in northern sections. Pkt. 4c, oz. 20c, ¼ lb. 65c, lb. \$2.50.

BORECOLE, OR

❖ KALE. ❖

1 oz. will Sow 150 Feet of Drill.

Sow and Cultivate the Crop with Everitt's Man-Weight Farm and Garden Tools.

DWARF GREEN CURLED SCOTCH—A dwarf variety, rarely exceeding 18 inches in height, but spreading out under good cultivation to 3 feet in diameter. The leaves are very beautifully curled and of a bright green. Very hardy, will stand out where the temperature does not fall below zero. It is most tender after being bitten by a sharp frost. Pkt. 3c, oz. 8c, ¼ lb. 20c, lb. 65c.

DWARF GREEN CURLED GERMAN—This variety is extensively grown as Winter Greens; sown in September, in rows 1 foot apart, and treated in every way as Spinnach, it is ready for use in early spring. Pkt. 3c, oz. 8c, ¼ lb. 20c, lb. 65c.

SIBERIAN—Sometimes called "Sprouts" and "German Greens." In this variety the very large, green leaves are comparatively plain in the center, but coarsely cut and frilled on the edge. The plant is low, but spreading and very hardy. Pkt. 3c, oz. 8c, ¼ lb. 20c, lb. 60c.

EVERITT'S ❖
EVERLASTING

LETTUCE

THE QUEEN OF
SUMMER ❖ ❖ ❖

Beautiful Color and Forms Large, Handsome, Tender Heads,
The Longest Standing of All.

Every gardener knows the importance of having a Lettuce that is slow to run to seed, and they should also know that this sort excels all others in this respect. It will remain almost all summer in prime condition from one sowing. It is also early and remarkable for the size of its head. *Self-blanching, crisp, tender and of excellent flavor.* This is one of the finest varieties we know of, and will please everybody for family or market garden. Particularly do we urge market gardeners to grow it, and it will put money in their purses, as no variety will bring more money or produce a more permanent crop. Pkt. 10c, oz. 20c, ¼ lb. 40c, lb. \$1.25.

and HOT BED DRILL

1 Ounce will Produce about 4,000 Plants.

TENNIS BALL—A fine early sort; very hardy. One of the best for forcing under glass or early planting outdoors. Heads are small, but extremely solid. Pkt. 2c, oz. 7c, $\frac{1}{4}$ lb. 20c, lb. 60c.

NEW YORK—Heads almost as solid as an early summer cabbage, which in general form it somewhat resembles. It blanches itself naturally, tender and of excellent flavor, and entirely free from bitterness. Pkt. 3c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 75c.

IMPROVED HANSON—The finest strain of this popular variety in the country is what we offer. Our seed will produce mammoth heads almost as solid as cabbage, delicious, sweet, crisp and tender. Stands drought and scorching heat better than many others. Pkt. 3c, oz. 8c, $\frac{1}{4}$ lb. 20c, lb. 65c.

BLACK SEEDED SIMPSON—Grows fully double the size of the Early Curled Simpson, and is better in every way. It is much lighter colored, leaves being almost white. Stands summer splendidly. Pkt. 5c, oz. 7c, $\frac{1}{4}$ lb. 20c, lb. 65c.

CALIFORNIA ALL-HEART—It heads up like a cabbage and almost as solid, of a beautiful light green shade, almost white and a very rich flavor; grows rapidly and is tender and sweet at all times. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 30c, lb. \$1.00.

TILTON'S WHITE STAR—Of the Black Seeded Simpson type, but grows larger and more rapidly; blanches perfectly and is of excellent quality. The plants remain long in condition for use before running to seed, and owing to the thick leaf keep long after cutting without wilting. For forcing and early planting out doors, it is a decided improvement over other varieties of this class for either purpose. Pkt. 4c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c.

GRAND RAPIDS—This variety originated at Grand Rapids, Mich., where it is largely grown for shipment, and where it is considered the best loose-headed Lettuce for forcing under glass. Leaves medium size, of light yellowish green color, much crimped and frilled, very upright growth; forms a fair sized but loose head; crisp, tender and a good quality. Will stand without spoiling a week to ten days after it is fit to cut. Pkt. 3c, oz. 7c, $\frac{1}{4}$ lb. 20c, lb. 65c.

BUTTERCUP—For beauty of foliage, extreme tenderness and delicacy of flavor, it is hard to beat. Always forms good solid heads. It is one of the best of all new varieties. Pkt. 4c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 75c.

DENVER MARKET—An early variety of Head Lettuce, either for forcing or open ground. It forms large solid heads of a light green color, and is very slow to go to seed. The leaves are crisp and tender, and of excellent flavor. By the blistered leaves it distinguishes itself from any other kind of Lettuce now grown. Pkt. 3c, oz. 7c, $\frac{1}{4}$ lb. 20c, lb. 65c.

CALIFORNIA CREAM BUTTER—A distinct variety of cabbage Lettuce. It forms round, solid heads, as shown in illustration. The leaves are of a very rich cream-yellow color—most refreshing in appearance, and particularly rich and buttery to the taste. The heads are of good size, compact, very hard and solid. The heads are so solid that generally they have to be cut before any seed stock can make its appearance. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 85c.

TOMHANNOCK—Entirely distinct from all other existing varieties and of fine quality. It forms a beautiful plant ten to twelve inches high, grows very quickly, is ready to cut early; remains for weeks of the finest quality. Pkt. 3c, oz. 8c, $\frac{1}{4}$ lb. 25c, lb. 75c.

EARLY CURLED SILESIA—The first to produce edible leaves. For forcing and early spring sowing it is very popular. Pkt. 2c, oz. 6c, $\frac{1}{4}$ lb. 20c, lb. 60c.

"ALL SUMMER LETTUCE"—One dozen varieties mixed. Will give you excellent Lettuce all summer from one sowing. Try a packet this season. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c.

Quality. We realize that QUALITY OF SEEDS is everything to the gardener, and we know there are no seeds in the world purer and of higher quality than our O. K. SEEDS, while Price is actually the lowest, as comparisons will show.

ROCKY FORD or O. K. NETTED GEM.

MUSK MELON.

This improved strain of Netted Gem Melons was produced by years of careful selection, and their superior quality is attested by numerous large growers in many important trucking sections of the country who regularly procure their seeds of us. This variety of Melons is probably more largely grown than any other, and all planters should use the O. K. strain of seed. Are very prolific, small size, weighing 1 to 2 pounds. Flesh thick, green. Flavor lusciously sweet. Shape oval, as shown in illustration, averaging from 4½ to 5 inches in length, of the most attractive appearance and yield with the most lavish productiveness. Extra early in ripening. They are usually marketed in baskets and crates, and it is the one variety that the markets are seldom overstocked with. I sell large quantities annually. It is identically the same as the "Rocky Ford" which has become so popular. **Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 60c.**

NETTED GEM. (Round Strain.) This is the same as above except the shape is round. **Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 50c.**

Paul Rose—New Musk Melon. A successful cross of the Osage with the Netted Gem, and combines the sweetness of the former with fine netting of the latter. It also possesses a firmness of rind and "cheesy" structure of the flesh peculiarly its own, which are great advantages. It surpasses others as a crate or basket shipper and long keeper. In times of overstocked markets the Paul Rose sells out clean at four or five times prevailing prices. Shape of Netted Gems. Color of netting gray, underlaid by a dark green rind; the combination making a strikingly beautiful appearance. **Price, pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c.**

HOOSIER CANTELOUPE.

MY INTRODUCTION 1898.

THE HOOSIER CANTELOUPE is the latest and best production of the noted melon grower, J. M. Nash, of the Hoosier State. He has earned an enduring reputation as the originator of such noted Melons as Hoosier King, American Queen, Indiana Sweetheart, etc., and growers who have profited by his former productions will gladly welcome this grand new Musk Melon. We introduced it in 1898, and every grower is more than pleased. We have again bought all the originator's seed and control the variety.

The Hoosier Canteloupe is a cross between the Perfection and Hackensack; with six years' careful breeding to obtain a high grade shipping Melon. The skin has a rich color

of dark gray netting, which changes to orange when ripe. Flesh is very thick and rich; orange color; flavor the best. The vines grow heavy and vigorously, and should have more space than any other variety. Fruit is a third larger than the Hackensack. **The fruit is just the right size. The orange flesh is very thick and lusciously sweet.** We urge all lovers of good melons to try this splendid sort.

I have made a business of raising Melons for five years and the Hoosier Canteloupe is the best seller and keeper I ever handled.

ANDREW COLE, Hillisburg, Ind.
The Hoosier Canteloupe has given my trade satisfaction in every respect. I think they are the best Melons on the market. They are far better than any other Melon ever grown about here before.

W. BARNARD, Merchant, Sullivan, Ind.
I have handled the Hoosier Canteloupe in my trade and find them strictly first-class in every respect, and recommend them to my trade.

BELL & MCKINNEY, Merchants, Sullivan, Ind.

I have sold the Hoosier Canteloupe to my trade and do recommend it highly as a most excellent variety.

W. A. JENKINS, Merchant, Sullivan, Ind.
We have handled the Hoosier Melon grown by Mr. Nash, and recommend it as being first-class in every particular, and one that will bring the top price wherever offered for sale. **MASON & Co., Merchants, Sullivan, Ind.**

I have used the Hoosier Canteloupe and prefer it to any other that can be obtained in this market.

JOS. FREEMAN, Sullivan, Ind.
We have handled some of the Hoosier Canteloupes, and can recommend them as excellent Melons, both as sellers and eaters. **J. T. REID & SON, Merchants, Sullivan, Ind.**

Price, pkt. 10c, oz. 20c, ¼ lb. 50c, lb. \$1.25.

SPECIAL. We will send 1 pkt. of each of 4 Melons on this page for 20c, 1 oz. of each for 35c, 1 lb. of each for \$2.50, all postpaid.

**SWEET, DELICIOUS
MUSK MELONS**

1 oz. will plant about 60 hills; 2 lbs. per acre.

Price, unless otherwise stated: Pkt. 3c, oz. 7c, 1/4 lb. 20c, lb. 60c.

EXTRA EARLY HACKENSACK—10 days earlier than the old Hackensack, which enables growers to put them on the market when they will bring double the price obtained for the old sort. They grow large, round-shape, flattened at both ends, skin and flesh green, of rich, sugary flavor.

ACME, or BALTIMORE—Very productive, oblong. Of large size, ribbed and heavily netted. A good shipper. Flesh thick, light green and of good quality.

JENNY LIND—Small size, but of best quality; season early.

IMPROVED MONTREAL MARKET—A magnificent musk melon. The fruit is round and flattened, as is shown in the illustration, deeply and regularly ribbed, skin and flesh green; densely netted; extremely thick flesh of exquisite flavor. Frequently grow to weigh more than 30 lbs.

IMPROVED BANANA—Frequently as many as a dozen melons will be borne on a single vine, all measuring over 25 inches in length. Flesh very thick, almost solid; salmon color, and more delicious than any other musk melon when thoroughly ripe. A great novelty and sure to interest and please. Try it.

GROWER'S PRIDE—For beauty, productiveness and delicious flavor, this melon is second to no other sort grown. In prolific bearing it is a perfect marvel, the ground being literally covered with the large, round, deep-ribbed beauties, weighing from 7 to 10 lbs. each. Flesh thick, green, melting.

CHRISTOPHER COLUMBUS—A very distinct variety. The large size and peculiar external appearance, so remarkably distinct from any other sort, in connection with its extraordinary fine eating quality, which excels all others, and its fine-grained and thick flesh, proclaim it a popular favorite wherever introduced. Flesh green. Size convenient for market. Medium early. A splendid shipper.

OSAGE—Extensively grown. Very popular. Medium size, egg-shaped. Skin is very thin, dark green color, slightly netted; flesh salmon color, lusciously sweet and spicy.

PROLIFIC GREEN NUTMEG—Large growth, fine form, skin and flesh green; very delicious.

EMERALD GEM—About the size of O.K. Netted Gem, but the skin is smooth and of a deep green color. Flesh salmon, very thick, quality superb, yields heavy crops.

SHUMWAY'S GIANT—The largest melon ever introduced. Seeds are four times as large as other melons, thus proclaiming them a distinct sort. The melons average as large as half-bushel measures. Outside green, turning white cream when ripe. Salmon colored flesh. The finest exhibition melon. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 75c.

CASSABA, or GREEN PERSIAN—Very large, oblong, netted skin, excellent flavor.

DELMONICO—The flesh is of a beautiful orange pink, and for quality is among the very best. A grand melon.

BANQUET—Medium size. The flesh uniformly deep, and of that granulated character that always indicates a good melon. Color, a dark rich salmon.

CHRISTIANA—One of the most delicious of all melons.

ENGFOR J.A. EVERITT.

2 GREAT WATERMELONS.

INDIANA SWEETHEART.

Large, Uniform, Handsome. A good Shipper. A Long Keeper. Solid, Heavy, Sweet. A Grand Melon to Grow.

Indiana Sweet-Heart.

Our greatest specialty in Watermelons. The most valuable Melon offered in years. An all-round Melon unsurpassed. Early, large, handsome, heavy, good shipper, long keeper, brightest color, best quality. Vines vigorous, very productive; ripens early and bears long. Fruit large, oval, very heavy mottled or netted, like illustration; light and dark green. Rind thin, but very strong, making it a melon unsurpassed for shipping. Flesh red, melting and sweet. The best keeper. The INDIANA SWEET-HEART Melon brings a good price when others rot for want of purchasers. One of the most satisfactory things we every sold. Every Melon grower needs it; will not do without it if he knew how good it is. A great ball of sweetness. Read the telegrams. "Sweet-Hearts" bring fancy prices when others are not wanted.

Cleveland, O. Sweet-Hearts selling to-day 15c to 18c, others 12c to 13c. WILLIAMS BROS.
 Columbus, O. Sweet-Hearts selling 15c to 20c. Striped Melons 10c to 15c. WM. M. FISHER & SONS.
 Findlay, O. Prefer Sweet-Hearts; when can we have another car? ALTSCHUL BROS. & Co.
 South Bend, Ind. Sweet-Hearts perfect daisies. MILL BROS.

We could print hundreds of reports if space permitted. Send for them if interested. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 65c, 2 lbs. or more by express at 50c per lb. This seed is worth \$5.00 per lb. to any grower.

NOTE FOR TRUCKERS—This Melon for shipping purposes is unsurpassed, and its fine quality makes it a favorite in every market. You will probably make more money from a crop of Sweet-Hearts than from any other kind you can plant.

GIRARDEAU'S TRIUMPH.

6 Melons Weighed 420 lbs. in 1897.

The originator of this Melon, who has produced more good varieties than any other man in the country, describes it as follows:

"This new Melon as a market sort and for shipment, is the best I have ever introduced. It is very prolific, very early and of uniformly large size. It is a cross between the Duke Jones and Kolb Gem; has the fine, handsome appearance of the former and the fine shipping qualities of the latter. The rind, like the Duke Jones, is of dark green color, theseed exactly the same color as of the Kolb Gem. As a table Melon it is of much better flavor than the Kolb Gem. The average size of the Melon is very large. I gathered from 2 1/2 acres 2,418 Melons, weighing over 40 pounds each. Comparatively speaking, there were no small Melons on the vines at the time of harvesting.

1898

6 Melons Weighed 550 lbs. in 1898.

The Triumph is very early, very large, very prolific, deliciously sweet, of finest flavor; in fact, the finest Watermelons in the United States. The farmer who values his Melon patch and looks forward to the good times in July and August can not afford to do without the Triumph. Pkt. 10c, oz. 20c, 1/4 lb. 50c.

A commission House in Norfolk, Va., says:

"We handled the past season over 300 cars of Melons. The Triumphs were the best, and we will advise our growers to plant nothing else. One car of Triumphs sells for as much as 3 cars of others."

J. L. Miller, of Chester Co., S.C., says: "I pulled 4 Triumphs from one vine weighing 75, 74, 66 and 63 lbs., total 273 lbs. It is of very fine flavor"

Price, pkt. 5c. oz. 15c. 1/4 lb. 35c lb. \$1.00

WATER MELONS

PHINEY'S EARLY

SEMINOLE

EVERITT'S
WHITE QUEEN

PEARLESS

Plant 1 oz. for 30 hills, 4 lbs. per acre.
PRICE, unless otherwise quoted,
Pkt. 3c., oz. 6c., ¼ lb. 15c., lb. 40c.

PHINEY'S EARLY WATER MELON—The melons are of medium size, oblong in shape and uniform. Flesh red, tender and brittle. Rind mottled. A sure cropper. This melon is hardy and a valuable sort for cultivating in the Northern States.

GREEN AND GOLD—Green without, gold within. Medium size. Very productive. Most delicious flavor.

SEMINOLE—Extra Early, enormously productive, large and of most delicious flavor.

EVERITT'S WHITE QUEEN—This is the largest and finest white melon. Quality is very fine and equal to the best melon grown. A splendid shipper. Medium size.

Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c.

GYPSY, OR GEORGIA RATTLE-SNAKE—A superior early market variety; large, oblong; skin green mottled and striped.

DIXIE—This superb watermelon has taken the market by storm where introduced. The vines grow strong and rapidly, with more laterals than any other melon. Very early; thin, hard rind, keeps unusually long before showing decay. One of the best.

EVER'S WONDERFUL SUGAR WATER MELON—This valuable melon was brought to notice in North Carolina, the seeds having come originally from West India. In outward appearance it resembles the Rattlesnake. The quality however is so much superior that it is an injustice to mention the Rattlesnake on the same page with it, as it even surpasses such excellent varieties as Florida Favorite and Icing. It is very productive and hardy variety—never cracks or loses its fine flavor in the wettest season.

PEARLESS OR ICE CREAM—Medium size, pale green, thin rind, flesh scarlet and solid. Flavor of the very best.

VICK'S EARLY—Highly prized for its extra earliness. Oblong in shape, smooth, size medium, flesh bright pink, solid and sweet.

HOOSIER KING

FLORIDA FAVORITE

COLORADO PRESERVING

HOOSIER KING WATERMELON.

This magnificent melon was produced in Indiana by a large melon grower. For years he has been growing them on his farm and shipping them to the Indianapolis market, much to his own profit and to the annoyance of other shippers, as his melons were sought after by retailers and consumers in preference to any other. Read what Mr. Reese has to say:

"The Hoosier King is the finest, largest and best quality melon that comes into this market. They arrive in better condition, are uniformly larger size, and sell for more money than any other variety; besides, the consumer who tries them will have no other.

R. H. REESE,
Commission Merchant, Indianapolis, Ind."
The skin is beautifully striped, being two shades of green, light and dark, seeds black, flesh brilliant red, solid, rich, sweet and luscious; skin thick and tough. They will stand very rough handling. Size, large to

very large. Melon 60 lbs. weight can be easily raised. Every melon grower will find the Hoosier King fully equal to our recommendation.

COLORADO PRESERVING—The best variety for preserving.

LIGHT ICING—Medium size, round, very light green or white, mottled with slightly darker green. Flesh bright, light red, very sweet and tender. By many this is considered the best of all.

DARK ICING—Same as above except color.

FLORIDA FAVORITE—Of medium size, very prolific, and unexcelled as a table variety. For home use or near-at-home markets it will give great satisfaction.

KOLB'S GEM—An excellent shipping variety. Flesh bright red, of good quality. The melons weigh from 20 to 50 lbs. each.

ENGRAVED FOR
J. A. EVERITT

DIXIE

KOLB GEM

ONION SEED THAT CAN BE DEPENDDED ON

As this is one of the most important crops grown by gardeners and truckers, and as there is no other crop in which the quality of the seed exerts a greater influence on the crop, too great care can not be exercised in selecting your seed. Our onion seed is all of the highest quality, grown from choice, perfect bulbs, and can not be excelled in the country. Quality is the first consideration, price second. In both we defy competition. Absolutely none better.

The last two crops of Onion seed were very short. Prices consequently are higher than for several years preceding. We have our usual large supply of fresh seed and aim to sell our choice **O. K. Seeds at prices that challenge competition.** If any seedsman offers seed that has evidence of being reliable at lower prices, let us know, and we will go him one better. We want your order, whether for 1 Pkt. or 1,000 pounds.

HOW TO GROW ONIONS.

1. Obtain good seed. **O. K. Seed's the kind.**
2. A rich, sandy loam, with a light mixture of clay, is the best soil; although any soil that will produce a good crop of corn will grow a crop of onions, except a stiff clay. Very light sand, swamp and raw muck land are not desirable.
3. Fertilize heavily. The manure must be well rotted or composted. Fine ground bone and phosphates are very suitable. About 600 to 800 pounds per acre.
4. Sow the seed very early—5 pounds to the acre for large onions; 30 to 50 pounds per acre for sets. Can sow later for sets.
5. Give thorough, clean cultivation. **Everitt's Man-Weight Machines** are the best.
6. **New Onion Culture** is a valuable book to all onion growers. Price, 50 cents, or can be selected free on orders amounting to \$3.00 for onion seed. Tells how to raise 1,000 bushels per acre.

ONE OF OUR SPECIALTIES

Yellow Globe Danvers

ONIONS

A PILE OF YELLOW
GLOBE
DANVERS
ONIONS
FROM O. K.
SEEDS.

If you want to Grow this kind Plant the O. K. Seeds.

THIS magnificent sort can not be too highly recommended. It is more extensively grown than any other variety. 600 bus. per acre is an ordinary crop under favorable circumstances, while 800 bus. per acre can be grown by a skillful cultivator from seed sown in the spring. We offer but one strain of Yellow Globe Danvers Onions and that is the best. For reliability in bottoming our strain is unsurpassed. Bulbs are very handsome, round, of good size, with thin straw-colored skin; flesh white, fine grained, firm, mild and excellent quality. It ripens early, keeps well, and sells readily at the highest price. Our Yellow Globe Danvers is all that can be desired as a market and table Onion. We sell seed in 100 lb. lots to individual growers year after year.

PRICE—Pkt. 3c, oz. 15c, ¼ lb. 35c, 1b. 98c, postpaid. By freight or express, 5 lbs. or more at 85c per lb.

We have a very large stock of all varieties of Onion Seed, and aim to give our friends the benefit of prices below all our competitors. Yet we can not predict the demand exactly, and if we are obliged to replenish our stock prices may be higher. We advise early orders this year. We will at all times meet honorable competition in price.

Another of Our Great Specialties.

EVERITT'S SUPERIOR STRAIN Large Red Wethersfield ONION

IF YOU PLANT O. K.
SEEDS YOUR CROP
WILL BE O. K.

It is often a matter of choice of color what onion is grown. To those growers who prefer a red variety, we recommend our Large Red Wethersfield. This is also one of our greatest specialties, and next to our Yellow Globe Danvers we sell the largest quantity of seed of it. It is the most reliable red onion grown for general purposes. It yields enormous crops; from 600 to 800 bus. per acre, and is a most reliable cropper, even under unfavorable conditions. Large size, purplish-red skin, flesh purplish-white, form round, flattened, fine grained, moderately strong flavor. The best keeper. Especially adapted to poor and dry soils.

PRICE—Pkt. 4c, oz. 15c, $\frac{1}{4}$ lb. 35c, lb. 98c, postpaid. By express, 5 lbs. or more at 85c.

Sow
Onion
Seed and
Cultivate the Crop
with Everitt's Man-
Weight Machines.

SOUTHPORT LARGE YELLOW GLOBE—A very handsome round or globe-shaped variety, of large size, with thin, yellow skin, white flesh, fine grained, mild, very firm, and the best of keepers. It ripens early and sells readily at the highest prices in our markets. It is a most reliable variety for bottoming, and entirely free from scallions. Pkt. 4c, oz. 15c, $\frac{1}{4}$ lb. 35c, lb. 98c. By express, 5 lbs. at 85c.

YELLOW FLAT DANVERS—This variety differs from the Yellow Globe Danvers in being more flat. Pkt. 4c, oz. 15c, $\frac{1}{4}$ lb. 35c, lb. 98c.

EXTRA EARLY RED—This variety matures very early. It yields abundantly and is of a mild flavor; of medium size, deep red in color, very close grained, solid and heavy. It will often form bulbs in cold, mucky soil, where other varieties fail. It is highly recommended, particularly for the North and Northwest. Pkt. 4c, oz. 15c, $\frac{1}{4}$ lb. 35c, lb. \$1.00. By express, 5 lbs. at 90c.

SOUTHPORT LARGE RED GLOBE—With the exception, perhaps, of some of the white varieties, there is no onion that realizes such large prices as this, its beautiful globe shape, and rich purplish crimson color making it extremely desirable. It is a good keeper and of excellent quality. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 75c, lb. \$2.00. By express, 5 lbs. at \$1.90.

SOUTHPORT WHITE GLOBE—Large, globe-shaped onion, firm, fine grained, mild flavor, keeps well. This is one of the handsomest onions grown, of beautiful shape, clear, white skin, and commands the highest market price. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 65c, lb. \$2.25. By express, 5 lbs. at \$2.10.

WHITE SILVERSKIN, or WHITE PORTUGAL—Very desirable for family use; flavor mild and pleasant; skin silvery white; of handsome appearance; highly esteemed for pickling when young, also for market in early winter. Extensively planted for White Onion Sets. Pkt. 5c, oz. 20c, $\frac{1}{4}$ lb. 50c, lb. \$1.75.

EXTRA EARLY WHITE BARLETTA—Without doubt the very earliest onion in cultivation. Pure white color, very mild and delicate flavor. For table use and pickling it is most valuable. Pkt. 5c, oz. 15c, $\frac{1}{4}$ lb. 45c, lb. \$1.50.

WHITE QUEEN—A small, very early variety. The quality is excellent. Pure white outside and inside. Can be sown from February to July. Largely grown for pickling. Pkt. 4c, oz. 15c, $\frac{1}{4}$ lb. 45c, lb. \$1.50.

ONION SEED Prices are high on some varieties this season. We don't think any reliable seedsman will offer at less than our rates, but if they do, let us know, as we will not be undersold, and you should plant the O. K. Onion Seed to insure your crop.

Italian Onions.

All of the varieties grow very rapidly from seed, and are sweeter and of more delicate flavor than our American onions; while the bulbs are of the most beautiful shape and color. We advise growers to devote their main crop to the American varieties, yet we recommend them to vary it by planting part of the Italians. We recommend them highly for summer and autumn use in the family, while if marketed they command fancy prices.

Giant Rocco or Naples.

One of the best known of the Italian Onions in this country. Quite extensively grown in some sections, where they produce immense crops, single bulbs weighing $1\frac{1}{2}$ to 2 pounds each. Flavor very mild and delicate; color, light brown, flesh white; very handsome, globular shape; a good keeper. Pkt. 4c, oz. 15c, $\frac{1}{4}$ lb. 25c, lb. \$1.00.

Mammoth Silver King.

This is unquestionably one of the largest and most beautiful onions in the world. Single specimens have weighed as much as $5\frac{1}{4}$ pounds. No other onion excels in mild and delicate appearance. So mild are they in taste that they can be eaten raw like an apple. They always command a high price in the market. Pkt. 4c, oz. 15c, $\frac{1}{4}$ lb. 35c, lb. \$1.25.

Spanish King.

The outside skin is of a rich, yellow straw color, while the flesh is white, sweet, mild and tender. They bottom well, are free from stiff necks, and have produced more bushels (1,127) marketable onions to the acre than any other variety known. Very rapid growth and matures early. In market it attracts marked attention. Pkt. 4c, oz. 15c, $\frac{1}{4}$ lb. 35c, lb. \$1.25.

Giant White Italian Tripoli.

Of large size, and most beautiful form, with fine white skin. The first season from the black seed it will grow an onion from 1 to $1\frac{1}{2}$ pounds, but to attain the full size seed should be sown in a hot-bed and transplanted. Pkt. 4c, oz. 15c, $\frac{1}{4}$ lb. 30c, lb. \$1.10.

WEIGHT,
2½ to 4 lbs.

ROSE-COLORED DELICATESSE ONION!

The most Beautiful of all. Largest, Finest, Best, Most Productive.

This grand variety can not be praised too highly. In some respects it is different from and superior to any other Onion now in cultivation. In handsome appearance it is quite distinct, having a rosy skin quite peculiar to itself, and is a novel and striking feature. The flesh is pure white and delicately mild. As a variety to serve uncooked it has not a peer. Shaped flat, round, as shown. Bulbs often weigh from 2½ to 4 lbs. the first year from seeds, and will yield enormous crops. Every one desiring the most beautiful Onion, as well as the largest and best, will be satisfied with it. **Pkt. 10c, 3 for 25c, oz. 25c, ¼ lb. 65c.**

Rose-Colored Delicatsesse, Yellow Danvers and Wethersfield Onions were "death dealers" to all other brands in this section of the country.
CHAS. E. ELLIS,
Feagaville, Md.

The Genuine PRIZE TAKER ONION.

Although several years have passed since this beautiful Onion was offered, it has not lost one iota in the deservedly popular esteem that it is held by growers. On the contrary, by careful selection and growth, we are enabled to offer seed that will produce better crops this year than ever before. No other Onion equals this for ease of growing from the seed and certainty to produce a crop. The amateur is likely to realize more profit from a crop of Prize-Takers than almost any other variety. The main thing to insure success is to get the genuine seed, as much spurious seed is palmed off each season, to the great disappointment and loss of the purchaser.

PRICE:

Pkt. 5c, oz. 15c, ¼ lb. 50c, lb. \$1.40. By express, 5 lbs. or more at \$1.30 per lb.

PRIZE-TAKER ONION.

Every person who visits our large cities has doubtless noticed the large, beautiful Onions offered for sale on the fruit stands every fall. These onions were originally imported, but since their introduction of this famous variety there is getting to be less need of the imported stock, and the demand is being filled by American grown Prize-Takers. They are of a beautiful rich straw color and grow to enormous size, averaging 12 to 14 inches in circumference, and under favorable conditions attain a weight of 5 pounds the first year from a weight of 5 pounds the next year. They are very firm. Of such great size, they are often times eaten as an apple. They have a very mild and perfect globe shape. On market they always attract attention, and bring two or three times the price of ordinary onions of any other color. They are wonderfully productive and can be grown by any person.

EVERITT'S EXTRA EARLY RELIANCE Peas

THE BEST EXTRA EARLY.

A MONEY-MAKER FOR THE
TRUCKER AND GARDENER.

In all the essentials of an early market or home garden Pea this is perfection. It has made friends wherever planted, and is acknowledged by all acquainted with its merits as being unexcelled in earliness and productiveness. They are now largely grown by the best gardeners in the country. Height about 2 feet; vines loaded with well-filled pods. Pkt. 5c, pt. 20c, qt. 35c, peck 90c, bu. \$3.00, 5 bu. \$14.00.

* Write for special prices when ready.

Varieties marked * are wrinkled.
Crop is short. Prices liable to change.

EARLY SORTS.

***MCLEAN'S LITTLE GEM**—A dwarf, prolific, green, wrinkled marrow, having all the flavor of late wrinkled Peas. Height, 1 foot; requires no support. Largely grown for canning as well as for market. Pkt. 5c, pt. 20c, qt. 35c, peck 90c, bu. \$3.00, 5 bu. or more at \$2.90.

***AMERICAN WONDER**—So well and favorably known that it scarcely needs description. Our seed is strictly true to name, and the choicest strain. Extra early; requires no bushing; exquisite flavor. Pkt. 5c, pt. 20c, qt. 35c, peck \$1.25, bu. \$4.00.

ALASKA—This beautiful Pea has become a standard variety, and the earliest of all blue Peas, proving to be not only several days earlier than most early sorts, but of a larger size and 10 percent more productive. Vines are dwarf, growing only about 20 inches high; maturing the crop for one picking; of excellent quality. Pkt. 5c, pt. 20c, qt. 35c, peck \$1.00, bu. \$3.75.

FIRST AND BEST—Vines dwarf, about 18 inches, bearing straight, handsome pods, each containing six to eight medium-sized, round Peas. Matures all the pods in about 45 days. Pkt. 5c, pt. 20c, qt. 35c, peck 85c, bu. \$3.00, 5 bu. or more at \$2.90.

* Nott's Excelsior Pea.

The most valuable of all Dwarf Extra Early Wrinkled Peas. Surpassing in earliness, yield and quality. This is an extra early dwarf Pea, usually ready for the table in 40 to 45 days from planting, only a few days later than the early round sorts. It grows about 14 inches high, or about half as tall again as the American Wonder. It is of vigorous constitution, and wonderfully productive, in which respect it exceeds such rivals as American Wonder. The even, regular habit of the market growers. We believe that Nott's Excelsior has not only "come to stay," but that it will eventually supersede many more of like character. Pkt. 7c, pt. 25c, qt. 40c, peck \$1.35, bu. \$5.00.

* Horsford's Market Garden.

A most excellent second early Pea, particularly prized by market gardeners on account of its great productiveness as well as fine quality. It grows about 2 feet high, very stocky, and requires no sticks. Pkt. 5c, pt. 20c, qt. 35c, peck \$1.10, bu. \$4.00.

Empire State Pea.

A new first early Pea, 15 to 18 inches; ripens with Gems; prolific, stocky; pods dark green; peas crowd in the pod; fine flavor, pods good substance and suitable for shipping. Dry peas green, wrinkled. Quality unsurpassed. Price: Pkt. 5c, pt. 25c, qt. 40c, peck \$1.25.

LATE SORTS.

BLACK-EYED MARROWFAT—A favorite variety; grows about 5 feet high. Pkt. 5c, pt. 20c, qt. 35c, bu. \$2.25, 5 bu. or more at \$2.00.

LARGE WHITE MARROWFAT—A favorite sort; grows about 6 feet high. Pkt. 5c, pt. 20c, qt. 35c, bu. \$2.00, 5 bu. or more at \$1.90.

***CHAMPION OF ENGLAND**—A standard sort; popular in all markets. Productive; high flavor, seeds wrinkled: 5 feet high. Pkt. 5c, pt. 20c, qt. 35c, bu. \$3.00, 5 bu. or more at \$2.85.

***TELEPHONE**—A tall, wrinkled marrow, very productive, and of the best quality, with long pods containing 7 to 10 very fine flavored peas. Height, about 4 feet. Pkt. 5c, pt. 20c, qt. 35c, bu. \$4.00.

IMPROVED STRATAGEM—All the good qualities of the old Stratagem are highly developed, and it is vastly superior to the stocks now generally sold as Stratagem. Vine medium height, but very stocky, with very broad, light green leaves, and bearing an abundance of large handsome pods. One of the best Peas now on the market for those who want large, showy pods and Peas without any sacrifice in quality. Price: Pkt. 5c, pt. 25c, qt. 45c.

Pride of the Market.

We assure one and all who are not acquainted with this famous, magnificent Pea that it will astonish all who grow it for the first time. They are a remarkable, robust-growing, free-branching sort, 18 to 20 inches high. Stiff stalk and very productive. The stalks are covered with the immense pods and peas from bottom to top. On account of their grand size and appearance they are a fine exhibition sort, and attract attention and customers wherever put on sale, while the peas, when put on the table, are of such fine quality it is difficult to overpraise them. Requires no sticks. Wrinkled. Season late or for main crop. This Pea is in great favor among market gardeners, and each season our stock is not sufficient to supply the demand. We have grown a large supply for this season, and hope to be able to supply all comers, yet we advise early orders. Price: Pkt. 5c, pt. 25c, qt. 45c, ½ bu. \$1.25, bu. \$4.50.

Everbearing Pea.

The want of a reliable first-class Pea for summer and autumn use has long and seriously been felt by everyone. In this choice and remarkable variety we have a Pea which, when sufficiently known, will everywhere be recognized as an excellent sort for summer and autumn crop. Season late to very late. Height of vines, 18 inches to 2 feet. Its habit of growth is of a peculiar branching character, forming as many as ten stalks from single root stalk; 100 pods have been counted on a single vine. After repeated pickings of quantities of full-sized pods, the vines continue to be covered with blossoms and buds, developing to maturity, making it a perpetual bearer. On account of its branching habit a pint of seed will plant as much ground as a quart of most other kinds. Peas large, wrinkled, tender, of superior flavor. Greatly esteemed wherever known. Pkt. 5c, pt. 20c, qt. 35c, peck \$1.00, bu. \$3.50.

❖ Parsnips ❖

1 oz. of Seed to 200 Feet of Drill
5 to 6 pounds per Acre.

A deep, rich, sandy loam is preferable. Sow in drills fifteen or eighteen inches apart and thin to six or eight inches in a row. The roots are improved by leaving in the ground during the winter. Excellent food for cattle and also for table use.

IMPROVED CROWN PARSNIPS—A selection from the hollow crown—finer more symmetrical in shape, more sugary and tender. A very heavy cropper, smooth, and the finest variety for the home or market garden. Pkt. 3c, oz. 7c, ¼ lb. 15c, lb. 50c.

LONG WHITE—A standard variety of great merit. Pkt. 3c, oz. 7c, ¼ lb. 15c, lb. 50c.

❖ Parsley ❖

1 oz. to 150 Feet of Drill.

FINE CURLED or DOUBLE—Used principally as a garnish for the table. Pkt. 3c, oz. 7c, ¼ lb. 20c, lb. 75c.

NEW FERN LEAVED—A new variety; very ornamental in form and coloring. Pkt. 15c, oz. 15c, ¼ lb. 35c, lb. \$1.00.

Peppers

GOLDEN DAWN—A most beautiful golden yellow, making it most beautiful in appearance either in growth or for the table. In productivity they stand at the head of the list. The flavor particularly sweet and mild, and entirely free from any fiery flavor, so much so that they can be eaten like fruit. Pkt. 3c, oz. 15c, ¼ lb. 50c.

PROCOPP'S GIANT—The real giant among all Peppers, frequently growing 8 to 9 inches long by 3 inches in diameter. Besides being wonderfully large, they are also beauties; color, a glossy scarlet; flesh, nearly half an inch thick, sweet and mild. Every exhibitor should grow them to add to his collection. Pkt. 5c, oz. 20c, ¼ lb. 65c.

RUBY KING—This magnificent Pepper grows 4½ inches long by 3½ inches broad. When ripe, they are bright ruby red color, remarkably mild and pleasant in flavor, having no fiery taste whatever. Single plants ripen 8 to 15 fruits. Pkt. 4c, oz. 15c, ¼ lb. 50c.

LARGE BELL OR BULL NOSE—Early, very large, square form, pleasant to taste, very suitable for filling with cabbage. Pkt. 4c, oz. 15c, ¼ lb. 50c.

LONG RED CAYENNE—Bright red color; very hot. Pkt. 3c, oz. 15c, ¼ lb. 50c.

MONSTROUS, OR MAMMOTH—Mammoth size; mild flavor. Pkt. 3c, oz. 15c, ¼ lb. 50c.

LARGE SWEET MOUNTAIN—Very large and excellent for mangoes. Pkt. 3c, oz. 15c, ¼ lb. 50c.

CHINESE CELESTIAL—It is not only a most useful Pepper, but one of the most beautiful plants in existence. Pkt. 5c.

LAKE SHORE PUMPKIN. View of 40-Acre Field.

This variety of Pumpkins we obtain from a large canner in Ohio, who prefers them to all others. He has for years been improving the strain by careful, systematic selection, until they have reached a degree of perfection, for large size, thick meat, and heavy weight, unequalled by any other. More tons of pumpkins can be grown per acre of the Lake Shore, whether with corn or by themselves, than of any other variety. Price: Pkt. 5c, oz. 8c, ¼ lb. 15c, lb. 35c, 5 lbs. or more at 25c per lb., all delivered.

A PAGE OF GOOD PUMPKINS.

What is a Fair without Pumpkins or a Thanksgiving Dinner without Pumpkin Pie? No. refers to illustration.

1 oz. will plant 40 hills; 5 lbs. per acre. If planted with corn, 1 to 2 lbs. per acre.

We will sell one pkt. each of the 14 varieties offered for 35c.

1. **GENUINE MAMMOTH TRUE POT-IRON**—Grows to an enormous size, 3 ft. or more in diameter and 100 to 200 lbs. or more in weight. Salmon colored skin, flesh bright yellow, fine grained and of excellent quality. Pkt. 4c, oz. 8c, $\frac{1}{4}$ lb. 20c, lb. 65c.

2. **MAMMOTH TOURS**—Grows to an immense size; often weighing 200 lbs., and commonly 100 to 150 lbs. Grown for cattle and for table use. We offer the genuine, true article. Seed saved from selected specimens. These seeds have frequently sold at fairs at 10c to 25c each. Pkt. 4c, oz. 8c, $\frac{1}{4}$ lb. 20c, lb. 65c.

3. **MAMMOTH ETAMPES**—Skin is very bright, glossy red, and presents a most handsome appearance, whether for exhibition or on market. Thick-meated, flesh very rich in color and of excellent quality. It attains mammoth weights; in only ordinary soil grows about 2 ft. in diameter. It is very productive and a most profitable sort to grow. Pkt. 4c, oz. 8c, $\frac{1}{4}$ lb. 20c, lb. 65c.

4. **CONNECTICUT FIELD**—Large, color yellow. Largely raised for feeding stock. Pkt. 3c, oz. 7c, $\frac{1}{4}$ lb. 15c, lb. 40c, bu. \$2.50.

5. **TENNESSEE SWEET POTATO**—Grows to medium size, pear-shaped, a little ribbed, color creamy white, sometimes lightly striped with green; flesh thick, white, fine grained, dry and brittle, and of most excellent flavor; very productive and keeps

perfectly sound until late in the spring; has no superior for making pies and custards. When cooked it has the appearance of sweet potatoes. Pkt. 3c, oz. 7c, $\frac{1}{4}$ lb. 15c, lb. 50c.

6. **LARGE CHEESE**—Superior to most of the field-grown sorts. Very hardy and productive. Pkt. 3c, oz. 7c, $\frac{1}{4}$ lb. 15c, lb. 50c.

7. **INDIANA, or KENTUCKY FIELD**—Best variety we ever saw for raising with corn. Grows to a large size, solid, and is relished by stock; also valuable for pies and canning. Pkt. 3c, oz. 7c, $\frac{1}{4}$ lb. 15c, lb. 40c.

8. **GOLDEN OBLONG**—Grows 15 to 20 ins. in length. Shell rich, golden orange color; flesh, light yellow. Very rich and fine, making the very best of pumpkin pies. 14 good pumpkins have been raised on a single vine. Pkt. 3c, oz. 8c, $\frac{1}{4}$ lb. 20c, lb. 60c.

9. **JAPANESE PIE PUMPKIN**—This excellent, odd variety comes from Japan, and is largely grown as a choice pie and cooking pumpkin. They ripen early, keep well, and are very productive. Flesh is very thick, being nearly solid, fine grained, dry and sweet, having the flavor of sweet potatoes. The seeds are peculiarly marked with Japanese characters, making them quite a novelty. Pkt. 3c, oz. 8c, $\frac{1}{4}$ lb. 20c, lb. 60c.

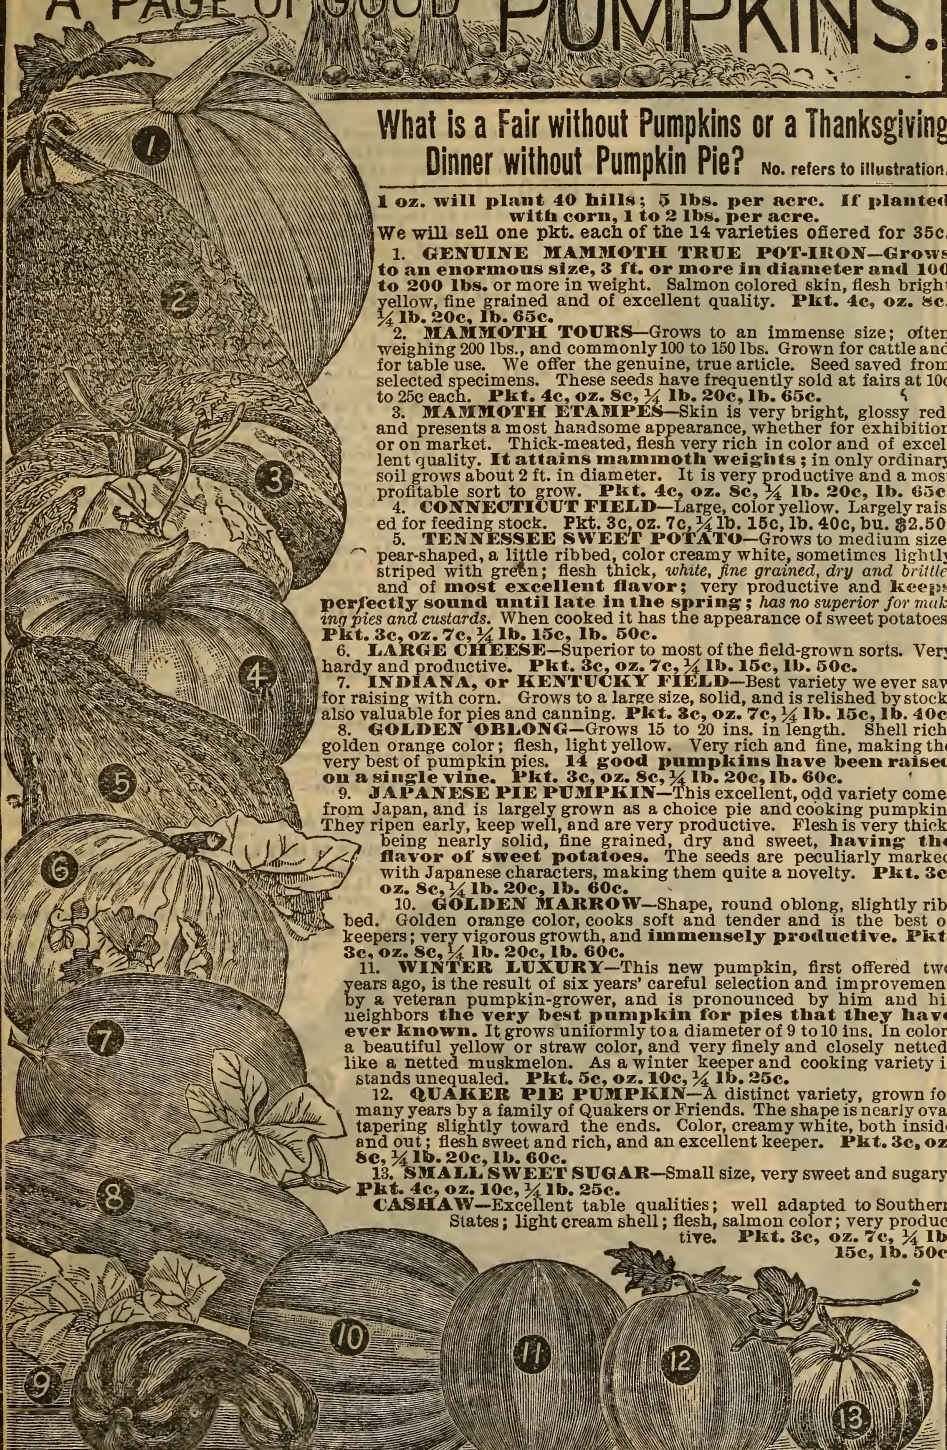

10. **GOLDEN MARROW**—Shape, round oblong, slightly ribbed. Golden orange color, cooks soft and tender and is the best of keepers; very vigorous growth, and immensely productive. Pkt. 3c, oz. 8c, $\frac{1}{4}$ lb. 20c, lb. 60c.

11. **WINTER LUXURY**—This new pumpkin, first offered two years ago, is the result of six years' careful selection and improvement by a veteran pumpkin-grower, and is pronounced by him and his neighbors the very best pumpkin for pies that they have ever known. It grows uniformly to a diameter of 9 to 10 ins. In color, a beautiful yellow or straw color, and very finely and closely netted, like a netted muskmelon. As a winter keeper and cooking variety it stands unequalled. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c.

12. **QUAKER PIE PUMPKIN**—A distinct variety, grown for many years by a family of Quakers or Friends. The shape is nearly oval tapering slightly toward the ends. Color, creamy white, both inside and out; flesh sweet and rich, and an excellent keeper. Pkt. 3c, oz. 8c, $\frac{1}{4}$ lb. 20c, lb. 60c.

13. **SMALL SWEET SUGAR**—Small size, very sweet and sugary. Pkt. 4c, oz. 10c, $\frac{1}{4}$ lb. 25c.

CASHAW—Excellent table qualities; well adapted to Southern States; light cream shell; flesh, salmon color; very productive. Pkt. 3c, oz. 7c, $\frac{1}{4}$ lb. 15c, lb. 50c.

A PAGE OF SUMMER RADISHES

Sow 1 oz. to 100 Feet of Drill.
 Price, unless otherwise quoted: Pkt. 3c, oz. 7c, ¼ lb. 18c, lb. 50c, by mail. By freight or express 2 lbs. or more of a kind at 40c per lb.
 Numbers before the names refer to illustrations.

SHEPHERD Still at the head of the list as the best and earliest long Radish in existence, and all who have grown them say they are the best long Radish in the country. Excels all others in rapid growth, attaining a size of 12 in. in length and 1½ in. in thickness in 30 days from sowing the seed, and will grow 20 in. in length and 3 or 4 in. thick before becoming hard and woody. It is the earliest, the largest, remains tender the longest, the handsomest, best for the family, for market, and is good spring, summer and fall.

WOOD'S EARLY FRAME—A long, red Radish, small top; excellent for forcing. Pkt. 3c, oz. 10c, ¼ lb. 20c, lb. 60c.

IMP. EARLY LONG SCARLET SHORT TOP—Of quick growth; color bright scarlet; long, straight and smooth, crisp and tender.

LONG WHITE VIENNA—The finest and most beautiful long white Radish. Tender, mild flavor, grow quickly.

1. **GIANT WHITE STUTTGART**—Very early; pure snowy white. It withstands the severest heat, and grows to an immense size. The quality is always the very finest, firm, brittle and not pithy.

2. **NEWCOM**—This is the earliest, largest, white Radish known. Owing to their beautiful half-long shape and fine appearance they readily sell at double the price of ordinary varieties. Quality very fine.

3. **NEW WHITE STRASBURG**—One of the most popular summer Radishes grown. Of handsome oblong shape, tapering beautifully to a point; pure white and almost transparent; very tender and delightful pungent taste. Pkt. 3c, oz. 10c, ¼ lb. 20c, lb. 60c.

5. **IMP. EARLY SCARLET TURNIP**—Extra early. Brilliant color. Especially recommended to market gardeners.

6. **EARLY WHITE TURNIP**—Quick growth; crisp; tender. Very fine.

8. **EARLY SCARLET TURNIP, WHITE TIPPED**—Beautiful scarlet variety, having a white tipped tail, or root. Very fine.

9. **WHITE BOX**—Its short top and rapid growth fits it for growing under glass, in frames or boxes, as well as for early sowing in the open ground.

10. **EARLY YELLOW SUMMER TURNIP**—Russet-colored sort. Grows much larger than the white or red turnips sorts. Best kind for resisting the extreme heat and the drought of the Southern States.

11. **TWENTY DAY FORCING**—A new and very distinct type of the well known olive-shaped Radish, of perfect form, smooth skin, fine color, and very short leaves, extremely quick growth, takes only 3 weeks to mature, valuable for forcing, while it does equally well in the open ground.

12. **SCARLET, OLIVE-SHAPED**—Well adapted for forcing or for early sowing in the open ground.

13. **EARLY FRENCH BREAKFAST**—Earliest of all; very tender and beautiful; scarlet, tipped with white; great favorite.

14. **LARGE WHITE GLOBE**—A very large, round Radish. Of beautiful form, pure white, crisp and brittle. It grows quickly to a large size, and withstands summer heat.

15. **EARLY WHITE, OLIVE-SHAPED**—Is very early.

SUMMER VARIETIES MIXED—Includes all summer varieties in list. Gives great satisfaction. Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 50c.

Market Gardeners' Ideal.

Winter Radishes.

Prices of All Varieties:

Pkts. 4c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 50c.

The following varieties should be sown in August or September, for use during winter.

CALIFORNIA MAMMOTH WHITE—It grows to a large size; flesh solid and of good flavor.

LONG BLACK SPANISH—One of the largest, as well as the hardest of Radishes. Roots oblong, black, of a very large size and firm texture.

WHITE CHINESE—Root nearly cylindrical, 6 to 7 ins. long and nearly 3 ins. in diameter; piquant and very appetizing.

ROUND BLACK SPANISH—Black skin, white flesh and roots globe shaped. The flavor is piquant.

CHINESE ROSE—This variety has become very popular with market gardeners. It is of a half-long shape, pink color, and flesh as solid as an apple.

WINTER VARIETIES, MIXED—Includes all winter varieties in our list. Large pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

SPINACH.

Sow 1 oz. to 50 feet of Drill; 12 lbs. per acre.

We will send any variety of Spinach by freight or express at 18c per lb. in 10 lb. lots.

THICK LEAVED ROUND—Generally preferred for early sowing, and is a popular sort with market gardeners. Leaves large, thick and fleshy. Pkt. 3c, oz. 5c, $\frac{1}{4}$ lb. 15c, lb. 30c, 4 lbs. \$1.00.

BLOOMDALE—The leaves are numerous and partially rolled. It is much liked by gardeners wherever introduced. Pkt. 3c, oz. 5c, $\frac{1}{4}$ lb. 15c, lb. 30c, 4 lbs. \$1.00.

NEW LONG STANDING.

A sort of the finest quality, and producing nearly twice the weight of crop as other sorts, and is also the hardest of all Spinachs. The leaves are numerous, succulent, curled and wrinkled like a Savoy Cabbage. Pkt. 3c, oz. 5c, $\frac{1}{4}$ lb. 15c, lb. 30c, 4 lbs. \$1.00.

SQUASHES.

Plant about 4 lbs. per acre.

Mammoth Chili The largest of the Squash family, being simply immense. The largest Squash on record—292 pounds—was of this variety. If you want to secure the premium at your county fair, plant some of this seed. Color orange yellow, smooth skin; flesh very thick and fine grained, good and nutritious. A profitable variety to grow for stock feeding. Keeps well through the winter. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

MAMMOTH WHITE BUSH, SCALLOPED—The Squashes are very uniform in shape and wonderfully prolific. They are fit to use very early, are a beautiful white color and grow very large size—12 to 15 inches across. Pkt. 3c, oz. 7c, $\frac{1}{4}$ lb. 15c, lb. 45c.

GIANT SUMMER CROOKNECK—This new strain is even earlier than the common variety; the Squashes grow to an extra large size, measuring from 18 inches to 2 feet long of finest quality. On account of their handsome appearance they command an extra price on the market. Pkt. 3c, oz. 7c, $\frac{1}{4}$ lb. 15c, lb. 45c.

SOME SPECIALTIES IN

RADISHES

Market Gardeners' Ideal Long Scarlet.
WHITE TIPPED.

This is not a new Radish, strictly speaking, although many seedsmen would pass it off as such. It is an improved strain of the old reliable Long Scarlet Short Top. It is a week earlier than the old strain, has a shorter and more compact top; remains in good condition longer. In shape it is shorter and thicker, which is an advantage if not possible to market at once when pulled. The upper portion is deep scarlet red, shading off to white at the tips, altogether making a Radish of the most beautiful form and color. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 25c, lb. 75c.

GLASS RADISH.

This new Radish is a fine acquisition. It is a long radish of light pink color, white tipped and of very uniform size. The flesh is of a transparent white, always crisp and brittle, even if grown to a large size, and mild flavor. It is named "Glass Radish" on account of the fine transparency of the flesh. All who have tried it pronounce it one of the finest among all the Radishes. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb. 20c, lb. 60c.

NEW WHITE STRASBURG.

This variety is now the most popular summer Radish grown. Of handsome, oblong shape, tapering beautifully to a point. Both skin and flesh are pure white, almost transparent, very tender, and of a delightful pungent taste. It can be pulled five weeks from time of sowing the seed, yet it will continue to grow without losing its fine quality, and remains in a tender condition longer than any other summer sort. There is much spurious seed on the market, which is a great annoyance and loss to gardeners. Our seed produces every root true to the type. Pkt. 4c, oz. 8c, $\frac{1}{4}$ lb. 20c, lb. 60c, 2 lb. 50c per lb. by express.

PROLIFIC ORANGE MARROW—The skin is a rich, deep orange, making the Squash of a very handsome appearance. As large as the Hubbard; the flesh is very thick, fine grained and of choice quality. In prime condition from September to January. Pkt. 3c, oz. 7c, $\frac{1}{4}$ lb. 15c, lb. 45c.

HUBBARD—Generally considered the best winter Squash grown; flesh dark yellow, fine grained, dry and sweet; very hard shell; will keep till spring; productive; color green, when ripe. Pkt. 3c, oz. 8c, $\frac{1}{4}$ lb. 15c, lb. 50c.

EARLY YELLOW BUSH, SCALLOPED—A popular variety. Grows to medium size and of unsurpassed quality. Pkt. 4c, oz. 8c, $\frac{1}{4}$ lb. 15c, lb. 45c.

ESSEX HYBRID—A very productive Squash of finest quality and an excellent keeper, specimens having been kept until June as sound and good as when gathered. Early, quick growth, and can be raised very successfully as a second crop, following early potatoes, peas, etc. Pkt. 3c, oz. 7c, $\frac{1}{4}$ lb. 15c, lb. 45c.

WINTER CROOKNECK—The best keepers. Color pale green; excellent for table use. Pkt. 3c, oz. 7c, $\frac{1}{4}$ lb. 15c, lb. 45c.

GOLDEN CUSTARD—An improvement on the old Yellow Bush, so well and widely known. Very early, of a bright, golden yellow, often producing Squashes 12 to 15 inches across. Pkt. 3c, oz. 7c, $\frac{1}{4}$ lb. 15c, lb. 45c.

SALSIFY.

1 oz. will sow 50 feet of Drill.

MAMMOTH SANDWICH ISLAND—Mammoth, indeed, as compared with the common kinds. It is pure white in color and has all the good qualities of the other, which, with its great size, will recommend it to all gardeners. It should be found in every garden in the land. Pkt. 4c, oz. 8c, $\frac{1}{4}$ lb. 25c, lb. 75c.

LONG WHITE—Pkt. 3c, oz. 7c, $\frac{1}{4}$ lb. 20c, lb. 65c.

The Seedsman who sells the Best Seeds at a lower price than his competitors sell at, is going to do the business and no amount of argument can prevail against it. O. K. SEEDS are the best and prices lowest.

TOMATO.

ON Page 35 we offer a real Giant Tomato—the largest of all. While size, combined with earliness, productiveness and high quality, to a great extent fills the bill, yet if we do not attain extreme earliness it lacks in being a complete all-around Tomato. As is usual when we attain great size in a vegetable, we sacrifice to a certain extent earliness, hence we must make this up in another variety, which we have done in **EVERITT'S EARLIEST OF ALL**. Extreme earliness is where this variety excels. Outside of this we have equally as good Tomatoes as regards color, form and table qualities, but none of them approach **EVERITT'S EARLIEST OF ALL** in season of ripening by a week. This is a very important consideration, as it allows the market gardener to get the high price early in the season, which oftentimes is the only part of his crop that it pays

to market. **EVERITT'S EARLIEST OF ALL** is a bright scarlet color, very smooth, solid and fine; medium size. The plant grows thrifty and spreading, thus allowing the sun to ripen the fruit evenly and quickly. Every gardener should plant this Tomato. The small investment in seed will be many fold returned in the crop if used at home or marketed. Pkt. 10c, 3 for 25c, 8 for 50c, 20 for \$1.00, oz. 25c, ¼ lb. 75c, lb. \$2.50.

GIANT CLIMBING TOMATO.

Great progress has been made in late years in the improvement of the Tomato. Quite in contrast with the small, ill-shaped, sour specimens of a few years ago are the large, smooth, sweet fruits so easily raised now. Great rivalry exists in localities as to who can raise the earliest or largest Tomatoes. We offer in the **GIANT CLIMBING TOMATO** the greatest novelty in this line, and whoever raises it, according to directions printed on each package, will have an attraction that will draw all eyes toward their garden.

This is not a tree Tomato. The term "tree," frequently applied to Tomatoes, is generally intended to mislead, except as applied to our new variety—**Kuttawa Dwarf Tree**. (See page 36.) We do not call grapes "Tree Grapes" because they will climb up a trellis. The **GIANT CLIMBING TOMATO** needs a support to climb upon, when they will grow 10 to 15 feet high, bearing fruit all along the vine from the ground up. The Tomatoes grow very large, weighing as high as 4 lbs. each, and in size 10 to 16 inches in circumference. Nearly all the Tomatoes are smooth and regular in shape; color, glossy red; sound to the core, with very few seeds. The flavor is all that can be desired. They are everbearing, only cut off by frost. These tomatoes can be grown on the garden fence, on the sunny side of a house or outbuilding, or in any position where a support is provided. The more public the situation, the more they will be admired. We print a few reports. Many more could be given if space permitted:

Your Giant Climbing Tomatoes are immense. I have them weighing 2¾ lbs., and the people see that they are wonderful.
Geo. R. Booth, Ludlow, Mass.

The Giant Climbing Tomatoes are wonderful in size and fine quality. One fruit weighed 3 lbs., 1 oz.
C. H. Cox, Bascobel, Pa.

From the Giant Tomato Seed I raised the greatest crop I ever saw. One weighed 3 lbs. and many 2 lbs. each.
P. J. Diggs, Mallory, Va.

PRICE OF

Everitt's Giant Climbing Tomato Seed.

As this Tomato is a very shy bearer of seed the price will always be high, yet when you consider that each plant, with proper care, will produce nearly a bushel of Tomatoes, the price should not be considered. **Liberal package 10c, 3 for 25c.** Families should club together and get them at wholesale rates.

WHOLESALE PRICE—10 pkts. or more at 5c per pkt.

PLEASE REMEMBER THIS.—Don't think that because one seedsman asks a higher price than another that his seeds must necessarily be better. It is often the case that one seedsman charges 50 percent more than another for seeds from the same grower. Yet don't buy low-priced seeds unless you have good reason to think the quality is high. **THE QUALITY OF EVERITT'S CELEBRATED O. K. SEEDS IS ALWAYS HIGH, REGARDLESS OF THE PRICE.**

GIANT CLIMBING TOMATO.—Showing habit of growth. Besides being a great novelty and a profitable variety to grow, they are very useful and ornamental as a vine to furnish shade, and cover and beautify unsightly places. They grow with remarkable rapidity.

LOGAN'S GIANTS SEEDLING

UNEQUALED IN SIZE, UNSURPASSED IN PRODUCTIVENESS, SOLIDITY, QUALITY AND SWEETNESS.

A GREAT SOLID BALL OF TENDER, DELICIOUS MEAT, WITH VERY FEW SEEDS—THE BEST EVER PRODUCED.

The Largest, Most Solid, Most Productive, Best Quality

THESE few words describe this GREAT TOMATO. Others claim wonderful properties, offer prizes to induce big reports, but our Logan Giant Seedling comes out victorious every time. If you think you have tried the largest Tomato, try this one now, and you will see that you did not have the largest and best heretofore. It is not only a new variety, but we claim for it in point of productiveness, size of fruit, exquisite quality and flavor, as well as early ripening, the best Tomato extant. They grow to weigh over 3 pounds each and attain the enormous circumference of 2 feet. This Tomato is not, like many others, one-third seeds and water. They are a great solid ball of tender, delicious meat, with very few seeds. They have frequently sold at 15 cents each in competition with other kinds at 35 cents per bushel. If the vines are trained on a support they will grow 10 feet high and be loaded with the finest fruit you ever placed your eyes on.

Read testimonials below

Price, pkt. 10c, 3 pkts. 25c, 10 pkts. 50c, oz. 30c, 1/4 lb. \$1.00.

ED FOR J.A. EVERITT SEEDMAN

THE GIANT OF TOMATOES

The earliest; the largest; the best yielder; the most delicious Tomato I ever ate. KENNEDY COLE, Pa.

Two Giants weighed 36 ounces each. They are truly wonderful. The Giant Tomato grew very tall and fruited very large and prolific, hence, imagine my surprise to find them so solid, sweet and delicious. The finest I ever ate. Mrs. J. C. HARRIS, Pa.

I picked 16 pounds of Giant Tomatoes at one picking from one vine. SAMUEL JOHNSON, Pa.

I have bought the Logan Giant Tomatoes at \$3.00 per bushel, for sale in my store before other varieties were ripe. H. J. LIBERMAN, Pa.

I bought ten new varieties last spring and gave them a fair comparative test. Logan Giant stands first for size and quality. I never raised nor seen such fine Tomatoes before in my life. J. H. CURTIS, N. Y.

Mr. Wade, of Blooming Valley, brought to this office a cluster of 8 Tomatoes all on a single stem, weighing 10 lbs. They are of the Logan Giant variety. The quality is equal to the quantity. PENNA. FARMER, Pa.

Logan Giant Tomato is the best I ever saw. I sold single Tomatoes for 10c each; the product of a single stem for 30c. Single plants bore 30 lbs. of fruit. Twelve weighed 23 3/4 lbs; they ripen with the earliest. D. L. MARSHALLS, Mo.

Price, unless otherwise quoted: Pkt. 4c, oz. 15c, 1/4 lb. 40c, lb. \$1.25.

MIKADO—Also called Turner's Hybrid, is one of the finest, largest, most solid and most productive Tomatoes grown. The heaviest Tomato ever grown of this mammoth variety was grown from O. K. Seeds—weight 4 lbs. 2 oz. Rapid grower, thick stalk; beautiful shape and color; the weight averages from 1 to 4 lbs.

EARLY ESSEX HYBRID—This is one of the most profitable Tomatoes for the market in cultivation. Pink skin, very early and always ripening all over alike. The flesh being very hard and solid makes it one of the best Tomatoes for shipping or marketing. We recommend it highly.

IMPROVED TROPHY—Fruit large, smooth, solid, fine color; very productive; well known and popular market sort.

SELECTED ACME—One of the earliest in cultivation. Fruit of medium size, perfect form, round, slightly depressed at the poles; pink purplish color. Ripens evenly and has no green core. Bears continuously until frost comes.

PERFECTION—Shaped like the Acme, but somewhat larger, fully as early, perfectly smooth, blood-red in color, with more solid flesh and fewer seeds, and produces more and larger fruit at end of the season.

STONE—This new main crop Tomato is very large, bright scarlet red color, smooth shape. A distinguishing feature, and from this it takes its name, is its great

solidity. The flesh is very firm. One of the best shipping. A grand variety, unsurpassed for keeping.

GOLDEN QUEEN—There are many varieties of the red Tomato, but every gardener will hail with delight this fine yellow sort. In size, solidity and productiveness equals any of the red.

LONGKEEPER—This new Tomato of recent introduction was originated by E. S. Carman, editor of "The Rural New Yorker." It is claimed by the originator to combine long-keeping qualities, uniform shape, earliness in ripening as well as productiveness to a remarkable degree.

TOMATOES FOR PRESERVING—Red Cherry, Yellow cherry, Red pear-shaped and Yellow plum.

LIVINGSTON'S NEW BEAUTY—A fine variety, coming from originator of Acme, Paragon, Perfection and Favorite. Very distinct from all former introductions. The color is a glossy crimson with a purple tinge. It grows in clusters of 4 and five, retaining its large size late in the season; very solid, with a tough skin, making it very desirable for market and shipping.

LIVINGSTON'S FAVORITE—Ripens evenly and early, holds its size to the end of the season. It is very prolific, few seeds, solid flesh, bears shipping long distances.

PEACH TOMATO—This is a very useful and beautiful oddity. For preserving Peach Tomato is hard to beat.

4 VALUABLE TOMATOES 4

KUTTAWA DWARF TREE TOMATO.

trouble picking dirty Tomatoes off the ground. Almost proof against cut worms. Very productive. Fruit bright red, very solid. Best keeper and shipper. Besides all its good qualities is a **great novelty**. See last cover page for description and illustration. Every person who plants a garden should plant a package or more. **Pkt. 15c, 2 for 25c, 5 for 50c.**

MATCHLESS TOMATO.

Well worthy of its name for its beautiful color and fine form it is indeed without a peer. The vines are of strong, vigorous growth, well set with fruit. The fruits are free from core, of a very rich cardinal red color, and are not liable to crack from wet weather, are of very large size, and the size of the fruit is maintained throughout the season until killed by frost. The skin is remarkably tough and solid, and ripe specimens picked from the vines will keep in good condition for several weeks. It is of fine quality, solid and a long keeper. **Pkt. 5c, oz. 20c, ¼ lb. 50c, lb. \$1.50.**

DWARF CHAMPION TOMATO.

A very distinct variety. Its close, upright growth allows it to be planted closer together than other varieties. The fruit resembles the Acme, is of a purplish-pink color and always smooth and symmetrical in form. It is of medium size and attractive in appearance; the skin is tough and the flesh solid, of fine quality. A very shy seeder. **Pkt. 5c, oz. 20c, ¼ lb. 50c, lb. \$1.50.**

BUCKEYE STATE TOMATO.

This Tomato is the Largest of all new sorts, fully ¼ larger than the well known Perfection. It is a very heavy cropper, the Tomatoes being borne in clusters of four to eight fruits. The color being much the same as Beauty, if anything a little darker and more brilliant red, very solid, meaty, heavy and of the finest quality. **Pkt. 5c, oz. 20c, ¼ lb. 50c, lb. \$1.75.**

KUTTAWA DWARF TREE.

The great Tomato that stands up like a bush. Plant deeply and draw earth up around the stem and you will have no trouble picking dirty Tomatoes off the ground. Almost proof against cut worms. Very productive. Fruit bright red, very solid. Best keeper and shipper. Besides all its good qualities is a **great novelty**. See last cover page for description and illustration. Every person who plants a garden should plant a package or more. **Pkt. 15c, 2 for 25c, 5 for 50c.**

TURNIPS.

1 oz. will plant 150 feet of Drill. Sow about 1 pound broadcast per acre.

We sell any of the following varieties, unless noted, at **pkt. 3c, oz. 6c, ¼ lb. 15c, lb. 40c, by mail; by freight or express, per lb. 30c.**

A NEW TURNIP Carter's Cardinal.

A flat Turnip of distinct and fine qualities. . . . This variety is distinct from others, having a deep cardinal skin, which not only appears on the top, but also covers the whole root. Of course we do not recommend it entirely on account of its novel color, but as a good, all-around variety, and one that can be depended on in hot, dry seasons and on a great variety of soils. The Cardinal is of medium size, flat, with very short top, and of fine table quality. It is one of the best varieties to grow on hot, dry land, not running to seed like some early kinds, and being quite sweet and solid. The Cardinal has a strong tap root, this doubtless protecting it from drought, and having thick, spreading foliage, the root is shaded. A great acquisition. One of the very earliest, being ready for use a short time after sowing. **Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 75c.**

EARLY SIX WEEKS, or SNOWBALL—This new Turnip is very early, growing and maturing rapidly. Bulbs beautiful white; medium size, solid. Flavor mild; free from side roots.

PURPLE TOP MUNICH—One of the earliest in cultivation, making an excellent spring garden turnip. **Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 65c.**

RED or PURPLE TOP STRAP LEAVED—One of the most popular varieties both for table and stock. Grows to a large size, solid, crisp

and mild flavor. We have the best strain of this popular variety that can be found anywhere. **None better.**

EXTRA EARLY MILAN—The earliest flat Turnip in cultivation. Of medium size, with a bright purple top; leaves few, short, growing very compact; flesh pure white, of choicest quality, hard, solid and fine-grained; an excellent keeper. **Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 65c.**

EARLY WHITE FLAT DUTCH—Size, medium; flat, white, sweet, tender; rich for table; spring and fall.

WHITE EGG—A variety of very rapid growth; egg-shaped, thin, white skin, solid, firm, fine-grained flesh.

BREAD STONE—Extra fine quality. Of medium size, very quick growing, and the roots are very smooth and white. Flesh is perfectly white, fine-grained and cooks in only fifteen minutes. It is a fine table Turnip for winter and spring use.

RED or PURPLE TOP GLOBE—This is the most productive variety, and one of the handsomest; quality very fine for table. Owing to its great yielding propensities, can be grown with a great profit for stock.

GOLDEN BALL or ORANGE JELLY—Very beautiful and bright-yellow Turnip of medium size, sweet and delicious flavor.

SEVEN-TOP or FORESTER—Grown exclusively in the South for its abundant leaves, which are boiled with meats. **Pkt. 5c, oz. 10c, ¼ lb. 15c, lb. 50c.**

SWEDES, or RUTA-BAGAS.

Price same as Turnips.

Grown for stock feed, and could be profitably cultivated on a much larger scale.

CARTER'S IMPERIAL—A hardy sort, excellent for table use or feeding stock. Does not run to long necks. This should be sown a month earlier than the other varieties.

LAING'S IMPROVED RUTA-BAGAS—One of the earliest and best for table. Handsomest variety, first-class quality.

LARGE WHITE FRENCH—Excellent for table use as well as stock. Large size, solid, mild and sweet. A desirable sort.

In July we will publish a **SPECIAL TURNIP price list. Send for it.**

EVERITT'S CHOICE FLOWER SEEDS.

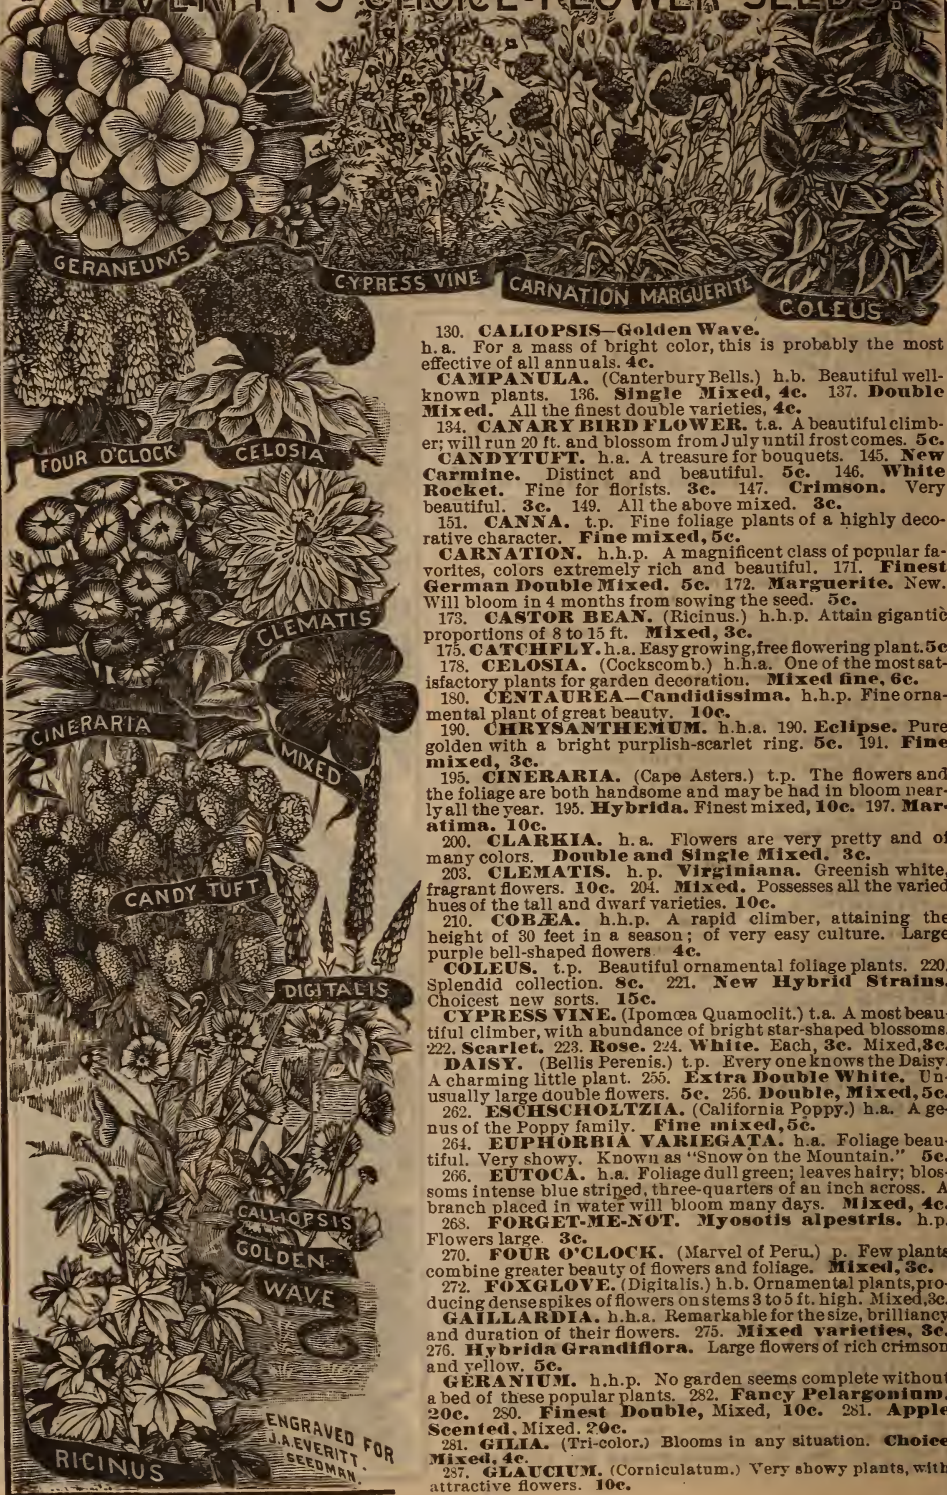

Our Flower Seeds are the best that can be procured from the best growers in America and Europe. **THE LIST** comprises nearly all the varieties that can be successfully grown by the average cultivator, omitting such as require the skill of a veteran, and special facilities. **CULTURAL DIRECTIONS** are printed on each package, together with a correct illustration in colors. **OUR PRICES SHOULD BE POPULAR.** We don't aim to charge as much for a package as a pound costs us, but we have made our prices so low that **EVERYBODY CAN HAVE AN ABUNDANCE.**

In the following list "a" stands for annual, "b" for biennial, "p" for perennial, "h.a." hardy annual, "h.h.a." half hardy annual, "t.p." tender perennial, etc.

- 10. **ABRONIA Umbellata.** h.h.a. Very pretty trailing plants. Sweet-scented flowers. 4c.
- 12. **ABUTILON.** (Flowering Maple.) t.p. Well adapted for house culture and for bedding out doors. **Finest mixed, 15c.**
- 15. **ACROCLINUM.** h.h.a. One of the best everlasting flowers. **Choice mixed, 3c.**
- 20. **ADONIS Autumnalis.** (Pheasant's Eye.) h.a. Very showy. 3c.
- AGERATUM.** h.h.a. Excellent for bouquets. 25. **Mexicanum, 5c.** 26. **Finest varieties mixed, 3c.**
- AGROSTEMMA.** (Rose of Heaven.) h.a. Abundant bloomer with deep rose flower. **Fine mixed, 4c.**
- 32. **ALYSSUM-Sweet white.** h.a. Delicate flowers of a honey-like fragrance; much prized for bouquets. 3c.
- 35. **AMMOBIUM.** (Everlasting.) Valuable for winter bouquets. 4c.
- 37. **AMPELOPSIS Veitchii.** (Boston Ivy.) h.p. 5c.
- AMARANTHUS.** h.a. Of remarkably handsome foliage and interesting flowers. 40. **Caudatus.** (Love lies bleeding.) 4c.
- 41. **Tri-color.** (Joseph's coat.) Red, yellow and green. 5c.
- 42. **Salicifolius.** (Fountain Plant.) 44. **Mixed.** All colors. 4c.
- ANTIRRHINUM.** (Snap Dragon.) h.p. 46. **Majus.** Mixed Tall 2 ft. 4c. 47. **Tom Thumb.** Mixed dwarf, 3c.
- AQUILEGIA.** Columbine. h.p. Blossoms early in the spring. 65. **Single.** All colors, 2c. 66. **Double.** All colors, 4c.
- 68. **ASPERULA.** h.a. For button-hole bouquets nothing will be oftener in request. **Fine mixed, blue, 3c.**
- h.a. Very beautiful and popular plants. 50. **Dwarf Asters Bouquets.** A magnificent variety. 5c. 51. **German Quilled.** Of all colors. Very popular. 10c. 52. **New Dwarf Paeony Perfection.** Flowers profusely. Very large size and perfectly double. **Finest mixed, 10c.** 54. **Chrysanthemum Flowered.** Flowers resemble chrysanthemums. **All Colors mixed, 10c.**
- 70. **BALLOON VINE.** h.h.a. A rapid, handsome climber. 4c.
- h.a. Very popular plants; produce most lovely and striking flowers in rich profusion. Easy cultivated.
- 80. **Extra Double Rose Flowered.** Profusely covered with large double flowers of brilliant colors throughout the summer and autumn. **Mixed, 5c.** 81. **The King.** Brilliant scarlet. Very double. 5c. 82. **Camellia Flowered.** Very double and beautiful colors. **Mixed, 5c.** 83. **Double Solferino.** Beautiful white ground, with lilac and scarlet. 5c.
- 75. **BARTONIA, Aurea.** h.a. Flowers, with downy, thistle-like foliage, exceedingly brilliant. 5c.
- Begonias** t.p. As bedding plants there is nothing to equal the Tuberous Rooted Begonia. They bloom equal to the geranium, but with a form and variety of colors and shading equal to the rose. 95. **Tuberous-rooted, Single, 12c.** 96. **Tuberous-rooted, Double, 15c.** **Rex Begonia, mixed.** Beautiful variety, with variegated foliage. 12c.
- 105. **BROWALLIA.** **Rozella.** h.h.a. Valuable for blooming during winter in the house, as well as bedding out during summer. 4c.
- 110. **CACALLA.** (Tassel Flower.) h.a. Small, pretty plants, with tassel-like flowers. 3c.
- CALCEOLARIA.** t.p. Unsurpassed for pot culture in the greenhouse or conservatory. 120. **Grandiflora.** From the most beautifully marked varieties. 15c.
- 123. **CALENDULA.** (Marigold.) h.a. "El Dorado." Flowers very large. 3c. 124. **French Dwarf, 4c.** 125. **African Dwarf, 3c.**

EVERITT'S CHOICE FLOWER SEEDS

130. **CALLIOPSIS—Golden Wave.** h.a. For a mass of bright color, this is probably the most effective of all annuals. **4c.**

CAMPANULA. (Canterbury Bells.) h.b. Beautiful well-known plants. 136. **Single Mixed, 4c.** 137. **Double Mixed.** All the finest double varieties, **4c.**

134. **CANARY BIRD FLOWER.** t.a. A beautiful climber; will run 20 ft. and blossom from July until frost comes. **5c.**

CANDYTUFT. h.a. A treasure for bouquets. 145. **New Carmine.** Distinct and beautiful. **5c.** 146. **White Rocket.** Fine for florists. **3c.** 147. **Crimson.** Very beautiful. **3c.** 149. All the above mixed. **3c.**

151. **CANNA.** t.p. Fine foliage plants of a highly decorative character. **Fine mixed, 5c.**

CARNATION. h.h.p. A magnificent class of popular favorites, colors extremely rich and beautiful. 171. **Finest German Double Mixed, 5c.** 172. **Marguerite.** New. Will bloom in 4 months from sowing the seed. **5c.**

173. **CASTOR BEAN.** (Ricinus.) h.h.p. Attain gigantic proportions of 8 to 15 ft. **Mixed, 3c.**

175. **CATCHFLY.** h.a. Easy growing, free flowering plant. **5c.**

178. **CELOSIA.** (Cockscomb.) h.h.a. One of the most satisfactory plants for garden decoration. **Mixed fine, 6c.**

180. **CENTAUREA—Candidissima.** h.h.p. Fine ornamental plant of great beauty. **10c.**

190. **CHRYSANTHEMUM.** h.h.a. 190. **Eclipse.** Pure golden with a bright purplish-scarlet ring. **5c.** 191. **Fine mixed, 3c.**

195. **CINERARIA.** (Cape Asters.) t.p. The flowers and the foliage are both handsome and may be had in bloom nearly all the year. 195. **Hybrida.** Finest mixed, **10c.** 197. **Martima.** **10c.**

200. **CLARKIA.** h.a. Flowers are very pretty and of many colors. **Double and Single Mixed, 3c.**

203. **CLEMATIS.** h.p. **Virginiana.** Greenish white, fragrant flowers. **10c.** 204. **Mixed.** Possesses all the varied hues of the tall and dwarf varieties. **10c.**

210. **COBÆA.** h.h.p. A rapid climber, attaining the height of 30 feet in a season; of very easy culture. Large purple bell-shaped flowers. **4c.**

COLEUS. t.p. Beautiful ornamental foliage plants. 220. Splendid collection. **8c.** 221. **New Hybrid Strains.** Choicest new sorts. **15c.**

CYPRESS VINE. (Ipomœa Quamoclit.) t.a. A most beautiful climber, with abundance of bright star-shaped blossoms. 222. **Scarlet.** 223. **Rose.** 224. **White.** Each, **3c.** **Mixed, 3c.**

DAISY. (Bellis Perenis.) t.p. Every one knows the Daisy. A charming little plant. 255. **Extra Double White.** Unusually large double flowers. **5c.** 256. **Double, Mixed, 5c.**

262. **ESCHSCHOLTZIA.** (California Poppy) h.a. A genus of the Poppy family. **Fine mixed, 5c.**

264. **EUPHORBIA VARIEGATA.** h.a. Foliage beautiful. Very showy. Known as "Snow on the Mountain." **5c.**

266. **EUTOCA.** h.a. Foliage dull green; leaves hairy; blossoms intense blue striped, three-quarters of an inch across. A branch placed in water will bloom many days. **Mixed, 4c.**

268. **FORGET-ME-NOT.** **Myosotis alpestris.** h.p. Flowers large. **3c.**

270. **FOUR O'CLOCK.** (Marvel of Peru.) p. Few plants combine greater beauty of flowers and foliage. **Mixed, 3c.**

272. **FOXGLOVE.** (Digitalis.) h.b. Ornamental plants, producing dense spikes of flowers on stems 3 to 5 ft. high. **Mixed, 3c.**

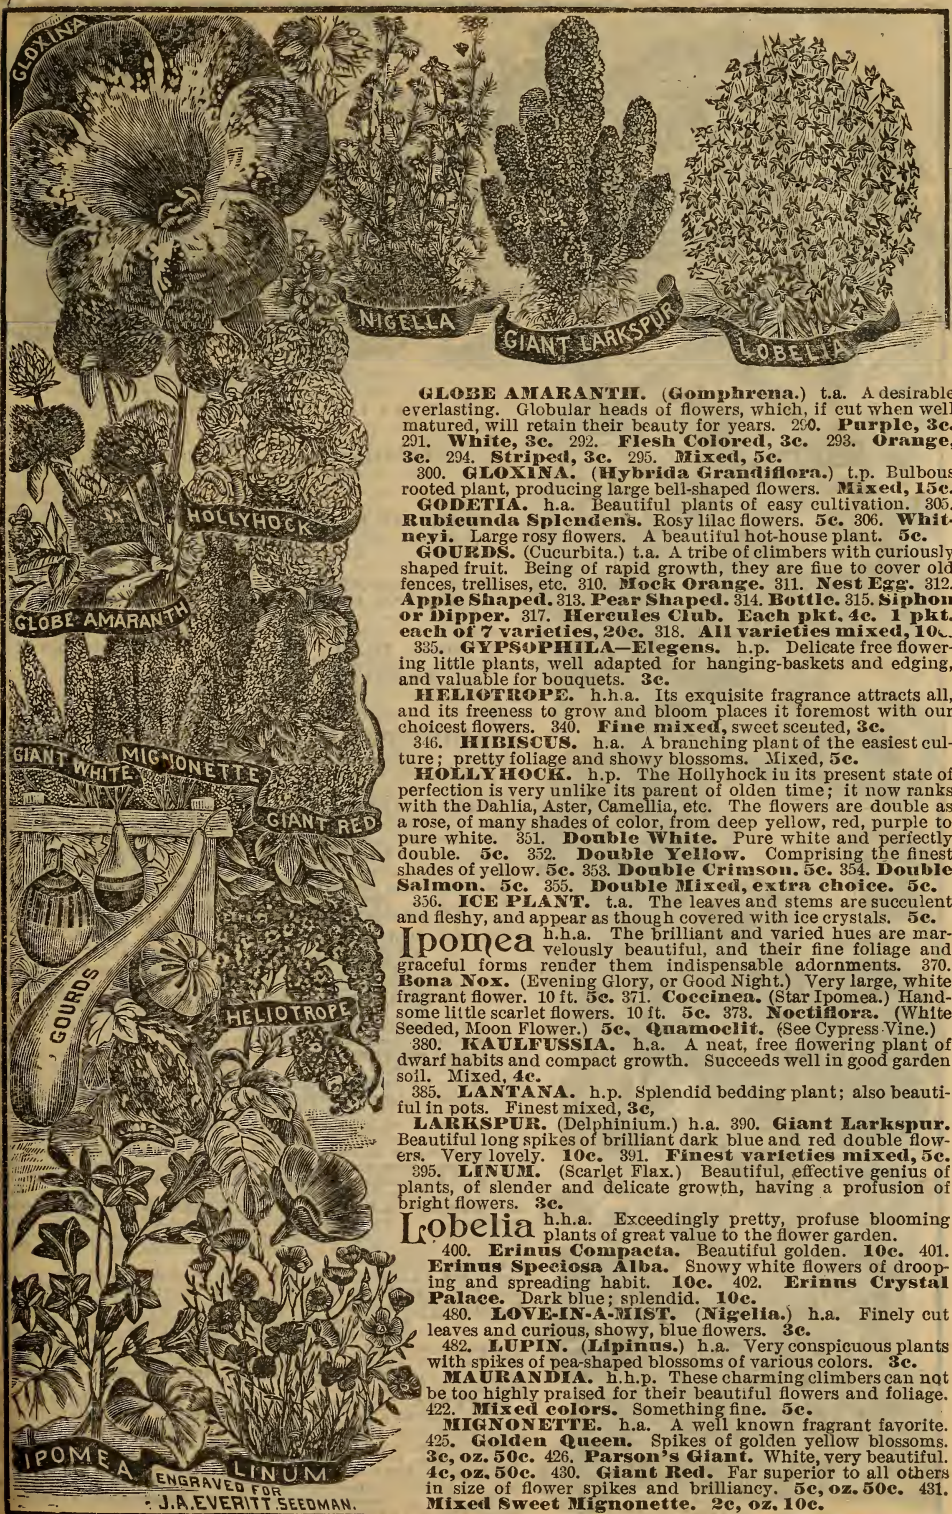

GAILLARDIA. h.h.a. Remarkable for the size, brilliancy and duration of their flowers. 275. **Mixed varieties, 3c.** 276. **Hybrida Grandiflora.** Large flowers of rich crimson and yellow. **5c.**

GERANIUM. h.h.p. No garden seems complete without a bed of these popular plants. 282. **Fancy Pelargonium.** **20c.** 280. **Finest Double, Mixed, 10c.** 281. **Apple Scented, Mixed, 20c.**

281. **GILIA.** (Tri-color.) Blooms in any situation. **Choice Mixed, 4c.**

287. **GLAUCIUM.** (Corniculatum.) Very showy plants, with attractive flowers. **10c.**

ENGRAVED FOR
J. A. EVERITT,
SEEDSMAN.

GLOBE AMARANTH. (*Gomphrena*.) t.a. A desirable everlasting. Globular heads of flowers, which, if cut when well matured, will retain their beauty for years. 250. **Purple, 3c.** 291. **White, 3c.** 292. **Flesh Colored, 3c.** 293. **Orange, 3c.** 294. **Striped, 3c.** 295. **Mixed, 5c.**

300. **GLOXINA.** (*Hybrida Grandiflora*.) t.p. Bulbous rooted plant, producing large bell-shaped flowers. **Mixed, 15c.**

GODETIA. h.a. Beautiful plants of easy cultivation. 305. **Rubicunda Splendens.** Rosy lilac flowers. 5c. 306. **Whitneyi.** Large rosy flowers. A beautiful hot-house plant. 5c.

GOURDS. (*Cucurbita*.) t.a. A tribe of climbers with curiously shaped fruit. Being of rapid growth, they are fine to cover old fences, trellises, etc. 310. **Mock Orange, 311.** **Nest Egg, 312.** **Apple Shaped, 313.** **Pear Shaped, 314.** **Bottle, 315.** **Siphon or Dipper, 317.** **Hercules Club, Each pkt. 4c.** 1 pkt. each of 7 varieties, 20c. 318. **All varieties mixed, 10c.**

335. **GYPSOPHILA—Elegans.** h.p. Delicate free flowering little plants, well adapted for hanging-baskets and edging, and valuable for bouquets. 3c.

HELIOTROPE. h.h.a. Its exquisite fragrance attracts all, and its freshness to grow and bloom places it foremost with our choicest flowers. 340. **Fine mixed, sweet scented, 3c.**

346. **HIBISCUS.** h.a. A branching plant of the easiest culture; pretty foliage and showy blossoms. **Mixed, 5c.**

HOLLYHOCK. h.p. The Hollyhock in its present state of perfection is very unlike its parent of olden time; it now ranks with the Dahlia, Aster, Camellia, etc. The flowers are double as a rose, of many shades of color, from deep yellow, red, purple to pure white. 351. **Double White.** Pure white and perfectly double. 5c. 352. **Double Yellow.** Comprising the finest shades of yellow. 5c. 353. **Double Crimson, 5c.** 354. **Double Salmon, 5c.** 355. **Double Mixed, extra choice, 5c.**

356. **ICE PLANT.** t.a. The leaves and stems are succulent and fleshy, and appear as though covered with ice crystals. 5c.

Ipomea h.h.a. The brilliant and varied hues are marvelously beautiful, and their fine foliage and graceful forms render them indispensable adornments. 370. **Bona Nox.** (Evening Glory, or Good Night.) Very large, white fragrant flower. 10 ft. 5c. 371. **Coccinea.** (Star Ipomea.) Handsome little scarlet flowers. 10 ft. 5c. 373. **Noctiflora.** (White Seeded, Moon Flower.) 5c. **Quamoclit.** (See Cypress Vine.)

380. **KAULFUSSIA.** h.a. A neat, free flowering plant of dwarf habits and compact growth. Succeeds well in good garden soil. **Mixed, 4c.**

385. **LANTANA.** h.p. Splendid bedding plant; also beautiful in pots. **Finest mixed, 3c.**

LARKSPUR. (*Delphinium*.) h.a. 390. **Giant Larkspur.** Beautiful long spikes of brilliant dark blue and red double flowers. Very lovely. 10c. 391. **Finest varieties mixed, 5c.**

395. **LINUM.** (*Scarlet Flax*.) Beautiful, effective genus of plants, of slender and delicate growth, having a profusion of bright flowers. 3c.

Lobelia h.h.a. Exceedingly pretty, profuse blooming plants of great value to the flower garden.

400. **Erinus Compacta.** Beautiful golden. 10c. 401. **Erinus Speciosa Alba.** Snowy white flowers of drooping and spreading habit. 10c. 402. **Erinus Crystal Palace.** Dark blue; splendid. 10c.

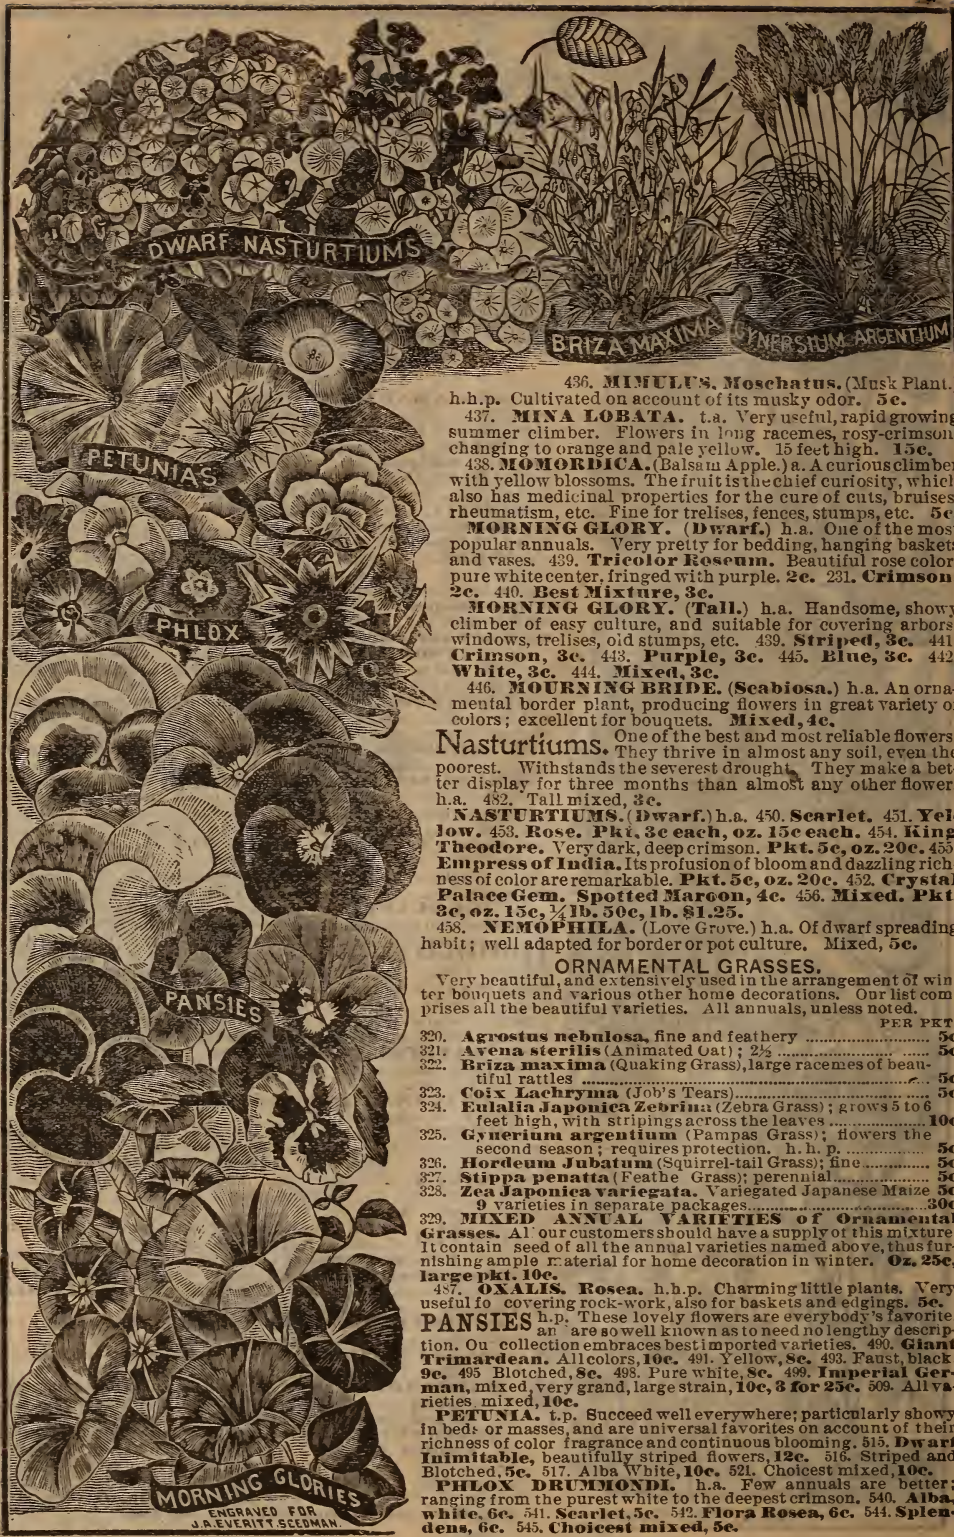

480. **LOVE-IN-A-MIST.** (*Nigella*.) h.a. Finely cut leaves and curious, showy, blue flowers. 3c.

482. **LUPIN.** (*Lipinus*.) h.a. Very conspicuous plants with spikes of pea-shaped blossoms of various colors. 3c.

MAURANDIA. h.h.p. These charming climbers can not be too highly praised for their beautiful flowers and foliage. 422. **Mixed colors, Something fine, 5c.**

MIGNONETTE. h.a. A well known fragrant favorite. 425. **Golden Queen.** Spikes of golden yellow blossoms. 3c, oz. 50c. 426. **Parson's Giant.** White, very beautiful. 4c, oz. 50c. 430. **Giant Red.** Far superior to all others in size of flower spikes and brilliancy. 5c, oz. 50c. 431. **Mixed Sweet Mignonette. 2c, oz. 10c.**

MORNING GLORIES

BRIZA MAXIMA PENNISETUM ARGENTUM

496. **MINULUS Moschatus.** (Musk Plant.) h.p. Cultivated on account of its musky odor. 5c.

437. **MINA LOBATA.** t.a. Very useful, rapid growing summer climber. Flowers in long racemes, rosy-crimson, changing to orange and pale yellow. 15 feet high. 15c.

438. **MEMORICA.** (Balsam Apple.) a. A curious climber with yellow blossoms. The fruit is the chief curiosity, which also has medicinal properties for the cure of cuts, bruises, rheumatism, etc. Fine for trellises, fences, stumps, etc. 5c.

MORNING GLORY. (Dwarf.) h.a. One of the most popular annuals. Very pretty for bedding, hanging baskets and vases. 439. **Tricolor Roseum.** Beautiful rose color, pure white center, fringed with purple. 2c. 231. **Crimson.** 2c. 440. **Best Mixture.** 3c.

MORNING GLORY. (Tall.) h.a. Handsome, showy climber of easy culture, and suitable for covering arbors, windows, trellises, old stumps, etc. 439. **Striped.** 3c. 441. **Crimson.** 3c. 443. **Purple.** 3c. 445. **Blue.** 3c. 442. **White.** 3c. 444. **Mixed.** 3c.

446. **MORNING BRIDE. (Scabiosa.)** h.a. An ornamental border plant, producing flowers in great variety of colors; excellent for bouquets. **Mixed.** 4c.

Nasturtiums. One of the best and most reliable flowers. They thrive in almost any soil, even the poorest. Withstands the severest drought. They make a better display for three months than almost any other flower. h.a. 482. Tall mixed, 3c.

NASTURTIIUMS. (Dwarf.) h.a. 450. **Scarlet.** 451. **Yellow.** 453. **Rose.** Pkt. 3c each, oz. 15c each. 454. **King Theodore.** Very dark, deep crimson. Pkt. 5c, oz. 20c. 455. **Empress of India.** Its profusion of bloom and dazzling richness of color are remarkable. Pkt. 5c, oz. 20c. 452. **Crystal Palace Gem.** **Spotted Maroon.** 4c. 456. **Mixed.** Pkt. 3c, oz. 15c, 1/2 lb. 50c, lb. \$1.25.

458. **NEMOPHILA.** (Love Grove.) h.a. Of dwarf spreading habit; well adapted for border or pot culture. **Mixed.** 5c.

ORNAMENTAL GRASSES.

Very beautiful, and extensively used in the arrangement of winter bouquets and various other home decorations. Our list comprises all the beautiful varieties. All annuals, unless noted.

	PER PKT.
320. <i>Agrostus nebulosa</i> , fine and feathery	5c
321. <i>Avena sterilis</i> (Animated Oat); 2 1/2	5c
322. <i>Briza maxima</i> (Quaking Grass), large racemes of beautiful rattles	5c
323. <i>Coix Lachryma</i> (Job's Tears)	5c
324. <i>Eulalia Japonica Zebрина</i> (Zebra Grass); grows 5 to 6 feet high, with striplings across the leaves	10c
325. <i>Gynerium argenteum</i> (Pampas Grass); flowers the second season; requires protection. h. h. p.	5c
326. <i>Hordeum Jubatum</i> (Squirrel-tail Grass); fine	5c
327. <i>Stipa penata</i> (Feathe Grass); perennial	5c
328. <i>Zea Japonica variegata</i> . Variegated Japanese Maize 5c 9 varieties in separate packages.	30c

329. **MIXED ANNUAL VARIETIES of Ornamental Grasses.** All our customers should have a supply of this mixture. It contain seed of all the annual varieties named above, thus furnishing ample material for home decoration in winter. **Oz. 25c, large pkt. 10c.**

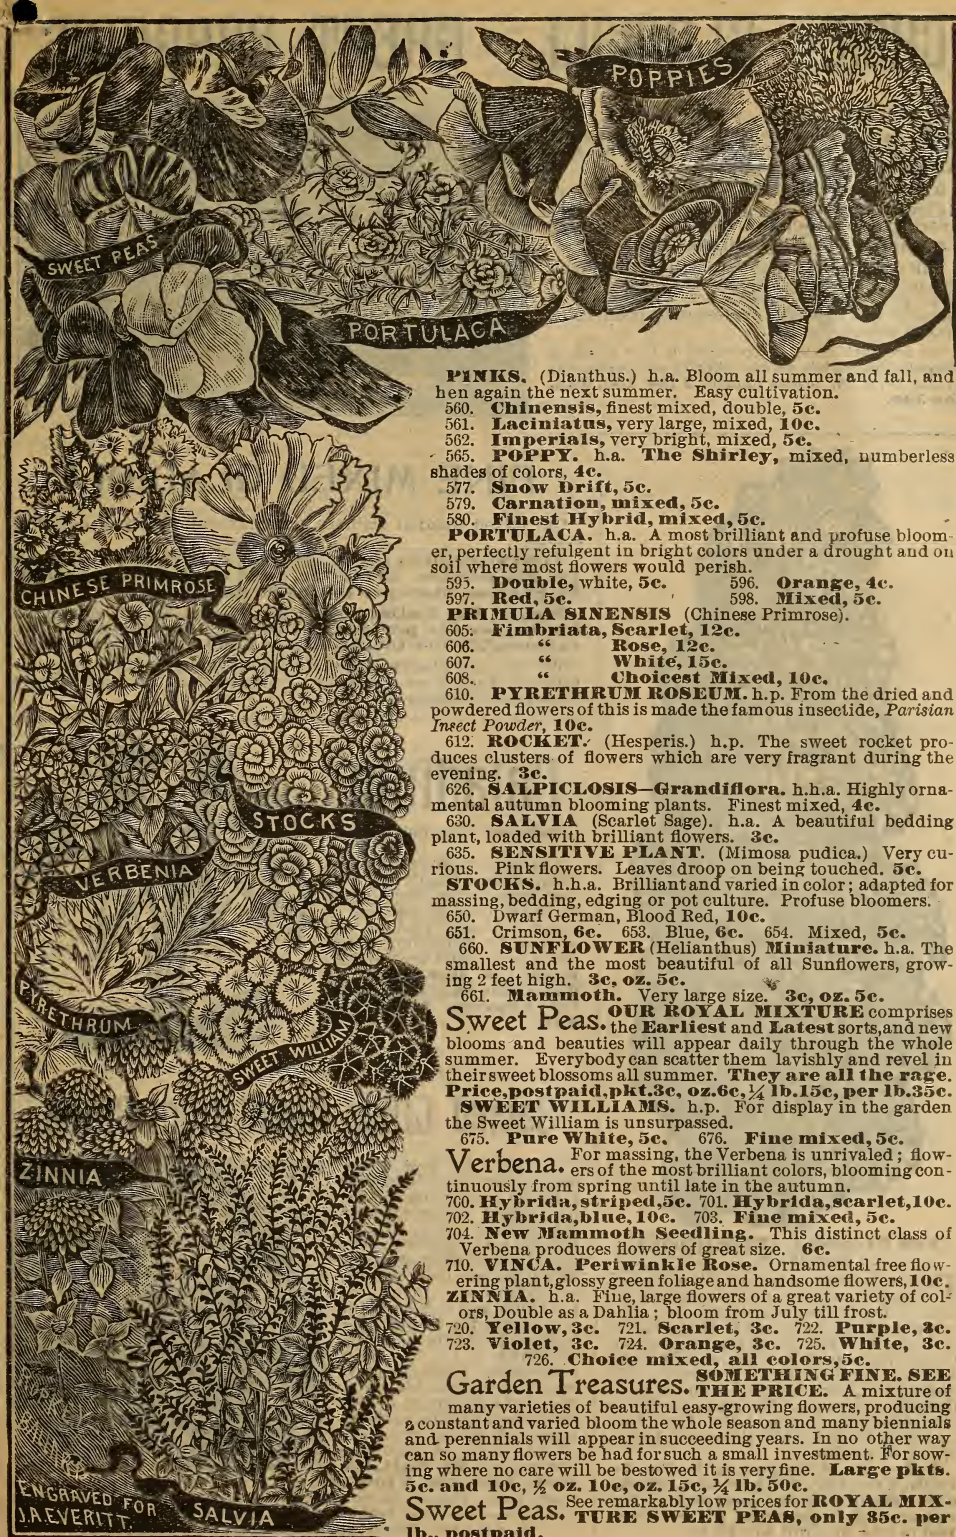

457. **OXALIS. Rosa.** h.p. Charming little plants. Very useful for covering rock-work, also for baskets and edgings. 5c.

PANSIES h.p. These lovely flowers are everybody's favorite, and are so well known as to need no lengthy description. Our collection embraces best imported varieties. 490. **Giant Trimardean.** All colors, 10c. 491. **Yellow.** 8c. 493. **Faust.** black, 9c. 495. **Blotched.** 8c. 498. **Pure white.** 8c. 499. **Imperial German.** mixed, very grand, large strain, 10c, 3 for 25c. 509. **All varieties.** mixed, 10c.

PETUNIA. t.p. Succeed well everywhere; particularly showy in beds or masses, and are universal favorites on account of their richness of color fragrance and continuous blooming. 515. **Dwarf Inimitable.** beautifully striped flowers, 12c. 516. **Striped and Blotched.** 5c. 517. **Alba White.** 10c. 521. **Choicest mixed.** 10c.

PHLOX DRUMMONDI. h.a. Few annuals are better; ranging from the purest white to the deepest crimson. 540. **Alba.** white. 6c. 541. **Scarlet.** 5c. 542. **Flora Rosea.** 6c. 544. **Splendens.** 6c. 545. **Choicest mixed.** 5c.

ENGRAVED FOR J. A. EVERITT SEEDMAN

PINKS. (*Dianthus*.) h.a. Bloom all summer and fall, and again the next summer. Easy cultivation.

- 560. **Chinensis**, finest mixed, double, 5c.
- 561. **Laciniatus**, very large, mixed, 10c.
- 562. **Imperialis**, very bright, mixed, 5c.
- 565. **POPPY**. h.a. **The Shirley**, mixed, numberless shades of colors, 4c.

- 577. **Snow Drift**, 5c.
- 579. **Carnation**, mixed, 5c.
- 580. **Finest Hybrid**, mixed, 5c.

PORTULACA. h.a. A most brilliant and profuse bloomer, perfectly refrugent in bright colors under a drought and on soil where most flowers would perish.

- 595. **Double**, white, 5c. 596. **Orange**, 4c.
- 597. **Red**, 5c. 598. **Mixed**, 5c.

PRIMULA SINENSIS (*Chinese Primrose*).

- 605. **Fimbriata**, Scarlet, 12c.
- 606. " **Rose**, 12c.
- 607. " **White**, 15c.
- 608. " **Choicest Mixed**, 10c.

PYRETHRUM ROSEUM. h.p. From the dried and powdered flowers of this is made the famous insecticide, *Parisian Insect Powder*, 10c.

ROCKET. (*Hesperis*.) h.p. The sweet rocket produces clusters of flowers which are very fragrant during the evening. 3c.

SALPICLOSIS—Grandiflora. h.h.a. Highly ornamental autumn blooming plants. Finest mixed, 4c.

SALVIA (*Scarlet Sage*). h.a. A beautiful bedding plant, loaded with brilliant flowers. 3c.

SENSITIVE PLANT. (*Mimosa pudica*.) Very curious. Pink flowers. Leaves droop on being touched. 5c.

STOCKS. h.h.a. Brilliant and varied in color; adapted for massing, bedding, edging or pot culture. Profuse bloomers.

- 650. **Dwarf German**, Blood Red, 10c.
- 651. **Crimson**, 6c. 653. **Blue**, 6c. 654. **Mixed**, 5c.

SUNFLOWER (*Helianthus*) **Miniature.** h.a. The smallest and the most beautiful of all Sunflowers, growing 2 feet high. 3c. oz. 5c.

661. **Mammoth.** Very large size. 3c. oz. 5c.

Sweet Peas. **OUR ROYAL MIXTURE** comprises the **Earliest** and **Latest** sorts, and new blooms and beauties will appear daily through the whole summer. Everybody can scatter them lavishly and revel in their sweet blossoms all summer. **They are all the rage.**

Price, postpaid, pkt. 3c. oz. 6c. ¼ lb. 15c. per lb. 35c.

SWEET WILLIAMS. h.p. For display in the garden the Sweet William is unsurpassed.

- 675. **Pure White**, 5c. 676. **Fine mixed**, 5c.

Verbena. Flowers of the most brilliant colors, blooming continuously from spring until late in the autumn.

- 700. **Hybrida**, striped, 5c. 701. **Hybrida**, scarlet, 10c.
- 702. **Hybrida**, blue, 10c. 703. **Fine mixed**, 5c.

704. **New Mammoth Seeding.** This distinct class of Verbena produces flowers of great size. 6c.

710. **VINCA. Periwinkle Rose.** Ornamental free flowering plant, glossy green foliage and handsome flowers, 10c.

ZINNIA. h.a. Fine, large flowers of a great variety of colors, double as a Dahlia; bloom from July till frost.

- 720. **Yellow**, 3c. 721. **Scarlet**, 3c. 722. **Purple**, 3c.
- 723. **Violet**, 3c. 724. **Orange**, 3c. 725. **White**, 3c.
- 726. **Choice mixed**, all colors, 5c.

Garden Treasures. **SOMETHING FINE. SEE THE PRICE.** A mixture of many varieties of beautiful easy-growing flowers, producing a constant and varied bloom the whole season and many biennials and perennials will appear in succeeding years. In no other way can so many flowers be had for such a small investment. For sowing where no care will be bestowed it is very fine. **Large pkts. 5c. and 10c. ½ oz. 10c. oz. 15c. ¼ lb. 50c.**

Sweet Peas. See remarkably low prices for **ROYAL MIXTURE SWEET PEAS**, only 35c. per lb., postpaid.

ENGRAVED FOR J.A. EVERITT.

SALVIA

CHOICE GLADIOLI. GREAT BARGAINS.

OUR offers have never been equaled. The varieties are the best; and colors unsurpassed; embracing every color and shade. **All postpaid unless noted.**

5 Lemoines Butterfly Gladioli, 25c.

Flowers finest texture and richest, most vivid coloring, **5 for 25c, doz. for 50c.**

5 Named Gladioli Childsi, 25c.

This distinct mammoth race of Gladioli is much stronger and more vigorous than any others. They grow very tall and erect, with spikes of blooms 2 feet in length, representing every color known among Gladioli.

We are fortunate in securing a fine stock of these bulbs, which we can offer to our customers at the very low prices named, **5 for 25c, doz. for 50c.**

FINE MIXED GLADIOLI.

Our mixed Gladioli embrace a magnificent variety of beautiful colors.

First Size Bulbs, guaranteed to flower, extra fine mixed, **4 for 10c, 25c per doz., 50 for 75c, or \$1.25 per 100, postpaid. By express, \$1.00 per 100, \$9.00 per 1,000.**

Second Size Bulbs, which will all flower the first summer, **5 for 10c, or 15c per doz., \$1.00 per 100, postpaid. By express, 75c per 100, \$7.00 per 1,000, embracing all colors.**

Who will not plant a plenty of Gladioli at above ridiculously low prices? They grow as readily as potatoes, and no bugs to fight through the summer.

New Excelsior TUBEROSE Pearl

THIS is the best variety, and is a general favorite and the most popular of all flowers for button-hole bouquets. Can be grown in pots or plant in open ground in May. The flowers of this variety are double the size of the common Tuberose, and are borne in great profusion. Of dwarf habit, perfectly double and of most delicious fragrance. No flower garden is complete without a few stalks. If planted in pots in early winter will bloom before spring flowers come.

Extra sized flowering bulbs, 5c each, 3 for 10c, 30c per doz., 25 for 65c, 100 for \$2.40, postpaid. By express at expense of purchaser, 100 for \$1.50, 500 for \$5.00

Caladium

Esculetum (Elephant's Ears.)

The leaves of this giant plant often attain a length of 3 feet. Very suitable for single plant on lawn, beds or margins of water. Attains greatest size in a moist situation. Keep bulbs in dry sand over winter. **Each 15c, doz. \$1.50, 1/2 doz. same rate, postpaid. By express, \$1.00 per doz.**

Sacred Lilies Direct from China.

EVERYBODY now wants one or more Chinese Sacred Lilies for the window in winter. Why? Because it is of easy culture; it is sure to bloom; each bulb bears several clusters; the flowers are deliciously scented; you are sure to succeed. If you cultivate but half a dozen window plants the Sacred Lily ought to be among them. Its popularity is increasing every year. If you grow it once you will want it again. We have a fine stock of immense bulbs imported direct from their native home, the YULA river, at following low prices: **By mail, 15c each, 2 for 25c, 5 for 50c.** To grow them, fill a bowl, or any vessel about 4 inches deep, half full of water; place the bulb therein and lay some pebbles around to keep it in an upright position. *No order accepted after March 15 as bulbs will not be in good condition.*

"SUPERIOR PRODUCTIONS."

This is a good motto for American Farmers. . .

Superior Productions are brought about by Superior Seeds, Superior Fertilization and Superior Cultivation, but chief and most important of these is Superior Seed.

"Good Seeds Bring a Glad Harvest" is a statement I used in the first advertising I did when embarking in the seed business twenty years ago. Later I adopted the trade mark "O. K. Seeds," and have always striven to sell good seeds, the foundation for good crops.

I have always made a Great Specialty of

FARM SEEDS

Including Grass and Clover Seed, Seed Corn, Seed Oats, Seed Potatoes, etc. These are the Money Crops on nearly all farms, and are liable to degenerate very rapidly without proper care, or judicious and frequent change of seeds. The difference between the poor or ordinary varieties of corn, oats, and potatoes, as grown on the majority of farms, and the best varieties that could be grown with no extra expense, is really surprising. We will again quote from that great paper, the Rural New Yorker, as follows: "Side by side in experimental plots we have raised as many as 75 different kinds of wheat. The best yield was at the rate of 37 bushels to the acre—the lowest 25. Side by side we have raised 100 different varieties of potatoes. The highest yield in our rich garden soil has been at the rate of 1,200 bushels to the acre, the lowest about 350. In field culture, in poor soil, well fertilized with potato fertilizers, we have raised from one variety 150 bushels to the acre, from another, 300 to the acre. Now, WHAT corn on your soil, good farmer, will give you the maximum yield? WHAT wheat? WHAT potato? WHAT KIND of oats? Isn't it worth your while to find out, or don't you believe in such differences?"

The above remarks should start you to thinking, and if you will invest a few dollars each year in New Farm Seeds, you will come out a great Winner in the long run.

In attempting to improve your crops, buy from an established house with a reputation to sustain, and not from canvassers or sensational advertisers, who may be one place this year and in another country next year.

Freight Paid. See 2nd Cover Page for our offer to prepay freight. You can now know just what **Farm Seeds** will cost you delivered, and need not be at the mercy of the Railroad Company.

OUR LOCATION. Indianapolis is situated in the center of the richest and most extensive agricultural region on the face of the globe, and has shipping facilities unsurpassed by any other city in the country. We can save you time and money on transportation, if you give us your order for **FARM SEEDS**.

Fact. The most successful farmers are those who possess large areas in Grass and Clover. Stock growing is profitable. Hence seed more-ground to grass. Raise more stock.

CLOVER SEED.

Bags, extra for each 2½ bushels or less, 15c. 1 to 4 lbs. are prepaid by mail. Larger quantities by freight or express. Prices subject to change.

COMMON OR MEDIUM RED CLOVER—This is the variety in general cultivation, and is so well known that description is not necessary. **By mail, pkt. 10c, lb. 30c, 4 lbs. \$1.00.** **By freight or express, bu. \$5.00.**

MAMMOTH CLOVER. (Pea Vine or English)—Like Common or Medium Clover, but of larger growth. **By mail, pkt. 10c., lb. 30c, 4 lbs. \$1.00.** **By freight or express, bu. \$5.00.**

ALSIKE. (*Trifolium hybridum*)—This clover is deservedly in repute as one of the best perennial Clovers, and is well adapted to this country. Should be more generally grown. Sow in spring same as common Clover. It will stand for years. Seed weighs 60 lbs. per bushel and is very small. On this account a bushel will sow from 12 to 15 acres, making it one of the cheapest varieties to seed with. **By mail, pkt. 10c, lb. 35c, 4 lbs. \$1.25.** **By freight or express, bu. \$7.00.**

LUCERNE OR ALFALFA CLOVER—Lucerne should not be sown on hard, compact soil, or with hard sub-soil, but on sandy, open or porous soil. Even where no other crop will grow, it finds its natural home, and yields enormously. The great value of Lucerne is in its enormous yield of sweet and nutritious forage. Sow about 15 lbs. per acre in March or April. It can be cut three times in a season, and will produce magnificent crops for 10 to 15 years without renewing. **60 lbs. per bu. By mail, pkt. 10c, lb. 30c, 4 lbs. \$1.00.** **By freight or express, bu. \$5.00.**

CRIMSON OR SCARLET CLOVER. (*Trifolium incarnatum*)—An annual. It will make abundant pasture in the fall, winter and spring. **By mail, pkt. 10c, lb. 30c, 4 lbs. \$1.00.** **By freight or express, American grown, \$4.00 per bu., Imported, \$3.50 per bu.** Weight, 60 lbs. to bu. Sow 10 lbs. per acre.

WHITE DUTCH CLOVER—The best to sow with lawn grass and valuable in permanent pastures. **Pkt. 10c, lb. 35c, 4 lbs. \$1.25, bu., 60 lbs. \$7.50.**

GRASS SEED.

Bags, extra for each 2½ bushels or less, 15c ea. 1 to 4 lbs. are prepaid by mail. Larger quantities by freight or express. Prices subject to change.

BROMUS INERMIS. A NEW GRASS—A wonderful grass for dry soils, dry climates and semi-arid regions, also surpasses timothy, orchard and blue grass in sections where they find their natural homes. Has been thoroughly tested in every State in the Union, and highly endorsed by Agricultural Stations, by the Department of Agriculture, Washington, and by farmers. Bromus Inermis comes from Russia. It grows 2 to 5 feet tall. It is as nutritious as timothy and orchard grass. It is a sure grower, a sure cropper, as it resists drought and winter. Once started lasts for years. Produces seed. Sow in the spring, 20 lbs. per acre. 14 lbs. per bu.

The Department of Agriculture has been experimenting with this Grass at Garden City, Kan., says: "We have grown Bromus Inermis successfully, and we think it is the coming grass for the arid regions of the West. It is green from the middle of March to about November." **Price, by mail, 1 lb. 25c, 4 lbs. 75c.** **By freight or express, 1 bu. \$2.00, 5 bus. \$9.00.** See illustration 3d Cover Page.

TIMOTHY—This is decidedly the best grass for hay, making a large return of strong, rich hay. Sow 6 to 8 quarts, spring or fall, to acre. **By mail, pkt. 10c, lb. 25c, 4 lbs. 75c.** **By freight or express, bu. \$1.25.**

KENTUCKY BLUE GRASS—This is known in some sections as "June Grass." It is the best pasture for our climate and soil, succeeding finely on hill lands and producing the most nourishing food for cattle. Sow in the spring or fall, 1 to 2 bus. per acre. **Fancy cleaned, pkt. 10c, lb. 40c, 4 lbs. \$1.25, bu. \$1.25.** **Extra cleaned, 55c per bu.** Weight, 14 lbs. per bu.

ORCHARD GRASS—This is one of the most widely known of all pasture grasses, coming earlier in the spring and remaining later in autumn than any other. 14 lbs. per bu. Sow 1½ to 2 bus. to acre, either fall or spring. **By mail, pkt. 10c, lb. 40c, 4 lbs. \$1.25, bu. \$1.40.**

RED TOP—A valuable grass for moist soils and low lands. It is a good, permanent grass. 14 lbs. to bu. Sow 2 bus. to acre, fall or spring. **By mail, pkt. 10c, lb. 40c, 4 lbs. \$1.25.** **Fancy Seed, bu. \$1.25.**

MILLET.

SIBERIAN MILLET—Is a more rapid grower than German Millet; of a liberal stooling habit with a greater profusion of fine blades and makes an immense amount of fodder. Is rust-proof and chinch bugs do not care for it. Six to eight pounds of seed is sufficient for an acre. **Pkt. 5c, lb. 25c, 4 lbs. 75c.** **By freight or express, ¼ bu. 35c, bu. \$1.00.**

GERMAN OR GOLDEN—The true large headed variety. The best variety and largely grown wherever its value is known. Sow broadcast, 1 bu. to the acre, from May 1st to August 1st. **Pkt. 5c, lb. 25c, 4 lbs. 75c.** **By freight or express, ¼ bu. 35c, bu. \$1.00.**

COMMON MILLET—Smaller growth than German. Makes fine hay. **Price 10c per bu. less than German.**

HUNGARIAN MILLET—Abundant foliage and slender head; yields well. Price same as German Millet.

QUICK GROWING LAWN GRASS—Fine lawns, grass patches or grass borders add to the beauty of a place as much as flowers. We have prepared a grass mixture which will give a good sward the first year. Sow early in the fall or spring. **Lb. 30c, peck, \$1.30, postpaid.** **By express, peck, 75c, bu. \$2.50.**

Miscellaneous Farm Crops.

Buckwheat. JAPANESE—The plants are seed early, and resisting drought and blight remarkably well; the grain is much larger and has a thinner hull than the Common or the Silver Hull. We recommend this especially for well drained or sandy land, and the dry climate of the western plains. **Pkt. 5c, lb. 25c, 4 lbs. 65c, ¼ bu. 35c, per bu. \$1.00.**

Buckwheat. SILVER HULL—This improved variety is much better than the old sort. It is in bloom longer, matures sooner and yields double the quantity per acre. The husk is thinner, the corners less prominent, and the grain of a beautiful light gray color. **Pkt. 5c, lb. 25c, 4 lbs. 65c, ¼ bu. 35c, per bu. \$1.00.**

Broom Corn. IMPROVED EVER-GREEN—For length, strength and straightness of brush, unexcelled. It is a very bright green color, without the slightest reddish tinge. It makes by far the best broom of any grown; height, 8 to 12 feet. **Pkt. 5c, lb. 25c, by mail; peck 50c, bu. \$1.50.**

Flax Seed. For Sowing. **By mail, lb. 25c, 4 lbs. 65c. By freight or express, 5c per lb.**

Kaffir Corn. The heads are long and perfectly erect, well filled with white grain, flecked with reddish-brown spots. The average height of growth on good, strong land is 5½ to 6 feet. The seed heads grow from 10 to 12 inches in length, and the product of grain on good land reaches easily 50 to 60 bus. per acre. The whole stock, as well as the blades, cures into excellent fodder.

WHITE KAFFIR—Pkt. 10c, lb. 25c, 4 lbs. 65c, peck 40c, bu. \$1.25.

RED KAFFIR—Same as White.

Sunflower. MAMMOTH RUSSIAN—Is grown for its seeds, which are very valuable food for stock, particularly poultry. It is considered the best egg-producing food known. They eat it greedily, fatten on it, obtain a bright, lustrous plumage and strong, healthy condition, that fully illustrates the wonderful benefits from its use. It can be raised as cheaply as corn, having yielded at the rate of 120 bus. per acre. Single heads measure 12 to 22 inches across, and contain an immense quantity of seed. It can be planted at any time up to the middle of June. **Pkt. 5c, ¼ lb. 10c, lb. 30c, 4 lb. 75c. By freight or express, ¼ bu. 50c, bu. \$1.50.**

Sugar Cane. EARLY AMBER—Most valuable variety for general cultivation, ripening as far north as Minnesota; also yields heavy crop of seed and fodder, which are excellent for feeding poultry, swine or cattle. **Pkt. 5c, lb. 25c, 4 lbs. 65c, by mail. By freight or express, peck 40c, bu. \$1.25. Bags free.**

EARLY ORANGE—A later variety, suitable for the South or lower Middle and Western States. Requires a longer season to ripen, much larger and ranker in growth. Price the same as the Early Amber.

Rape. DWARF ESSEX—There are millions of acres of good land that lie idle part or all of the year to run to weeds, that can be sowed to this rape and produce the finest feed imaginable, and at the same time improve in fertility. It can be sown from May to September in this latitude. It can follow any other crop and furnishes most nutritious pasture, when oftentimes cattle are roaming the fields in search of a scanty living. Should be sowed at intervals of two or three weeks, so as to have fresh crops constantly coming on. From one-half acre there was cut 9¼ tons of green rape fodder. It is particularly valuable for sheep and hogs, being twice as nutritious as red clover. In fact, sheep soon "weigh like lead" when pastured on it. It is hardy in winter, resists severe droughts; in fact, of untold value, and its cultivation is just beginning. Sow 5 lbs. per acre broadcast; 3 lbs. per acre if drilled. **By mail, pkt. 5c, lb. 25c, 4 lbs. 75c. By freight or express, per lb. 12c, 100 lbs. \$10.00.**

Peanuts. SPANISH—An early variety, growing perfectly erect; can be cultivated with the plow exclusively. They yield per acre very large. Because of their early habit and easy cultivation, the most profitable variety to grow for fattening hogs. The foliage, growing erect, is easily harvested and makes a very rich hay. Plant any time from April to July 10. They succeed well after oats. Plant in rows 2 feet apart, and seed 8 inches in the drill. **Price, large pkt. 10c, lb. 25c, 4 lbs. 75c, by mail, postpaid. By freight or express, ¼ bu. 75c, ½ bu. \$1.25, bu. \$2.00.**

Tobacco Seed. PEDIGREE STOCK—Improved by selection and grown on the crown shoots only.

PRICE OF ANY VARIETY—Pkt. 5c, oz. 20c, ¼ lb. 50c, lb. \$1.50.

BRADLEY BROAD LEAF—A popular variety for export, manufacturing, or cigars. A good, reliable variety.

TUCKAHOE—A first-class variety in every respect. Leaf long and extra fine—the perfection of a wrapper. **YELLOW PRYOR**—Preferred by many for bright, and succeeds where other yellow sorts fail.

SWEET ORINOCO—Used for first-class plug fillers, and makes, when sun cured, the best natural chewing leaf.

HAVANA—Grown from imported seed. Better than direct imported seed for American planters.

CONNECTICUT SEED LEAF—The largest, finest and best of this indispensable kind.

PENNSYLVANIA SEED LEAF—Largely grown in famous Lancaster County district.

BLUE PRYOR—The Genuine James River favorite. Rich shipper.

Yellow Millo Maize. A tall plant, growing 9 to 12 feet, stooling from the ground. It sends out shoots also from the joints. It has all the vigor and vitality of other Sorghums. It is non-saccharine; useful for the large amount of foliage, green feed or cured fodder that it furnishes, and for its grain. Earlier than the White Branching variety. Sow 10 lbs. per acre. **By mail, pkt. 5c, lb. 25c, 4 lbs. 75c. By freight or express, 6c per lb.**

Vicia Villosa. SAND VETCH—A forage plant destined to create a sensation in the West and Northwestern States, owing to its adaptability to withstand severe drought, heat or cold. It succeeds and produces good crops on poor, sandy soil. It is perfectly hardy throughout the United States, remaining green all winter. It is also equally valuable in the South. Nothing can excel this Vetch for early cutting. **Sown in August or September**, at the rate of 40 to 50 lbs. per acre, mixed with a bushel of rye or wheat to furnish support for the vines of the Vetch, or in Drills 3 feet apart, using about 30 lbs. per acre, it will furnish a magnificent crop of green fodder by May. If cut before coming into bloom, it immediately starts into growth, furnishing a second crop, which can be eaten off by sheep or hogs or plowed under as a green manure. The Washington Department of Agriculture estimates the value of a plowed under crop of this Vetch as equivalent to putting into the ground \$16 to \$45 worth of commercial fertilizers. It can also be sown in April and will be ready to cut by the middle of July, the second growth affording excellent hog pasture during the summer. It is very nutritious, even more so than clover; is eaten with relish, and may be fed with safety to all kinds of stock. **By mail, pkt. 10c, lb. 25c, 4 lbs. 75c. By freight or express, 10 lbs. \$1.25, 20 lbs. \$2.00, 1 bu., 60 lbs, at 8c per lb.**

Send for Special Circular and prices when ready to purchase.

Canada, Clay, Whippoorwill, Black, Wonderful, Velvet and other varieties.

High Mixed. The best varieties mixed together. They give a more continuous crop and succeed every season better than single varieties, also are cheaper. We advise sowing this mixture wherever Field or Cow Peas are grown. Will always sell them at low prices.

Mammoth 8-Rowed Early Yellow Flint.

243 bushels grown from 1 peck of seed by O. B. Blanchard of New Hampshire.

The best variety of Corn for northern latitudes, and the longest eared flint corn in the country we believe. Ears measure 10 to 15 inches long, 8 broad rows making a most attractive appearance. The stalk grows medium size, and many of them bear two ears. Very leafy and is a valuable variety for ensilage. We expect all our northern customers to order this corn; while we also recommend it very highly to plant on thin ground in any latitude and for late planting. **Price by mail, sample ear, 10 to 15 inches long, 35c; 1 lb. 30c, 4 lbs. 75c. By freight or express, ¼ bu. 50c, per bu. \$1.50, bag of 2½ bu. \$2.50.**

WHITE GAP YELLOW DENT. The originator, Mr. C. S. Clark, of Ohio, makes the following strong claims for this new corn: "It combines more solid merit than any other early corn, for it grows larger ears and is a better sheller, and from one week to ten days earlier, and on poor, thin soil will out-yield others by at least 30 percent. The tip ends of the grains are white, the inside yellow, making it of beautiful color, both on cob and when shelled." "Expert Corn growers pronounce it a perfect field corn, as to yield, size of ears, color, size of cob and growth of fodder. No corn in the world will yield as well on poor, thin land, while on strong, rich land it is wonderfully productive." **Sample ear 25c, lb. 25c, 4 lbs. 65c, ¼ bu. 35c, per bu. \$1.00.**

There is a demand for this Corn, but we can not endorse all Mr. Clark claims above.

Iowa "Silver Mine" White Dent. The originator says: "The stalks grow to a height of 7 to 8 feet and they set ears 3½ to 4 feet from the ground. The ears measure from 10 to 12 inches in length and often weigh 1½ lbs. They are very uniform in size and shape, with 16 to 20 rows of deep, pure white kernels on a small, white cob. It matures in about 100 days. It is the heaviest yielder we know, having yielded over 200 bus. to the acre. 70 lbs. of ears will make 62 lbs. of corn. It is entirely distinct and will give satisfaction." **Sample ear 30c, lb. 25c, 4 lb. 65c, peck 35c, per bu. \$1.00.**

Iowa "Gold Mine" Yellow Dent. Everyone who has assisted in the praise of this splendid variety and it has received everywhere the most cordial endorsement. It is early, ripening only a few days later than Pride of the North; ears are of good size and symmetrical; color a bright golden yellow, "as handsome as a twenty dollar gold coin just from the mint," so says one of our customers; grain is very deep; cob small, and therefore dries out very quickly as soon as ripe. *Seventy pounds of ear corn make sixty to sixty-two pounds of shelled corn, and in hauling to market it weighs out five bushels more to the wagon load than common varieties in the same size wagon.* **Price, sample ear 25c, lb. 25c, 4 lbs. 65c, postpaid; by freight or express, ¼ bu. 35c, bu. \$1.00, 2½ bu. \$2.50.**

We can also supply the following varieties:

Riley's Favorite, Leaming, Pride of the North, Early Mastodon at the same price as Mortgage-Lifter.

EVERITT'S MORTGAGE-LIFTER. Reliability is stamped upon every feature of this corn. It is a corn that has not fail to produce a paying crop in the worst corn year we have seen in Indiana in the past seven years, and in favorable seasons yields 80 to 120 bushels per acre of the finest yellow corn that ever grew inside of husks. We know this corn will please. We will guarantee a rich harvest of the most superior corn that grows, if Mortgage-Lifter is planted. It is early and will mature in Northern Ohio, Indiana, Illinois, Southern Michigan, etc. The grain is very deep, compact and heavy; ears medium to large size; small cob. 70 lbs. of dry corn on the ear, as our seed ears averaged, shelled, 62 lbs. of corn, leaving only 8 lbs. of cob. We want every corn grower to plant some of the Mortgage-Lifter Corn. If you plant a field of it your profit will be big. If you don't plant much, plant a small lot, a peck, or pound, or ear. We are anxious to have ever person who raises corn made acquainted with its merits without delay. We know it will do them good, and thus secure to us a friend and customer for O. K. Seeds. **Price by mail, sample ear 25c, lb. 25c, 4 lbs. 65c. By freight or express, pk. 35c, bu. \$1.00, 2½ bus. \$2.50.**

Mammoth 8-Rowed Early Yellow Flint.

MORTGAGE LIFTER CORN

Indiansapolis, Ind Jan 1, 1900

To The Corn Growers of America:
I offer you this year the greatest
Early yellow Dent Corn that this Country
Ever produced It is a remarkable va-
riety and Every corn grower should
plant some of it Its name is Central
States Dispatch

36 Paid J. A. Everitt.

CENTRAL STATES DISPATCH

A PRESENT FOR YOU.

There are two crops represented on this page that it will pay every good farmer to grow. To one person in every family who reads this offer, we will give Free any package of seed in the Catalogue, if they write us and name the two crops correctly.

J. A. EVERITT, Seedsman.

ENGRAVED FOR
J. A. EVERITT,
SEEDSMAN.

YOU CAN INCREASE THE YIELD

AT A VERY TRIFLING EXPENSE.

IF YOU GROW YELLOW CORN DON'T FAIL TO GET OUR

Central States Dispatch.

We send a dispatch and greetings to every corn grower and invite them to enjoy the benefits of this grand new sort. The benefits will be increased yield and superior quality.

The corn crop is the farmer's stand-by, therefore he should give even more attention to selecting seed for it than on any other crop. Also there is not another crop that represents such a small outlay for the best seed to plant a crop. 15c to 25c an acre is all that is represented, and your own seed is saved.

GET NEW SEED. NEW BLOOD. BETTER CROPS.

The Central States Dispatch Corn is the largest yielding Yellow Dent Corn we ever discovered and closely follows our Great Farmers' Interest White Dent in this respect. We have introduced several varieties of Yellow Corn that have been of immense value to the farmers of the country, but according to our well-known policy we are always seeking for better, more valuable varieties, and as there can be only *one best variety* we drop from our list old varieties that have been superseded. If corn growers will trust us to supply them with the best varieties they will always be **Up-To-Date** in their crops.

The Central States Dispatch Corn is a strong grower and delights in rich soil where it can feed to its heart's content. Under these conditions it may stand three stalks in a hill, each stalk bearing one or two large ears. On soil of moderate fertility, if planted two stalks to the hill the fodder is not so large, but the ears are just as good. The stalk is well supported by brace roots, a sign of great vigor and ability to withstand drought and not blow down easily by storms.

Ears 8 to 12 inches long, very shapely, with extremely deep grain and moderate cob. In season early, maturing in 100 to 110 days, grain yellow, shading to beautiful light yellow on the top of grain. A splendid feeding corn. Rows straight, 20 rows to the ear.

Every corn grower should obtain enough seed of this corn to plant a field or more. All who plant it will find it the *most valuable Yellow Dent Corn of strongest growth, largest ear, greatest yielder they ever raised*. This corn is so fine that if its merits were known our seed would last only a short time. If any person wants to see a sample before buying more they may send us 10c and the sample will be sent at once.

PRICE When the time and labor of selecting seed Corn and the expense of advertising are considered, our price for this corn is very reasonable. Many seedsmen would ask \$5.00 a bushel for this new corn, and we say it would be worth the price to plant. But we will not lay any obstacle in the way of corn growers obtaining this valuable variety. Please note our prices.

By mail, 1 Large Sample Ear 35c, 1 lb. shelled 25c, 4 lbs. 65c. By freight or express, ¼ bu. 50c, one bu. \$1.50, 2½ bus. (1 Bag) or more at \$1.20 per bu., \$3.00 per Bag.

Report Your Crop. \$50.00 Cash Premium.

We want to make a contract with every purchaser of the Central States Dispatch Corn that they will report their success after the corn is harvested. To encourage them to do this we will pay **\$25.00 Cash for the largest yield on one acre; \$10.00 Cash for the second largest yield on one acre; \$5.00 Cash each for the next two largest yields per acre.** All reports must be truthful, and be received at our office by Dec. 1st, 1900.

All corn growers take courage. Five farmers will get cash prizes, but every farmer will get a *prize* corn which is of even greater value.

A PLAIN TALK TO THE PEOPLE.

For years we have been selling our good **O. K. Seeds** direct to the planter, and number our customers by many thousands, representing probably every county in the country. Our ambition is to have our **O. K. Seeds** planted on every farm and in every garden in the country. We hope to accomplish this because

**No Other Seeds are so Cheap,
No Other Seeds are so Good.**

Our idea finds favor with the consumer, who is thankful for relief from the layer after layer of greedy profits with which his seeds have been weighted down heretofore.

Why should not the producer and the consumer come close together? What good reason has any careful farmer or gardener to buy seeds at his home store? It is all right to buy sugar, tea, nails, etc., there, but all wrong to expect living vital seeds that will produce the crop you desire. Your postoffice is no doubt as convenient as your grocery. A visit to it will bring you the best seeds under the sun at *half the price you can get doubtful seeds* at the grocery.

FARMERS' INTEREST

WHITE DENT

CORN

The
Largest
Eared, Best
Grained and
Most Produc-
tive White Dent Corn.

We except none and
Challenge Compari-
sons.

We have sold this grand Corn three years, the customers residing in all parts of the country from Michigan to Georgia, from New Jersey to Colorado, and no variety of Corn could more completely fill the requirements for a profitable variety. It is early enough to mature in the latitude of Southern Michigan, and large enough to be profitable to grow in the South, where it comes weeks ahead of their late sorts, and out-yields them, making it an ideal Corn for Kentucky, Tennessee, Georgia, Virginia, Missouri, etc. Tens of thousands of Corn-growers would plant largely of this Corn this year if they just realized the true merit, and would increase their crop from 10 to 50 bushels per acre. Of all the varieties that we test each year, we positively have not found another variety of White Corn to equal it in yield, and until we do this shall be our leader.

EVERY FARMER knows it pays to plant good seed. Every farmer should know that there is a great difference in seed. If by changing seed to a better variety you can increase the yield 10 bushels per acre, it means the payment of the rental of the land over and above your regular crop. An increase of 15 to 25 bushels per acre is not at all impossible. The cost to get the maximum crops in Corn is very trifling indeed. A bushel of seed will plant about 8 acres, and cost about a dollar. The plowing, pulverizing, fertilizing, planting and cultivating are exactly the same, whether you raise 40 bushels or over 100 bushels per acre. The only extra labor is in harvesting, a task that should be willingly performed.

FARMERS' INTEREST WHITE DENT is the grandest, most valuable variety of corn in the country. We don't think there is another variety of white Corn that will yield equal to it. A strong growing variety, sending its roots out in all directions in search of food. Withstands drought well on this account; stalks are strong, close jointed and leafy. A fine grower. Produces mammoth ears, of which the illustration on this and opposite page is a correct representation. The ear is 11 ins. long, and frequently they grow even longer. Grains are very deep, ranging $\frac{1}{2}$ to $\frac{3}{4}$ of an inch in length in middle of the ear. Color pure white; firm and good texture; cob medium size. As the Farmers' Interest Corn grows an ear remarkable for length, the cobs are never extremely thick, like in short-eared varieties. The ears frequently shell 1 pound of Corn to the ear, and cobs from 1 bushel of ears weigh from 8 to 10 lbs. Ears 18 to 24 rows. Rows straight, and ears of this variety are well filled out at the ends. Matures in about 100 days. Yields very heavy. As the introducers of this fine Corn, we desire to make a demand for it by reasonably extolling its merits. We will, however, appeal more directly to the good, sound sense of Corn-growers, than to attempt to fill the pages with claims for the Corn. **The Corn will speak for itself from the time you receive the seed we will ship you until it is finally stored in the bursting cribs.** We want the better class of intelligent, up-to-date farmers, and those who are seeking for improvements in their crops, as our customers, and count upon an order from every pushing son of the soil, who will plant wisely and reap abundantly.

The effect of growing a large-eared variety of Corn like Farmers' Interest can be illustrated as follows: The average weight of Corn ears is not more than 8 ounces. If an increase of 2 ounces to the ear can be secured, there would be added to the yield per acre $\frac{1}{4}$ more. And if there be 4 ounces added to the weight of ears, then the yield will be increased $\frac{1}{2}$. And, as earliness is as readily developed as the size of the ear, then we can as well have a large increase in yield, and at the same time an increase in earliness in ripening. *These were points kept in mind by the originator of this Corn, and earliness and size are combined to a remarkable degree.*

When the **Farmers' Interest Corn** is grown in the South, new seed should be obtained of us after two or three years, as it gets later and loses some of its good qualities.

The Interest of
Farmers Demand
That They Grow This

CORN

FROM ALL OVER THE COUNTRY.

KENTUCKY.

I planted a field of your Farmers' Interest Corn last spring and the result was a revelation to me and my neighbors, when we found we could send to Indiana and get seed corn that excelled our native varieties. [We thought we grew good Corn, but your Farmers' Interest is yielding 110 to 120 bus. per acre, and surpasses the best of other Corn by 25 to 30 bus. per acre.

C. W. W., Breckenridge Co., Ky.

INDIANA.

Farmers' Interest Corn is yielding 95 to 100 bus. per acre. Four of my neighbors, who are also growing it, all are getting over 100 bus. per acre. These are not exaggerated reports, but actual facts. C. A. B., Johnson Co., Indiana.

I started this morning for your place with two of the finest loads of Corn that ever were put on wagons, but it began raining and we turned back. Will wait for finer weather. The Farmers' Interest Corn is yielding 100 to 120 bus. per acre all over my fields. Nothing like it ever seen in this section before. L. B. C., Johnson Co., Ind.

I grew 50 acres of Farmers' Interest Corn, and the yield over the whole field was 90 to 105 bus. per acre; a total of 4,943 bus. on the field. It matured very early; ears mammoth size.

It surpassed any other variety in this vicinity. C. A. HELM, Ind.

OHIO.

A heavy cropper on medium soil. Best I ever raised. W. M. LANCEY, Preble Co., O.

ILLINOIS.

I planted a field of your Farmers' Interest Corn last spring and it has astonished us farmers all through the season in rapid strong growth. It topped it when ripe and such a field of mammoth corn ears I never saw before. It is good for over 100 bus. per acre. I don't think there can be a better. W. P. R., St. Clair Co., Ill.

KANSAS.

In a visit to my brother in Kansas, he showed me a field of your Farmers' Interest Corn. I must say I never saw its equal in Indiana, nor on the way to Kansas and return. The ears were arms of giants. He wrote me the yield was 114 bushels per acre. I would have guessed it at more, if it was possible for more corn to grow on an acre. A. M. T., Knox Co., Ind.

TENNESSEE.

Farmers' Interest Corn is the largest, heaviest and best White Corn I ever grew. On a test 50 ears made a bushel. The cobs weighed 12 lbs. J. W., Maury Co., Tenn.

MISSOURI.

Having seen a crop of F. I. Corn grown from one ear, I write you early to save me 4 bushels of it for seed, and quote your price. It is the greatest corn I ever saw. A. R., Miller Co., Mo.

IOWA.

28 Acres of F. I. Corn yielded 2,430 bus. of the finest White Corn grown in this section. C. F. P., — Co., Iowa.

MARYLAND.

Farmers' Interest Corn has taken our section by storm. It is the greatest ever seen here. S. B. O., Prince George Co., Md.

When it is considered that $\frac{1}{4}$ bu. of this pure thoroughbred corn will plant about 2 acres and these 2 acres yield 50 to 100 bushels more than corn that we know is usually raised, the price we ask should not be considered.

Try it and be convinced that it is O. K.

PRICE.

Remember the cost is only 15 to 20 c. per acre to plant our Corn and your own seed is saved. We guarantee germination under proper conditions.

By mail, large sample ear 35c.
1 lb. shelled 25c, 4 lbs. 75c. By freight or express, $\frac{1}{4}$ bu. 50c, 1 bu. \$1.50, $2\frac{1}{2}$ bu. in 1 bag \$3.00. 5 bus. or more, \$1.00 per bu.

FACTS Prove that the expense of planting our improved varieties of Corn is about 15 to 20 cts per acre, including freight, and your own seed is saved.
...AND...
FIGURES

72 PER CENT. OF MEAT.
100 BUSHELS PER ACRE.

GREAT AMERICAN OATS

TRY ALL PROMISING THINGS.

HOLD ON TO THE BEST.

The Great American Oats

are the kind of oats to grow for sure cropping, heavy, plump grains with large per cent. of meat and small per cent. of hull; stiff straw that will save the crop until harvested. Head long, heavy and full. They are noted for vigorous growth and droughts do not affect them as much as less vigorous varieties. The grain is large, white, plump, with thin hull, weighing 49 pounds per bushel with ordinary thresher cleaning. On account of large per cent. of meat in the kernel they are well suited for oat meal and other oat products.

I unreservedly recommend the **GREAT AMERICAN OATS** as the most reliable general purpose oats for farmers to grow. They will yield from 65 to over 100 bushels per acre in ordinary farm cultivation. I don't ask you to build your hopes on 200 or more bushels per acre. I believe I am dealing with intelligent people, and they realize such yields are impossible. I aim to gain and hold the confidence of farmers everywhere; then will I realize the height of my ambition, when my celebrated **O. K. Seeds** are planted on every farm in the country. Have you decided to devote part of the farm to the **GREAT AMERICAN OATS**? It is one of the ways to make farming pay.

There are many instances where 75 to 100 bushels of Oats can be grown per acre as well as 25 to 40 bushels, if only the proper variety had been used for seed.

Price by mail, 1 lb. 25c., 4 lbs. 65c. By freight or express, 1/4 bu. 35c. 1 bu. \$1.00. Per bag of 3 bus. for 2 acres, \$2.50.

White Superior Scotch Oats.

This has been my leading variety of Oats for several years, and I have sold great quantities of them. They are a most valuable early variety, and any farmer who has not grown them in the past can well afford to obtain some seed this year. They have good, stiff straw; are heavy yielders of plump, heavy grain. They are just such Oats as please the grower and the purchaser who feeds them. Price by mail, 1 lb. 25c., 4 lbs. 65c. By freight or express, 1/4 bu. 25c., 1 bu. 85c., 3 bus. in a bag, \$2.25.

4th of July Oats

Often times the only crop that is saved entire and in good condition is the early one. No crop is more susceptible to damage by bad weather than the Oat crop. Therefore, the earlier the variety the less danger of damage and the more valuable, providing hardiness, yield and quality are not sacrificed.

In the 4th of July Oats I have the *earliest variety* combined with other good qualities, making it of peculiar and immense value to farmers. These Oats ripen in this latitude about July 4th, about two weeks ahead of other sorts. The straw is strong, medium tall heads, medium length; very compact, but contain many grains. The grains are white, plump and heavy, weighing 40 pounds to the bushel in good clean crops.

Last year I distributed many packages of these Oats as a premium to subscribers to Up-To-Date Farming and Gardening. Some of them reported that they were not as early as represented, but this was on account of the small quantity planted and thin seeding, which induces later maturity. I am convinced there are no Oats earlier than the 4th of July, and any farmer sowing a quantity of 1/4 bushel or more under usual conditions will find they bear out their recommendations.

Price of 4th of July Oats by mail, 1 lb. 25c., 4 lbs. 75c. By freight or express, 1/4 bu. 50c., 1 bu. \$1.25. Per bag of 3 bu. \$3.00.

PLANT GOOD VARIETIES AND RAISE CROPS THAT YOU WILL BE PROUD OF.

CARMAN No. 1. Originated by the editor of the *Rural New Yorker*. It is a seedling from other seedlings raised through several generations, always retaining those with best qualities, medium in season, oblong to round shape, smooth, skin white. The flesh is unusually white, and the quality fine. It is considered by many of the best Potato growers in the country the most promising second early variety recently introduced. **Lb. 25c. 4 lbs. 65c, postpaid; peck 40c, bu. \$1.00, bbl. \$2.50.**

CARMAN No. 3. This is Mr. Carman's grand success in breeding up a late main crop variety. In it he has succeeded in fixing those desirable points, so valuable to every potato grower, 1. VERY LARGE and HANDSOME. 2. REMARKABLY PRODUCTIVE. 3. ALL LARGE TUBERS and COMPACT IN A HILL. 4. HIGH TABLE QUALITY, no hollow center or hard core. Skin and flesh white, eyes few and shallow. Will keep without trouble till planting time. **Price, 1 lb. 25c, 4 lbs. 65c, peck 40c, bu. \$1.00, bbl. \$2.50.**

RURAL NEW YORKER No. 2 Very large and smooth, with few and shallow eyes. In form oblong, inclined to round. Skin and flesh white. Of good quality. The vines are very strong and the yield of handsome tubers, of great uniformity and size is unusually large. **Lb. 25c, 4 lbs. 65c, by mail; peck 40c, bu. \$1.00, bbl. \$2.50.**

BEAUTY OF HEBRON. An early rapid variety. Skin smooth, slightly tinged with pink about the eyes. **Lb. 25c, 4 lbs. 65c, peck 40c, bu. \$1.00, bbl. \$2.50.**

EARLY ROSE. Same price as Beauty of Hebron.

EARLY OHIO. One of the main extra early sorts, so well known that description is unnecessary. **Lb. 25c, 4 lbs. 65c, peck 40c, bu. \$1.00, bbl. \$2.50.**

HYBRIDIZED POTATO SEED.

New varieties of potatoes are originated by planting the small seed taken from the balls that grow on potato tops. The best varieties are usually produced from hybridized seed. This is seed that contains the blood from two or more varieties mingled. We offer the best hybridized seed that is bound to produce valuable new varieties.
PRICE—Packet 20 cents.

Everitt's Choice Seed are famous wherever known. They are leaders. POTATOES

MISCELLANEOUS VARIETIES.

GREEN MOUNTAIN. This is the grand Potato for which we paid \$200 per bbl. for the stock when we first introduced it. This is the greatest price ever paid for Potatoes; also, it has the record of making the greatest yield—at the rate of 1,391½ bus. per acre. Form, handsome; skin, white; size, large; flesh white and fine quality. Cooks dry and mealy. Keeps well till late spring. A very heavy cropper and one of the best Potatoes any grower can plant. We have always heretofore given the Green Mountain Potato two or more pages in our Catalogue, but did not have room this year; but it is just as good for all that, and where not already grown, should be added to the list at once. **Lb. 25c, 4 lbs. 65c, by mail; ¼ bu. 40c, bu. \$1.00, bbl. \$2.50.**

Read these testimonials. If space permitted we could print 1,000 just as good.

From the ¼ lb. of Green Mountain Potatoes I raised 51 lbs. They are fine, large potatoes. For yield they beat anything I ever saw. They are sold, fine quality and mealy. A. B. STARR, Whitesides Co., Ill.
From 2½ oz. Green Mountain Potatoes I raised 39 lbs. of fine potatoes. I think I could have raised 50 lbs., but 1 let one of my boys have five eyes, which he placed where it was too much shaded.

J. H. MERRITT, Clarion Co., Pa.
I consider the Green Mountain Potato a remarkably well considering our poor season. I put the seed in ten pieces and they grew nicely and produced 35 pounds of fine potatoes, all marketable. They are a more vigorous grower than the Burbank, and hold their foliage better than the Blush. They are a variety of great promise. W. H. MORRIS, Adams Co., Ill.

The Green Mountain Potato is the best for the farmer, for market, and for table I ever saw. My neighbor, W. Gladwin, also had a patch 40x100 feet, and the hills were alive with potatoes; the yield was at least 100 bushels from this small piece of ground. The people here never before saw such potatoes, and they were bought for seed as fast as dug.

C. MONGOMERY, Marlon Co., Ind.
The Green Mountain Potato is the best I ever tried, and they are the most profitable for the farmer to grow. SANGRETT BUTZER, Marlon Co., Ind.

The Green Mountain are the best and most profitable potatoes I ever raised, I harvested 250 bushels from one acre, and sold them all for seed to my neighbors at an extra price. PARKER BROWN, Marlon Co., Ind.

I never before saw a potato that pleased me as well in all particulars as the Green Mountain. I will plant 50 bushels of them next year.

J. E. ISENHOWER, Marlon Co., Ind.
From the ¼ pound Green Mountain Potatoes I raised 62 pounds. They are fine, large potatoes. The four largest weighed 9 pounds. I am exceedingly well pleased with them. A. HUBER, Union Co., Pa.

The Green Mountains are the nicest potatoes I ever saw. Some of them weigh 2 pounds apiece. My neighbors thought I was foolish to buy but raise 50 or 60 bushels next year from 29 pounds of seed.

S. P. WHITMAN, Fulton Co., O.

EARLY EVERITT Is the most productive second early potato in cultivation, comes in three weeks after our Early Six-Weeks Market, and is so productive that it is planted by some large growers for both early and late crops. Fine form; eyes even with the surface; color of skin light pink. A most beautiful potato in shape and color. Flesh is fine, solid, white, and of surpassing quality for the table. Growth strong and rapid, setting tubers very early, which attain a large size in a very short time, and ripen with the Early Rose. Tubers grow very large, frequently weighing over two pounds apiece. Yield astonishes old potato growers, who acknowledge they never had so productive an early potato. No grower who is ambitious to make the most money out of potatoes should fail to grow the **EARLY EVERITT POTATO.**
1 lb. 25c, 4 lbs. 65c, peck 40c, bu. \$1.25, per bbl. \$3.00.

Below we print a few testimonials which are only a few taken from hundreds that we have received praising the Early Everitt Potato, but which lack of room prevents us from publishing:

From 1 pound of Everitt Potatoes I raised 63 lbs. of fine tubers, many weighing over 1 lb. each, notwithstanding the unfavorable season [no rain from July 1st to 10th]. I am very much pleased with them and will plant all next season, as they appear to be exactly suited to our soil.

HUBBARD FRETLEY, St. Clair Co., Mich.
The peck of Everitt Potatoes yielded 15 bus. My Green Mountains look first premium at our Co. fair over 10 varieties.

R. E. CHAMBERS, Owen Co., Ind.
I raised 7 kinds of potatoes this year, and the Everitt was the best of all. Twenty hills made a bushel; some weighed over 2 pounds each.

N. NYDMAN, Marlon Co., Ind.
The Everitt has proved to be a very fine potato, yielding with me as high as one bushel from 15 eyes of seed, or a bushel to the rod of row, or 800 bushels per acre. I dug specimens to-day that weighed 2 pounds each.

S. K. MURN, Juneau Co., Wis.

SOUTHERN CUSTOMERS. By our favorable location, neither in the extreme ice-bound north, nor in the warm sunny south, we are able to keep our potatoes over winter in prime condition, and yet can ship southern orders from March 1st to 15th, putting them in the hands of our southern customers in time for first early planting, direct from our cellars, at moderate charge for freight.

EVERITT'S

GREAT NEW

WHITE MOUNTAIN

POTATO

You never put a finer potato on your table—Simply delicious.

ENGRAVED FOR J. A. EVERITT, SEEDSMAN
A FIT SUCCESSOR TO OUR GREAT AND WORLD-FAMOUS GREEN MOUNTAIN

New White Mountain POTATO

A FIT SUCCESSOR TO OUR GREAT GREEN MOUNTAIN

INTRODUCED 1899.

THIRTEEN years ago we introduced the great **GREEN MOUNTAIN POTATO**, which has been famous ever since. Famous for beauty, great productiveness and the superb cooking qualities loved by all users of this popular food. Probably no other potato is more generally grown at the present time than the Green Mountain, and although it has served the public these many years it still retains its original vigor to a great degree, and will be a good cropper for many years to come.

We want to call the attention of all the friends of the Green Mountain and others who are seeking for the best results in their potato crop, to our latest, newest and best variety, **THE WHITE MOUNTAIN**.

A variety that is not excelled for handsome form, color and good cooking qualities and absolutely unapproached in yield, not excepting such well known favorites as Green Mountain, Rural New Yorker, Carmans, etc. In proof of our assertion we offer testimonials, below, from some well known people, which should carry deep conviction.

The **WHITE MOUNTAIN** is in season medium late and suited for main crop. The tubers are of medium to large size. We say, practically no small ones or sortings. Eyes even with surface, or slightly bulged above, which of itself is a good indication of a strong grower. Skin white with rich yellowish creamy cast, and considerably ruffled or netted. Experienced growers know that a potato with skin like this possesses superior cooking qualities. The flesh is as white as snow and cooks dry and mealy. The plant is a vigorous grower, and if protected from blight and bugs will carry the tubers through to a

You can raise 300 bags of White Mountain Potatoes per acre.

W. B. Hall's yield was 243 bus. per acre. Next best was 167 bus. Almost 50 percent gained by planting White Mountain.

perfect and bountiful harvest. (For preventing blight and bugs, the great enemies of the potato crop, write to us.) The tubers set close about the base of the plant and turn out clean at first effort.

This potato will astonish old potato growers in its yields and fine qualities and every person who is ambitious to make the most money out of his crop can not afford to let this year pass without obtaining seed of the New White Mountain.

I find after testing the **White Mountain Potato**, both for yield and quality, that it has great merit. They are the talk of this country around who have seen them. It's a distinct new variety. It's the strongest grower I ever seen; growing away from blight and bugs and makes a crop when others fall.

C. S. C.,
Huron Co., O.

I send you the following result of tests of 4 varieties of potatoes, all planted May 28, all harvested September 27. The yield is given at rate per acre. All had exactly the same treatment: Carman No. 3, 132½ bus.; Mayflower, 127½ bus.; Seneca Beauty, 167 bus.; **White Mountain, 243 bus.**

W. B. H.,
Huron Co., O.

We are not able to give a very favorable report of our test of potatoes for this year, owing to the very unfavorable weather. The **White Mountain** you will find in the list below. We will say, that so far as our test goes, your variety is promising. The tubers are uniform in size regular in shape, and do not show a tendency to become prongy. On the whole, I think that it is a promising variety. The 1898 tests follow. The yields are per acre:

Sir Walter Raleigh	126 Bus.
Sir William	145 "
Early Michigan	79 "
Rural New Yorker	96 "
Enormous	124 "
Early Rose	115 "
Maule's Early Thoroughbred	105 "
Carman No. 3	149 "
Bovee	122 "
White Mountain	158 "

W. J. GREEN,
Horticulturist of Ohio Agr. Experiment Station.

The **White Mountain Potato** was planted May 3, and dug September 10. It made a very large, vigorous growth, with thick stalk and stocky vines. The tubers were very compact in the hills and all large—no small ones at all. There was no record kept of the yields, I am very much pleased with the potato. There were 31 other varieties, mostly new, planted in the field, and none made a better showing or pleased me better than the **White Mountain**. This was one of the 52 varieties I showed at Wisconsin and Illinois State Fairs and it attracted much attention.

L. L. O., Rock Co., Wis.
My trial of the **White Mountain Potato** was very satisfactory. The 6 tubers yielded me 4 bushels, with very common care and planted in the ordinary way. The quality is very fine. They have great merit and a great acquisition for potato growers.

S. J. A., Lorain Co., O.
The **White Mountain Potato** proved to be a very vigorous grower, produced smooth tubers of uniform size, while in yield and appearance compare very favorably with Rurals and Carmans.

DENNIS D. R., Huron Co., O.
Mr. B., who had in charge the test of **White Mountain Potato**, is in New York. The writer, however, saw the crop harvested. It was fine and of good quality. This variety was one of the largest yielders out of several varieties tested.

G. B. & Co.,
(Per Lawson), Rochester, N. Y.

PRICE—Part of our crop this year was grown in a droughty section and are of only medium size. Even in this section the yield was good and nearly double that of any other variety. Those who start now are bound to make much money selling them for seed. We consider the price is very moderate for this Potato. By mail, 1 lb. 30c, 4 lb. 75c. By freight or express, ¼ bu. 50c, ½ bu. 75c, 1 bu. \$1.25, per bbl. \$3.00.

Everitt's Early 6-WEEKS MARKET POTATO.

As Good as Ever, and Better than any Other.

Ready for Market in SIX WEEKS. Matures in 72 days, two weeks ahead of any other variety, and has yielded at the rate of over 600 bushels per acre.

Still Leads for 1900.  Others may equal it in Size, Quality or Productiveness, but in Earliness Everitt's Six-Weeks Market is Unapproached.

Market Gardeners and all Others Who grow potatoes for home or market will prize this potato ahead of all others on account of its extreme earliness, good table qualities, fine size and shape, great productiveness and splendid keeping properties. Just think of one variety of Potatoes combining all of these qualities in high degrees. We positively assert and have abundant and undoubted proofs that **Everitt's Early 6-Weeks Market Potatoes** do make good size merchantable tubers in 6 weeks from planting. We don't refer to a solitary instance. This potato can be depended upon for such results every time if planted when the growing season has arrived, and the weather is favorable. With unfavorable weather they will, of course, require longer. (Read the reports on next page.) The potatoes cook fine and dry from the time they are large enough until late spring. Size is medium, skin light flesh color, shape like in illustration. They are perfect beauties, heavy yielders, and a sure yielder. We have had much experience with this potato and are prepared

SUMMARY.
 Size for use in 6 Weeks.
 Ripen in 10 Weeks.
 Yield 420 Bus. Per Acre.
 Next Year 380 Bus. Per Acre.
 2 Years Later 600 Bus. Per Acre.
 A Record Unparalleled.

to state that owing to their quick growth, escaping the drought, bugs, blight, etc., and extra yielding propensities they make larger average yields for

Taking all the good qualities of this potato into consideration is it not a money variety, and a variety that will be prized by all lovers of early vegetables at home? There is not a more valuable variety in existence in our estimation. It is worth its weight in gold for a start of seed.

The Potatoes begin to form when the stalk is only 4 or 5 inches high. The tops and tubers grow rapidly. They grow so rapidly and mature so early that the potato bugs have little chance with them, making the crop, if planted early, before the young bugs become numerous. They yielded on the farm of the originator in Ohio 420 bus. per acre. Next year 380 bus. per acre, two years later over 600 bus. per acre. He raises them for early, medium and late crop, claiming they "fill the bill" better than any others. The originator says:

"Potatoes have been my favorite crop since I was a boy, and I always took great pleasure in seeing what good crops and large yields I could get, but never did I see a nicer Potato than this. I have raised a great many kinds sent for the earliest in the catalogues, and have raised them from seed, and got some very good ones, but none that came up to my ideal of a perfect Potato until I originated this. I have now discarded all others, and raise this for early and main crop, for market and home use. I am fully convinced that I have at last produced the best early potato in cultivation. I think it combines more good qualities than any other variety in the world. I have given it a thorough trial, and it has proved itself superior to all other varieties.

We introduced this Potato several years ago and have sold immense quantities of them, shipping them to all parts of the country. Any person who has not already obtained seed should not delay longer, as it is one of the good things that never disappoint.

the ordinary Potato grower than late varieties that oftentimes are left to take their chances against unfavorable influences. This potato, strange to relate, keeps sound, solid, and fresh late into the spring, equal to any late potato that we ever saw.

READ HOW THIS POTATO IS LIKED BY THOSE WHO GROW IT.

"THE LIKE WAS NEVER SEEN BEFORE."

We, the undersigned, do personally know the originator of **EVERITT'S EARLY SIX-WEEKS MARKET POTATO**, and of our own knowledge know that this variety will produce potatoes fit for the table in six weeks from planting, and that they are solid and mealy when boiled, and that they will mature in 72 days from planting. We consider them the earliest potato in the world, and if justice is done they will be placed at the head of the list as the earliest, finest table variety, and the largest cropper of any early variety. **J. W. SHANKS, E. B. SMITH, R. BLAIR, V. WASHBURN, ELIZABETH WASHBURN**, all of Athens Co., Ohio.

The Everitt's Early Six-Weeks Market Potato is the most wonderful variety in the world, and combines more good qualities than any other variety in cultivation. This will surely be the gardener's favorite. The potatoes begin to set on almost as soon as the plants appear, and by the time the plants are as large as other early potatoes when tubers begin to set, these are ready for market. At six weeks from planting I have had them fit for table, and as fine, solid and mealy as ripe tubers. They are not troubled with the potato beetle.

JOHN WISE, Athens Co., Ohio.

I know the originator of Everitt's Six-Weeks Market Potato, and helped to dig his crop this season, and I think they are the earliest potato in cultivation. When the vines were about six inches high I examined them and found potatoes as large as partridge eggs, and at six weeks from planting were as large as hen eggs. Will mature in 72 days and never rot. The yield was 380 bushels per acre, without manure.

J. E. SHANKS, Athens Co., Ohio.

One pound Early Six-Weeks Market Potato yielded 147 pounds of fine, sound, smooth tubers. Ripened in

75 days, and produced marketable potatoes in six weeks. This is the most valuable variety of potatoes ever introduced. **F. TAYLOR, Ashland Co., Wis.**

The Six-Weeks Market Potato takes the cake. All the seeds I buy from **J. A. Everitt** beat the world.

Mrs. W. H. POWERS, Bradford Co., Pa.

I like the Six-Weeks Potato very much. I divided with my neighbors. One of them says they are the best he ever saw.

E. HARTMAN, Sutton Co., W. Va.

The Early Six-Weeks Potato did well with me. I could sell a car load for seed here if I had them.

JOHN B. COCHRAN, Jeff. Co., Ohio.

I would give hundreds of dollars to control the growing of the Early Six-Weeks Market Potato for this market, as they can be put on the market two weeks ahead of any other sort, which means hundreds of dollars profit to a large grower.

W. HENRY MORRIS, Cuyahoga Co., Ohio.

'Tis now six weeks and five days since I planted the Six-Weeks Market Potatoes. They did not sprout very quick, but they have nice, large tubers on them. Are the earliest potato I ever saw. I thank you a thousand times.

C. L. RICEL, Armstrong Co., Pa.

The early Six-Weeks are grand. We had fine potatoes in 6 weeks from planting; dry and mealy as old potatoes. Early Ohio came 3 weeks later.

L. S. JOHNSON, Clearfield Co., Pa.

You cannot praise the Early Six-Weeks Market Potato too much. Gardeners should not think of doing without them. I dug 50 bushels off $\frac{1}{4}$ acre, beginning six weeks from planting, which averaged me 50c a peck. They are wonderful.

G. R. HIXON, Madison Co., Ill.

Illustration of a Crop 43 Days from Planting.

I send you today by freight the product of forty hills of Six-Weeks Potatoes. They were dug last night and this morning, and grew in forty-three days. They were grown from one-eyed seed. I have just begun farming on my own land, and am not fixed yet for pushing a crop of early Potatoes. These were covered with a breaking plow and given very ordinary treatment. Think I can beat it next season. Several people who saw them were astonished. I expect to exhibit at our county fair.

JOHN L. SAUM, Paulding Co., O.

Out of seventeen kinds of potatoes planted, your Early Six-Weeks Market were superior to all in quality, size and earliness. I really think they are the best potato on earth.

C. CARROLL, Pipestone Co., Minn.

Twenty hills of Early Six-Weeks Market Potatoes yielded a heaped bushel! They bear out your claims for earliness, quality and productiveness.

EMIL LAURENCE, Worcester Co., Mass.

We have got it this time—I mean the best early and the earliest potato in existence. We had the early Six-Weeks Market Potato large enough for the table in six weeks from planting. They outyielded all our other varieties.

AUGUST BROENKNER (Gardener), Allegan Co., Mich.

We do not give complete address with testimonials because it would direct trade to our customers of former years and cut off our trade proportionately.

The Early Six-Weeks Market Potato was the best for yield and the earliest I had this season. They are one to two weeks earlier than the Early Ohio.

N. NYEDAN, Marion Co., Ind.

Planted the Early Six-Weeks Market Potato May 3. They grew fine and we had new potatoes cooked June 20. They are the earliest we ever saw.

DANIEL DONOVAN, Carroll Co., Tenn.

Those Six-Weeks Market Potatoes were true to your statement. In just six weeks from planting dug good sized potatoes.

E. W. ANTHONY, Houghton Co., Mich.

\$10 per bushel would not buy my Early Six-Weeks Market Potatoes if I could not replace them for less. They are the earliest of all, and a heavy yielder. I predict they will be universally grown by market gardeners for early.

JACOB B. STILLSON, Onondaga Co., N. Y.

My Early Six-Weeks Market Potatoes have proved to be as early as you represented them, and a fine yielder; sound, smooth and best quality. They are very valuable.

C. E. WARD, Sullivan Co., Ind.

I am well pleased with the Six-Weeks Potato. If I was gardening I would surely buy seeds of you.

P. E. GENOWRY, Mo.

The Early Six-Weeks did fine, and were fit to use two weeks before the Early Ohio.

W. A. TROP, Highland Co., O.

We regret very much that our space forbids giving many more testimonials for the **Six-Weeks Market Potato**. If we would print all the good testimonials that have been sent for this potato they would fill several catalogues like this.

CAUTION. Since we introduced our renowned Early Six-Weeks Market Potatoes some other parties have offered Potatoes under various names, "Early Market," "Five-Weeks Potato," "45-Day Potato," etc. Some of them use our description of Early Six-Weeks, others claim their potato is as good as our Six-Weeks. We claim our early Six-Weeks is the earliest and best very early potato in the country, and no person will make a mistake if they send their order direct to us.

PRICE. By mail, 1 lb. 25c, 4 lbs. 65c. By freight or express, $\frac{1}{4}$ bu. 50 cents, 1 bu. \$1.50. Per bbl. \$3.50.

2 New Broadcast Seed Sowers 2.

"NEW IDEA."

(Patented Jan. 2, 1900.)

There are plenty of people to do the work. What the world needs is more people to do the thinking. —J. A. EVERITT.

The men and women who do the thinking are, although only a small percentage of the whole, improving the condition of every man, woman and child. A single little machine may benefit hundreds of thousands of people. The ideas originating in a single brain, but the benefits reaching to the ends of the earth.

The accompanying illustrations show 2 simple little machines that take the place of much more complicated ones, at the same time are cheaper, lighter, wear longer, run easier, noiseless, and are in every respect superior to any other machines, intended for the same purpose, on the market.

We have been largely engaged in the manufacture of Broadcast Hand Seed Sowers for years and finally concluded it was possible to greatly improve these useful machines as well as simplify and cheapen them. The result is our "New Idea" and "Perfection, Jr.," which we believe we can safely claim are the acme of perfection, and will never be surpassed in any essential features.

The New Idea Seeder is very novel. The gear as shown makes it very easy running, being the nearest approach to ball bearing possible to construct.

For 25c each, extra, we will pay express age on either machine to any point inside the Third Circle of Map on Second Cover Page. To more distant points add 25c more. This does not apply to Agers' prices below.

Price, \$1.50 each.

PERFECTION, JR.

EVERITT'S PATENT Patent applied for.

This machine is a modification of the above in the frame and gear. It is simplicity itself. Very beautiful. Strong and durable. We guarantee it to give entire satisfaction. The cheapest machine on the market, yet will be much preferred over any of the old style expensive machines.

Price \$1.25 each.

These two new and superior machines accomplish all that any other broadcasters do, are practically indestructible. Mainly iron and steel with solid bearings. If any part does wear out it can be replaced in a minute. The bag is shown collapsed. In the old style geared seeders there are four noisy cog wheels to make friction and wear out. The lower and principal bearing in each runs on a point. These machines run so easily and smoothly that the weight of the handle will run the machines. Equipped with agitator and accurate seed gauge.

These machines are new and novel throughout and such machines as any Up-to-Date farmer will be proud of. They are absolutely perfection.

No careful, economical farmer will continue to sow his seed by hand (the old way) when he can get one of these machines at our low price. They will save their cost daily in saving of seed, to say nothing about saving of time and more even distribution, which will have a great effect on the crop.

They Will Sow Wheat, Rye, Oats, Rice, Flax, Millet, Turnip Seed, Clover Seed, Grass Seed, including Light Grasses; in fact, Any Kind of Seed Broadcast. Also Plaster, Fertilizer, Salt, Ashes, Etc.

They will sow at a round, Wheat or Rye 50 feet, Buckwheat 45 feet, Flax Seed, Clover and Millet 36 feet, Grass seeds 20 to 36 feet, other seeds, etc., according to their nature and condition. Full direction sent with each machine.

A GOOD BUSINESS. Have you some spare time? You can turn it into money by selling our **Broadcast Hand Seed Sowers.** No risk. We guarantee these machines. They are light, and can be carried or hauled from house to house. Nearly every person will buy them when they see them. We have no confidential terms. Any person can engage in this business. The only condition is you must order 1/2 dozen or more to show that you are buying to sell again.

Price to Agents New Idea \$10.80 per dozen. Perfection, Jr. 9.00 "

Manufactured only by **J. A. EVERITT, Seedsman,** INDIANAPOLIS, IND., U. S. A.

YOU'RE WANTED IT A THOUSAND TIMES

THE EUREKA KITCHEN GARDEN AND HOT BED SEED DRILL.

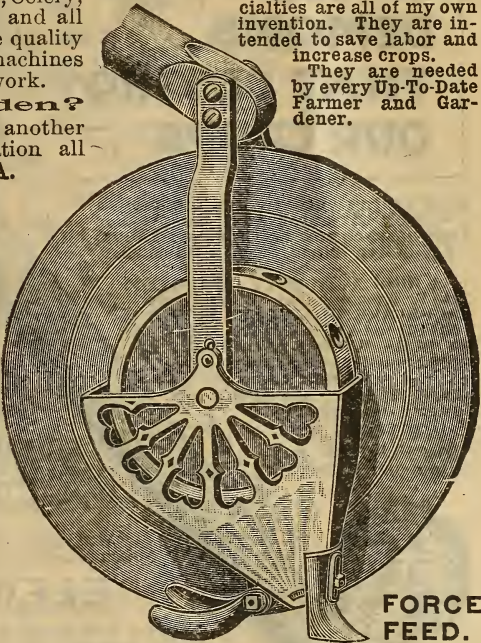

It will sow and cover Beets, Cabbage, Carrots, Celery, Lettuce, Onions, Radishes, Spinach, Turnips and all such seeds with the greatest regularity. The quality of work equals that done with the costly machines and is infinitely better and faster than hand work.

My manufactured specialties are all of my own invention. They are intended to save labor and increase crops. They are needed by every Up-to-Date Farmer and Gardener.

Have You a Kitchen Garden?
Don't try to do without this little planter another season. Your garden will smile approbation all through the season if you use the **EUREKA**.

Have You a Hot Bed?
This drill you must have. It is the **only** machine suited to sow in a hot bed. Sows up close to the sides in straight rows. Sows the smallest packet of seeds as well as a large bulk. This Drill is not a toy, but a strong, practicable machine that will last many years. Don't buy a similar machine, that has the opening plow in front of the machine. You can not get near the sides of a hot bed nor close up to the fence. Neither does it cover the seed. It will be an aggravation rather than a labor-saving machine, as we offer.

By using this Drill you save seed, you save time, you stand in an upright position, the work is easy, you get a better stand, you get better plants

Price is only \$1.00.
Delivered by express, 50 cents extra.
Wholesale price \$6.00 per dozen.

AGENTS WANTED.
Invented and Manufactured by
J. A. EVERITT, Seedsman,
Indianapolis, Ind., U. S. A.

UNIVERSAL POWDER DISTRIBUTOR.

I will not contend that there are "No new things under the sun,"

but I do know there are new ways of doing old things and here is one of the **big little new things** that will be welcomed by all farmers, gardeners, truckers and florists, who must fight insects, blight and fungi to save their crops. It is constructed so as to make the distribution of all powders the *easiest, quickest and most effective.*

The machine can be readily understood by the illustration, with the following explanations: It consists of a receptacle for the powder with perforated bottom, attached to a handle and hinged as shown. In operation an upward swing of the machine has the effect of tipping the can *up* at the bottom and *down* at the top until its movement is arrested by the block on the handle. (See white line around can.) The stoppage is very sudden and the effect is, all the powder is thrown away from the perforated bottom toward the top of the can. Immediately following this movement, and of its own accord, the can reverses and drops back into its natural position, stopping very suddenly as it strikes the lower end of the handle. The result is, the powder is discharged in the most effective manner, spreading well over the plants. The agitation of the powder in the can prevents it from packing on the bottom, and if any coarse particles are contained they do not materially interfere with the discharge of the fine particles until all is used.

In ease of operation, saving of time, economy of material and thorough distribution, the **UNIVERSAL POWDER DISTRIBUTOR** excels any other machine ever offered for distributing all insecticides in powdered form.

For these reasons it appeals to the good common sense of everybody. **The only questions you need decide are: Will I select the easiest way to do my work? Will I do a given job in one half the time? Will I save half the material heretofore used? Will I improve my crops by more thorough work?**

rapidly as the operator walks. To illustrate, if you can make the movements with your hand as rapidly as you step, which is easy enough, it is evident how rapidly the work can be done.

This machine is not intended to do away with my Electric (Liquid) Bug Exterminator, or Sprayer, as I always recommend that machine where liquids can be used. Some people, however, prefer to use dry material, and on every farm are some crops that must be treated dry, like cabbage for cabbage worms, vine crops for the striped bugs which cannot be poisoned with Paris Green. Vine crops can be saved by applying air-slaked lime, ashes, or even road dust, with the Universal Powder Distributor, which drives them away. The article listed on page 62, "Ferto Insectono," is highly recommended for vine crops.

Knowing the great advantages that this little machine possesses we strongly urge its use by all who raise crops that are preyed upon by bugs, worms, fungi, etc. The cost is so trifling as not to be considered against the saving of time, labor, material and crops it will make. **Price only 50 cents each. For 25 cents more we will deliver to any express office.**

AGENTS WANTED. This being a *Universal Powder Distributor* its sale will also be universal. They should sell to everybody. **Price to Agents, \$3.00 per dozen.**

Address **J. A. Everitt, Seedsman,** Inventor and Manufacturer,
INDIANAPOLIS, IND.

LITTLE DEMONS THAT DESTROY OUR CROPS

Good-bye! ye bugs, ye crawling devils,
Who oft have brought us many evils;
Your absence now may give some room
For better things, in years to come.

A HIGH AUTHORITY ESTIMATES
THAT \$300,000,000 WORTH OF
CROPS ARE DESTROYED IN THE
UNITED STATES EACH YEAR
BY BUGS, WORMS AND FUNGI.
Only a small part of this would
occur if some safe, cheap and
simple machine was available
to apply the remedies.

WE HAVE IT.
THE ELECTRIC Bug
Exterminator does it.

THE ONLY ONE THAT SPRAYS UPWARD.
AIR CHAMBER
PATENTED
POISON
WATER LINE

Will you sit idly by, while myriads of insects destroy what has cost so much to produce? The

ELECTRIC BUG EXTERMINATOR OR SPRAYER

will save your crops. It is the simplest, yet the most effective machine made for the purpose. All other machines have their drawbacks; *this is perfection.* You can not begin to realize its value until you use it. Weighs only 1 lb., and only 2 lbs. more when filled ready for use. Only 1 quart of liquid is used at a time, which does the work of 20 gallons as applied with the best of other machines. Why wear your life out dragging a load of poison around in the hot sun? The poison preparation, in liquid form, is expelled with great force and in a mist so fine it can scarcely be seen. It reaches every part of the plant, and as the application is so evenly distributed and so light, there is no danger of injuring the most delicate plants. *This is a great advantage, as oftentimes crops are ruined by burning the tops.*

Do You Like a Pleasant and Easy Way To Do a Hard and Disagreeable Job?

The Electric Bug Exterminator comes to your relief. You can poison an acre of potatoes in 2 hours and use only 6 pints of water and a trifle of poison. Impossible you say? No, it's a fact, and other work can be done in the same proportion. Throw away the laborious wasteful sprayers. The Electric Bug Exterminator lightens the labor. Can be used in a hundred ways and it will save hundreds of dollars on any farm, because it is so simple, light and handy, it's no trouble to use it. No mixing of poison in a separate vessel. You put it right in the machine—it mixes itself. It is ready in a moment. You can drop it any where and any way and it will not spill out. **It can not poison the stock if carelessly left lying around.** Perfection for destroying bugs, worms and fungi on crops of all kinds; spraying Fly Fuma on cows, etc., to drive away lice, fleas and flies; sprinkling clothes, spraying hen roosts, whitewashing fences and outbuildings, in the greenhouse; in fact, useful in ways too numerous to mention.

Don't put off getting a machine until your crop is half ruined. Get it early and kill the old bugs. The work is then half done. It will save you more money than any other machine on the place and costs the least.

CAUTION—The Electric Bug Exterminator is patented. It is the only perfect construction and can not be equaled without infringement. We regret that certain unscrupulous people have been and are now making machines that are infringements. They are too dull to produce anything original, and undertake to live on the thoughts and labors of others. Any sprayer with an air chamber with tapering end like shown in illustration, attached to any kind of a reservoir, or a reservoir like shown in the illustration, attached by any of its sides to any kind of an air chamber, infringes our patents.

Hard Work,
Much Waste,
Small Crops.

The Old Way.

PRICE—Tin Machine only 75c delivered to any express office. Brass Machine only \$1.25 delivered.

AGENTS WANTED—They sell to beat everything. Tens of thousands wanted this year. Order at once. Wholesale price, tin 1/2 doz. \$2.00, per doz. \$4.00. Brass 1/2 doz. \$3.75, per doz. \$7.50.

J. A. EVERITT, Seedsman, Inventor and Manufacturer, Indianapolis, Ind.

Light Work,
Economy,
Big Crops.
The New Way.

You can not get the equal of our Single or Double Tube Electric elsewhere on earth.

Price; Tin, 75c, Brass, \$1.25. All Delivered.

DOUBLE TUBE ELECTRIC BUG EX. or SPRAYER

This year we make a double tube sprayer that throws double the amount of spray. It is preferred by many. Price the same.

A finer machine than this can not be made, and at present is unequalled.

Read These Reports From Users the Pur-

pose of the Electric Bug Exterminator and be Convinced that it is the Greatest Machine for use on Earth and a Great Money-Maker For Agents.

The sample Electric Bug Exterminator received and sold. I herewith order some more, and want exclusive agency here.

THOS. FIREBAUGH, Ogden, Ill.

I sent a friend over into Schuylkill Co., and he sold 22 Exterminators in two days. The machines speak for themselves.

CHAS. J. CHRISTMAN, Strausstown, Berks Co., Pa.

If your present business earns you less than \$3.00 to \$5.00 per day, take an agency for the E. B. Ex. and excel this amount.

Sample you sent of your Electric Bug Exterminator arrived O. K. Please ship me 1 doz. at once. It is just the thing I wanted. They will sell.

C. A. SMITH, Oakley, Kansas.

I have tried the Exterminator and find it O. K. You may send me 1/2 doz. more by first express.

E. VICTOR, Fort Branch, Ind.

I received the Electric Bug Exterminator a few days ago. I had one acre of potatoes alive with bugs. The machine worked with perfect success. It took me about two hours; used less than a pail of water and 1/2 lb. of Paris Green. Not a single bug can be found now. I think I can sell a great many. Please send me terms to agents and circulars.

J. L. MOORE, Valley Hill, Ky.

The Bug Exterminator is immense—far ahead of my expectations. M. L. MOREHOUSE, Florist, Hillsboro, Ill.

Result, death to bugs. JOHN Q. SELBY, Glencoe, Md.

I received the Bug Exterminator and am well pleased with it. I am 60 years old and treated 12 acres of potatoes in 3 1/2 days, taking my time to it. It beats the best \$50.00 cart sprayer I ever saw. JNO. H. REYNOLDS, Wagners Landing, Ill.

An agent wanted in every locality to sell this, the most salable article in the country.

Result: killed the worms. I think the Electric Bug Exterminator fine for vegetables and small plants.

J. F. MAXEY, Ozark, Ark.

Used on Potatoes with Paris Green in liquid form, and the results were of the very best.

W. J. SMITH, Smithdale, O.

Used on potatoes, currants, gooseberries, etc., by myself and others, with results everything that could be desired.

G. B. CLARK, Remington, Ind.

Used on potatoes, pickles and melons with the very best results and almost no labor. There can be no better sprayer than yours for small plants.

G. A. SCHNER, Bremen, Ind.

The Electric Bug Exterminator obtained of you is worth its weight in gold.

W. S. ALLEN, Milledgeville, O.

Used on potatoes and cucumbers; results good. The machine is superior to any other I have ever tried.

G. HAZLEWOOD, Chambersburg, Ind.

Used on potatoes, currants and gooseberries; results, killed the bugs and worms. AARON SHAFFER, Alma, Ill. Dear Sir:—You will find enclosed \$1.25, for which please send me another Bug Exterminator. I loaned nine to another party; they liked it so well they had me send and get one for them. I have used mine and think it a grand thing it is just what it is claimed to be.

MRS. W. SIMPSON, Rosemond, Ill.

IN THE GREENHOUSE

wonderful machines. Some farmers here drove 10 miles to get them.

J. E. SPEICHER, Bloomington, Mich.

Secure an agency NOW for the Electric Bug Exterminator. After a few of these machines are sold in a neighborhood, dozens of applications come for agencies. Everybody wants to be an agent when they see how readily they sell.

My wife says it will justify any family to purchase one of your air guns for spraying clothes for ironing purposes.

W. J. KNOX, Dillon, Tenn.

Your sprayer is the finest thing I ever saw in the line of sprayers. I have tested it on potato bugs, and it gets away with them the quickest of anything I ever saw. I would not take \$10 for my machine and do without it.

NEWTON GOLDMAN,

Griggsville, Pike Co., Ill.

Used on potatoes and currants with very good results.

C. L. BURNELL, Forestville, Conn.

I have 20 acres of truck, and have used the machine with results never better in any respect.

W. C. HIRTE, Carmi, Ill.

Result, death to insects. CARL TABER, Plum Hill, Ill. Used on potatoes and trees. It did the work well. The machine is all right.

W. D. VAN ARNTM, Walnut, Ill.

Results good. It is all that you claim for it better than the old way.

JOHN C. BETTS,

Mt. Washington, Ohio.

Result: It killed the bugs at once. The man did six acres of potatoes in one day. I have two other kinds of spraying machines which cost \$12 for the two of them, and I would not give your machine for both of them. It is the best machine of its kind. It does its work and no fail.

WM. PENN WALTER,

Newton, Kan.

Results good; the best I ever saw. I would not take \$10 for machine if I could not get another like it.

BARNARD LIPPS, Ellettsville, Ind.

Results good; they are all that you claim for it.

C. DEYOUNG, Crystal, Mich.

The machine is all right.

HESTER & SON,

Harrison, Mich.

Result good. JOHN A. HARMON, Beach Haven, Pa.

10,000 people can engage in the sale of the Electric Bug Exterminator, thus reducing the army of unemployed, benefiting their communities and earn as good wages as any county officer of their acquaintance.

ON SMALL FRUITS

Sample you sent of your Electric Bug Exterminator arrived O. K. Please ship me 1 doz. at once. It is just the thing I wanted. They will sell.

C. A. SMITH, Oakley, Kansas.

I have tried the Exterminator and find it O. K. You may send me 1/2 doz. more by first express.

IN THE POTATO FIELD

spoonful is left. This result cannot be accomplished by any other machine without infringing on our patent. When you buy a machine select one that does complete work and avoid disappointment.

Here we show machines made by some other parties. Notice, when spraying upward the liquid departs from the lower end of the tube where it receives its supply, and no spray can be produced. In contrast with these, see our machine on preceding page. It will spray in any position, until not more than a

EVERITT'S MAN-WEIGHT

Plow, Hoe, Cultivator, Drill, Etc., Single and Double Wheel.

WILL REVOLUTIONIZE HAND-POWER CULTIVATION. MAKES KEEPING A HORSE AN UNNECESSARY EXPENSE IN MANY CASES.

Send for a Catalogue of These Great Machines.

This new invention is a great boon to all cultivators of the soil, and must be classed with the great inventions of the age. Yet it is so simple that the natural question with every one is, "Why did I not think of that?" And so nicely does it fill a want existing with thousands of gardeners, nurserymen, seedsmen, florists and farmers, that after the first trial they invariably conclude to "never do without it." The **Man-Weight Cultivator**

Is Worth its Weight in Silver,

if not in gold, to anyone who uses manpower in cultivating the soil. All who have used the machine unanimously endorse it in the strongest language they know how to use. We have heard sensible, shrewd gardeners remark: "I would not sell it for \$25," "\$100 would not tempt me to do without it one season," etc. A nurseryman who has a large area under cultivation, and uses handtools extensively, says: "I can save \$1,000 a year in handhire by the greatly increased work my men do with these machines, and makes an extra \$1,000 by superior work it does and my ability to do it rapidly, and often at just the times needed." It is the only machine we know of that suggests sufficient merit and practical utility at first sight to sell without a trial. The first gardener who saw this machine at Indianapolis gave his order for the first one we would make. Other gardeners at once acknowledge that it is "just what we want," and many remark that "if all gardeners knew of this machine, they could not be made fast enough to supply the demand." A trial by any person will demonstrate the wonderful utility of the machines, and the person possessing them will make it impossible for his neighbor to compete with him in raising crops.

Gardeners need them for every crop they raise, and many times no horse will be required, except to first break the ground. Will do all kinds of work as well as with a hoe, and many times as fast, with greatest ease. All weeds can be removed between the rows and between the plants in the row. Your choicest plants are not destroyed by the horse tramping them, as with other machines.

Farmers will have no further use for hoes. All grass and weeds can be removed from all sides of the plants and the ground thoroughly loosened without the aid of a horse, while plants are small, doing far better work than could be accomplished with a horse. **Every farmer needs a machine.**

Nurserymen can quickly and thoroughly work their ground, doing the work often and just at the right times.

Small Fruit Growers will find them indispensable.

Notice the Complete Work done with a Man-Weight. No hoeing required after the Man-Weight is used. Send for a catalogue of this great machine.

Tobacco Growers can save their cost on every acre cultivated. No horse is needed, except to first break and pulverize the ground. All after work can be done with these tools, even dispensing with hoes entirely. **Three acres can be gone over easily in a day**, taking out all grass and weeds between the rows and between the plants in the row.

Small Farmers

There are many thousands of small farmers in the country having from 1 to 20 acres of land, who can cultivate their crops without the aid of a horse, thus saving the expense of keeping one. Also in certain crops they can make 1 acre produce as much as 2 when cultivated with horse power. Send for a catalogue of these great machines.

Onion Growers Here is a machine such as you might have pictured in your imagination, but now you have it in fact.

They Will Save Their Cost

in many times over every year in saving of handhire, in closer planting, in rapid work, in superior work, in larger crops, in earlier crops, in crops of better quality, in freeing the soil of grass and weeds, in the crops that can be raised on the margins of the fields, which are usually left vacant for the horse to turn around; in short, they can be made the best paying tools on the farm. **The wheels are 18 inches high**, insuring an easy movement over ground moderately smooth. The machines are very light, and are moved easily over very sandy ground.

Single-Wheel Cultivator This tool is intended to mark out, cover and pulverize, and to cultivate, hoe or plow on one side of a row at a time. It is capable of doing a great variety of work that will suggest itself to everyone who possesses it. It is strong, durable, and well made throughout; all iron and steel, except the tips of the handles and the propelling bar, from the rear of wheels back. With 5 sets of tools. **Price, \$6.00.**

Combined Single and Double-Wheel Cultivator

Besides the single-wheel machine which this combination comprises, it is also intended to straddle the row and cultivate, hoe or plow both sides at once. For this purpose it is a **wonderful improvement** over all other machines constructed for this purpose. All other man-power tools heretofore constructed did not admit of adjustability, as required as the work proceeded, but if the rows were crooked, or the plants scattering, it would destroy them; also with them you could do only partial work, requiring after hoeing to cut out the weeds between the hills in the row. Our machine admits of perfect adjustability; every inch of surface can be stirred between the rows and between the plants in the row. Every cultivator of the soil will appreciate this. All iron and steel, except propelling bar and tips of handles. With 5 sets of tools. **Price, \$8.00.**

Man-Weight Drill A drill that will plant seeds just as desired is

a most important machine for every farmer, gardener and trucker. Our Drill is capable of the greatest variety of work, from sowing in a continuous row to planting in hills 3, 6, 12, 24 and 48 inches apart. It plants Beans, Corn, Onions, and all seeds, large and small. **Price, \$8.00**, with no Cultivating Parts.

Combined Cultivator and Drill This is the same as our Combined Single and Double-Wheel Cultivator, with the drill attachment. **Price, \$12.00**. It is the complete outfit. Many machines in one. Catalogue of these great machines free to all interested parties.

TESTIMONIALS.

Read these carefully. Ponder on them, and you will decide that it is economy to invest in a **Man-Weight Combination**. Saves time, labor, and increases production; three items, each of which is money in your pocket.

I am 63 years old, and have been a farmer all my life, and the opinion I have formed of the Man-Weight Cultivator is, that it is ahead of anything that I ever saw yet. I have shown it to some of my neighbors, and they all express a very favorable opinion of it, especially those interested in raising onions. I think there will be a great demand for them.

WM. F. WIRT, Hudson, Mich.

Your Man-Weight Cultivator is a great success. A grand triumph.

J. S. FLOYD, Walhalla, S. C.

Having purchased one of your Man-Weight Garden Plows last spring, and used it during the season, I am glad to recommend it to brother market gardeners and others to be all that you claim for it. One man can do more with it than a dozen with hoes, and it does away with the use of hoes in many cases. For instance, I did not use a hoe at all on my cabbage patch, but kept it clean with the Plow. I can not afford to take \$100 for it and do without it.

CHAS. BICKFORD, Eddyville, Ia.

I would not take \$100 for my Man-Weight if I could not get another for less.

F. R. WIEDENMILLER, Riverside, Cal.

Your Man-Weight is the greatest and best tool for cultivating the ground that I ever saw.

S. V. VEST, Houston, Minn.

I have been using the hand-push cultivators, but the Man-Weight is far ahead of them.

H. A. SIMMONS, P. M., Clinton, Mich.

Truly superior in its class, and a curiosity in my neighborhood.

F. M. MEYERS, West Salem, O.

I had a Planet Jr. before I went to the World's Fair-After seeing your Man-Weight I traded it off and bought yours, which is worth a dozen of the Planets.

W. D. DELONG, Galesburg, Ill.

I would not exchange my Man-Weight machine for any other I have ever seen. I have used the Planet Jr. for several years, and know the Keeley and some others. The Man-Weight has higher wheels, and those who have used mine like it best of all.

NOAH HODGES, College View, Neb.

I am thankful for the Man-Weight machine that I got from you last year. It is all you claim for it. I would not do without it for any price. Some of my neighbors say they want one this spring.

R. M. ADAMS, Dry Ridge, Ky.

We would not do without the machine for double what it cost us.

J. C. COPELAND, Liberty Mills, Ind.

Man vs. Horse Power.

American Agriculturist.

The leading tendency for many years has been to supplant man power by horse power, but wherever the use of horses is not feasible it becomes of the utmost importance to utilize man power to the best advantage. This is accomplished in a remarkable degree in **Everitt's Man-Weight Hoe and Cultivator**. This implement, which is manufactured with single and double wheels, will prove a great boon to all cultivators of the soil, as it accomplishes its work in the most perfect manner not only, but does so with the least possible outlay of strength on the part of the workers.

A Grand Machine.

Christian Cynosure.

Actual experience with garden cultivators warrants the commendation of **Everitt's Man-Weight Cultivator**. Everybody should have this grand machine, whether gardener or farmer.

Everitt's Man-Weight Cultivator.

Farm, Field and Stockman.

Five weeks ago we called attention to this new garden tool, speaking of its advantages over the ordinary garden wheel hoes. We now have the opportunity of presenting our readers an illustration of it, which will convey a better idea of its workings than word description.

With **Man-Weight Cultivators** cultivating and hoeing can be done with one operation much better and quicker than with horse power and hand hoeing.

As it is adjustable, it allows complete work at one operation, cultivating or hoeing as close as desired. It is particularly valuable for thinning plant in the row and removing weeds in the row. They are manufactured by J. A. Everitt, Seedsman, Indianapolis, Ind., and advertised in this paper.

ELMIRA, MICH., March 27, 1899

J. A. Everitt, Seedsman.

DEAR SIR: Yours of the 20th received, and the terms are satisfactory. One of the parties interested is from home, so I have not seen him. We desire further information on some points of your machine. The choice lies between yours and the Iron Age. Has your machine an agitator or force feed? This is important in sowing beets and carrots, or rough seeds liable to clog. Another question: Is your combined machine a hill dropper as well as drill? What will freight on three machines be to this point?

DAVID M. HOFFMAN.

We replied, and below is the result.

ELMIRA, MICH., April 4, 1899.

J. A. Everitt, Seedsman.

DEAR SIR: Your answers to questions concerning Man-Weights are entirely satisfactory. We have agreed on your machines, but one of the three comprising our company is not quite ready to order. Will probably order in a week. Season is late. There are two to three feet of snow on the ground at present.

DAVID M. HOFFMAN.

BARODA, MICH., March 21, 1899.

J. A. Everitt, Seedsman.

DEAR SIR: I have seen your Man-Weight Cultivator advertised, and it looks to be just what I want for sowing and cultivating Sugar Beets. If you will be so kind as to send me one C. O. D. so I can examine it, and if it is what I want, I will send you the money and order for two more. Please send complete machine, with drill.

SOLOMON NEDLINGER.

We sent the machine as requested; below is the result.

BARODA, MICH., April 3, 1899.

J. A. Everitt, Seedsman.

DEAR SIR: I received the Man-Weight Machine, and I am well pleased with it, and will take two more Combined Cultivators and Drills and one Single Cultivator, and tools to match.

SOLOMON NEDLINGER.

We regret that we have not more space to tell about these greatest machines, but send for complete Catalogue, free, and don't take one of the old style hand-push machines as a gift before you have thoroughly investigated the **Man-Weight**. If time is money with you, or ease of doing your work an object, you had better pay \$25 for an **Up-to-Date Man-Weight Outfit** than work with the old style machines as a gift. Don't let this season, when good up-to-date work promises to pay handsomely, pass without the benefits that are certain to be derived from the possession of a **Man-Weight Machine**.

REMEMBER: If you intend to purchase a Wheel Hoe or Drill, get our Catalogue first.

J. A. EVERITT, Seedsman, Inventor and Manufacturer.

Ferto-Insectono.

The Great Fertilizer and Insecticide.

Its Uses and How to Use It.

WHAT IS FERTO-INSECTONO?

It is an inexpensive dark powder, as fine as flour, and extremely diffusible and completely covers with a fine dust all plants over which it is sprinkled. While powerful in its effects, it will not injure the plant or the leaves in the slightest degree, and is perfectly harmless to the person handling it.

AS AN INSECTICIDE

It is an absolute annihilator of all insects, bugs or beetles that prey on vegetation. Positively kills Potato Bugs, Squash Bugs, Pumpkin Bugs, Melon Bugs, Currant Worms, Cabbage Worms, etc. It will kill all kinds of creeping things that eat the leaves of vegetables or plants. It is the cheapest insecticide on the market.

HOW TO APPLY.

Any way to insure an even and thorough distribution on all the plants and leaves. We manufacture a machine called the "Universal Powder Distributor," shown on another page of this catalogue. It is a splendid machine for the purpose, and with its long handle you get the dust just where wanted. It may be applied with a bellows, or even with a small bag made of coarse muslin. Put the powder in the bag and shake over the plants.

A GOOD CROP OF CABBAGE

Or any other vegetables cannot be obtained, no matter how good your soil and seed may be, or how favorable the weather, or how much care and labor you expend on them, unless the vines and leaves are kept vigorous and healthy. Such a condition cannot be kept up unless all insects and bugs are destroyed as fast as they appear. The reason is obvious: Plants and fruit trees breathe through their leaves, and the leaves are as essential to the development of the plant or tree as are the roots. Any cause that injures the leaves hurts the plant, and that which destroys the foliage destroys the root also. Therefore it is necessary that the vines and trees be kept growing and free from the ravages of insects and bugs.

THE POTATO BUG

Is the greatest enemy the potato grower has. He has a good mouth, with upper and under jaws and eats the leaves with a relish. "Ferto-Insectono" sprinkled on the leaves kills him with expedition and dispatch. Three crops of eggs are laid each year. Prompt action is therefore necessary. Just as soon as the potato bug makes his appearance, dust the vines thoroughly and carefully with "Ferto-Insectono." Kill off the first arrivals and you should not have any further trouble. The same course should be pursued in the cases of other pests.

THE MELON, CUCUMBER OR VINE BUG

Can surely be exterminated and your crops completely saved by using "Ferto-Insectono." Every person who has had experience with these dreaded pests knows that prompt action is the only salvation for the crops. If "Ferto-Insectono" is 200 miles away your crops are doomed; hence prepare in advance. Be watchful and the moment they appear take the remedy to the field and you can treat your crops so quickly that no damage will result. Perfectly harmless to persons handling it and harmless when used on cabbages and other edible crops.

FERTO-INSECTONO AS A FERTILIZER.

This Chemical Compound possesses the quality of extracting the ammonia from the atmosphere as the wind passes over the plants to which it has been applied. This ammonia combines with the powder and forms a sulphate of ammonia which is a powerful stimulant to vegetable growth. When we speak of stimulant don't think the plant or ground will be left in a worse condition when the effect has passed away. This is not the case. The properties are all taken from the air and the young growing plants are actually fed, nourished, assisted to send their roots deeper into the soil, and the tops higher in the air. The benefit is permanent, hastening maturity and increasing production.

FERTO-INSECTONO is peculiarly valuable in dry seasons as it attracts and holds moisture.

FERTO-INSECTONO can be used as a fertilizer (outside of its value as an insecticide) and 5 times its cost realized in improvements of the crops. Farmers and gardeners, keep this in mind and it may induce you to use it EARLY and LIBERALLY and thus give you double benefits in saving your crops from the insects, and increasing productiveness.

The Cheapest Insecticide on the Market, and Doubly Valuable as a Fertilizer. Price:

- In 5 lb. Packages 15c Each.
- In 10 lb. Packages 20c Each.
- In 25 lb. Packages 40c Each.
- In 50 lb. Packages 75c Each.
- In 100 lb. Packages \$1.00 Each.
- Per Ton, \$20.00.

If by mail add 16 cts. per pound for any quantity.

.....Agents Wanted.
The Trade Supplied.

Lightning Bag and Sack Holder

(Everitt's Patent.)

YES, you can buy a bag holder for a couple dollars or more, but we will sell you a better one for 25c, and we will deliver it to you anywhere in the U. S. for this price.

This is not only a bag holder but a sack holder as well. It is self-adjusting. (See dotted lines for size extended.) The upper part is well adapted to hold in one hand while bran or grain is scooped in with the other hand. In this way it is very convenient for millers and others. Also is perfection for holding the mouth of bag open if you want to fill in the bin by drawing the grain in with your hands.

The bag is attached and detached as quick as lightning. Hence the name. Don't think because it's cheap it is not good. If you don't consider it as good as any bag holder you ever saw, and far more convenient, send it right back and get your money. After you get one you will want another or several. You

Push a stake in the ground anywhere and fill with Potatoes, Corn or anything desired.

Drive a nail in the wall or fence, anywhere.

will find several around the farm as convenient and desirable as several pockets in your everyday suit of clothes.

Remember, Only 25 Cents For the Best Bag Holder on Earth, Delivered to You.

Agents wanted, and the trade supplied at only \$1.00 per Dozen. Just think of it, a Dozen best bag holders ever made for **\$1.00**. They sell like hot cakes.

TRUCKERS', GARDENERS' AND FARMERS' DIRECTORY OF THE U.S.—Send us the names of all the Truckers, Gardeners and Farmers in your neighborhood. For your service add a 5c pkt. of seeds to your order for 5 names or more. If there is not sufficient space provided on the order sheet, use a separate sheet. Don't confuse the names with your order or we cannot use them.

"I think the Man Weight machine is a good invention and I hope you will be bountifully rewarded for your labors."
H. STARKEY, Coburg, Iowa.

"Our customers say the Man Weight is the boss machine. We will want to order more for next season, as they are far superior to the Planet, Jr., which has had the run here."
J. M. FILLON & Co.,
Agr. Implements, the Dalles, Oregon.

"Combined Man Weight arrived last Saturday. I should have advised you earlier, but was waiting to give the machine a good trial. The test has been made and the machine has done itself honor. For thoroughly pulverizing a light loamy soil I have never seen its equal."
WALTER F. JACKSON, Rocky Mount, N. C.

"I have the Man Weight Machine and I don't see how I ever got along without it. It does such good

work and so much of it in a short time. I can recommend it as being all that is claimed for it."

MRS. W. M. TUTTLE, Waverly, Kas.

"The Man Weight gives the best of satisfaction. It is what every man wants who has a garden. I have used mine thoroughly and it is what I need for all kinds of truck. I believe I am the only man in Logan county that owns a Man Weight and I would not part with it for its weight in gold if I could not get another."
CHAS. ROBINSON, Robinson, O.

"I have given the Man Weight machine plenty of work and I think it a good machine."
W. W. SHEPARD, Honeoye Falls, N. Y.

"I like the combined Man Weight very well. I find it does good work and the use of it is a great saving of time."
JOS. G. SMITH, Loquel, Cal.

"Enclosed find money to pay for Man Weight Cultivator, and I will say to you that I would not take \$25.00 for the machine and do without it."
E. MAXEY, Springfield, Mo.

"The Man Weight is a little 'Daisy' and fills the long felt want as a garden tool."
L. A. BOYSEL, Cridersville, O.

See pages 60 and 61.

Notice that strip between the shovels. This is the way all the old style hand cultivators leave the ground.

Now turn to pages 60 and 61 and see how the Man Weight Cultivator hoes in the rows as well as between the rows. It is the only machine that does complete work. It's worth money to you to know it. Send for catalogue of Man Weight Tools, Free.

Agents Wanted

To sell O. K. Seeds and our Manufactured Specialties. We can give agents employment the whole year around at good wages. Notice wholesale or agents' prices on most of our Manufactured Articles in this Catalogue. Send your orders and get complete outfit.

We don't want to hear from curious people. We want to hear from those who mean business, and to this end we will consider applications for agency only from those who send 25c for an outfit.

J. A. EVERITT, Seedsman,
Indianapolis, Ind.

FOR UP TO DATE FARMERS AND GARDENERS

UP TO DATE FARMING AND GARDENING

The Farm and Home Mechanic

AND COMPLETE SELF-INSTRUCTOR.

A WHOLE LIBRARY
IN ONE BOOK.

A FULL COMPENDIUM of Indispensable Information and Instruction in the most useful Mechanical Trades. Each part has been prepared by a Specialist who is Master of his Trade. The Instruction is Thorough and Practical. This book will enable you to do many little things that you now have to pay for, and will thus save Hundreds of Dollars in any household. No other book has ever been published that treats of so many of the trades or that contains on any one of them information so thoroughly practical in character.

PART I is devoted to Carpentry. It describes the Tools, tells How to Select Them and Keep them in Order, and How to Use Them; How to Fit Up a Shop and to Make the Various Appliances, and How to do All Sorts of Work, from Planing a Board to Building a House. A description and the Selection of Builders' Hardware, and another to the Making of Specifications. Everything is Fully Illustrated by Engravings.

PART II is devoted to Painting—tells exhaustively how Paints are Prepared, Mixed and Applied, and How to Make and Use Varnishes and Dryers. It gives Full and Plain Information about Colors and Tints, also about Graining, Staining on Glass, as well as Wood; Lettering, Glazing, and Paper Hanging.

PART III treats of Sign, Carriage and Decorative Painting, and contains full Information and Instructions as to Frescoes and Walls and Interior Ornamentation that is to be found elsewhere only in High-priced Volumes. The Technical Knowledge that it imparts of Pillars and Scrolls, Ceilings and Borders and Room Decorations is worth many times the price of the whole book, and this can be as truly said of the Practical Instruction in Carriage Painting, and also that in Sign Painting, which includes Painting on Glass and various Metals and Textiles, as well as on Wood.

PART IV, treats of Finishing and Ornamenting Furniture and Cabinet Articles, tells How to Prepare the Materials, what Tools to Use and How to Use Them. This covers, among other things the Processes of Bleaching, Darkening, Staining, Filling, Graining, Veneering, Marqueterie Work, Buhl Work, and Inlaying of all sorts. Recipes for Varnishes, Stains, Cements, etc., and for Removing Stains and Reviving Leather, and Cloths, will be invaluable in any family.

PART V, is a complete Instructor on Horse Shoeing, teaching what every Owner of a Horse as well as every Horse-Shoer should know. Thirty pages are devoted to the Diseases of and Accidents to the Horse's Feet, written by a Practicing Veterinarian of successful experience.

PART VI treats of Soap-Making and is prepared as a Guide for Families and Small Manufacturers. It tells how to make all sorts of Plain, Fancy and Medicinal Soaps, Emulsions and other substitutes, including Washing Fluids.

PART VII comprises a hundred pages on Candy-Making, which will afford Pleasure and may easily be turned to Profit. Complete instruction, covering Syrups and Creams, Pastes and Ices, as well as Candy, that it will serve the needs of Confectioners as well as Families.

GET NEW BLOOD.

Give your Farm and Garden new GRAIN, GRASS and VEGETABLES. We will give you a start in crops FREE that means profit and pleasure in future.

As is the custom of the publishers of UP-TO-DATE FARMING AND GARDENING, we give away each year a collection of seeds that are new, and which in many cases can not be obtained elsewhere at any price, or at a high price. Our collection this year comprises one variety each of Potatoes, Corn and Grass, that we

guarantee will be much prized by every farmer who obtains them. This year we will not give small packets, but liberal size packets that will produce practical results, see below. The nation is a real novelty in its line and almost the sweetest thing on earth. The Cabbage is afflicted with a disease quite common in the human family, and it has got it badly. In the case of the Cabbage, however, the disease does not hurt it. The disease is the BIG HEAD. The flowers are not particularly new, but are very nice. We aimed to include in our collection of this year something for the farmer's fields, his wife's garden and his children's flower beds, see descriptions below. ALL FREE.

There are many hills in the country producing gold and silver ore of great value, but the real mines from which a large portion of the wealth of the country is dug are the potato hills. As this is such a valuable new potato, we decided to call it the Silver Hill, and every hill will bring real silver to the grower. It is a fine, large, oblong, smooth White Potato. Sound and solid, a strong grower, a sure cropper, a great yielder, and as fine as ever went into a pot to be cooked. ONE-HALF POUND FREE.

This corn does not grow ears a yard long, but it is the longest eared corn that grows in the country we know. The ears are of remarkable length, frequently one-half yard (18 inches) long, and average 12 to 16 rows each. Don't think it is only a curiosity or freak. The ears are filled with deep, yellow grains, and, as must be the case, a great many grains are required variety that will grow longer ears and be equally as good in other respects. 400 GRAINS FREE.

A wonderful forage plant from Russia. Outyards Alfalfa, which has heretofore been the Agricultural wonder in sections where it succeeded. Bromus Inermis, however, unlike Alfalfa, succeeds everywhere in the United States. It grows so strong that it eradicates bad weeds like wild mustard, Russia and Canada thistles, etc., in a short time. One sowing to clover, timothy and orchard grass, where they succeed. 2 or 3 cuttings may be made in a season. Recommended by the Department of Agriculture, at Washington, D. C., to whom I refer people who want additional evidence of its value. This package of grass seed is worth 10 times more than we ask for all. 1 LARGE PACKET FREE.

In 1898, a friend of ours was traveling in Florida. When driving through the interior of the country one day he saw some peculiar small Water Melons for sale at a country store. They excited his curiosity and he bought a few, tossed them in his buggy and drove on. A short time after, when he came to eat the melons, he says he was agreeably surprised to find them the sweetest, most juicy and most delicious melons he ever tasted, and most surprising, the seeds were as small as apple seeds, showing that it was a disjunct variety. On his return trip he stopped at the store and bought all the melons they had and all the seed that he could obtain in the neighborhood, amounting to about 4 lbs. The discovery was reported to the publishers of this paper, and we bought the seed, distributed many small packages in 1899, and grew a stock for our present Free Seed distribution. This elegant little melon can not be praised too highly. Its luscious sweetness and satisfying flavor will make you think that the perfect melon never grew before.

A cabbage of heroic size and qualities. A variety with many splendid qualities that will be admitted by every grower. Round head. Large size. Solid. Heavy. Season for fall, winter and spring. Seed very limited. 1 SMALL PACKET FREE.

These ornamental climbing vines have become deservedly popular. They bear such magnificent flowers in size, and of such varied and rich colors, both single and double, as to eclipse the old morning glories so common about most country and many city and village homes. If there is a house where this offer enters that has not already this grandest climber started over porch or piazza take our advice and obtain a package at once. 1 PKT. FREE.

We import nearly all our flower seeds from Germany, and as it requires a long time to make an importation, we must necessarily order liberal quantities when ordering. This causes us to have a surplus of many sorts, including rare and costly varieties. We find a good and popular way to dispose of them is to mix many varieties together and put in packets. We include such a packet in this collection. They will begin to bloom in a few weeks and continue putting forth new beauties every week during the summer, and surprise you by continuing for 2 or 3 years. The collection contains 1 Liberal Package FREE.

Every Variety of Grain, Grass, Potato, Vegetable and Flowers in Liberal Supply

Monthly Paper is well worth the subscription price, 50 cts. While if as many choice new seeds were bought separately they would cost much more. UP-TO-DATE FARMING AND GARDENING will be a great help to every farmer and gardener. It is published for their good. It will keep you up-to-date if you read it regularly. It has many thousand subscribers who do their work by their teachings, and prize it. Some say they could not get along without it. SUBSCRIPTION PRICE, 50c. Published monthly.

FOR 50 CENTS. We will send the paper one whole year to new or old subscribers, and the collection of seeds, grain and potatoes, illustrated and described on this page, all postpaid, to any postoffice in the country.

ORDER AT ONCE. Before you forget it send us a letter with the right amount and enjoy reading a good paper a whole year and have the best crops from our FREE SEEDS that you ever cultivated. SEND CASH, MONEY ORDER, BANK DRAFT or STAMPS. You can wrap 50 cents in silver in heavy paper and seal with your letter and send at our risk. Sample copies free. GET UP A CLUB and get yours free, or make money.

YOURS FREE. Send us a c'ub of 4 at the regular price, and we will send 50 cents each (\$2.00), and we will send

Up-To-Date Farming and Gardening, Your Paper and Seeds FREE. J. A. EVERITT, Manager, INDIANAPOLIS, IND.

Every person who gets this Catalogue ought to invest 50 cents in what we offer on this page. They will never regret it as long as they live, or better still, show it to your neighbors and get their orders, then we will send yours free, or you can keep the cash for the 5th subscription. If you have never seen a copy of our paper send a postal card for a sample.

The Great Kuttawa Dwarf

TREE TOMATO.

THIS distinct, remarkable and superior variety of Tomatoes is a cross between the Dwarf Champion Tree and New Stone. With the tree tendencies in the Champion greatly improved, reaching in the Kuttawa a full supporting degree. The plants, when only 1 or 2

inches high, assume a tough woody nature, and defy the teeth of cut worms to lay them low. The fruit stems and leaf stems also partake of this nature, being very stiff and stubby.

The fruit forms along the branches in clusters of 2 to 8, of medium size, weighing 6 to 12 ounces each, so uniform in shape that they appear to have been formed over the same mould, perfect in form, and as handsome as bright-red apples. The fruit is an exact duplicate of the New Stone in color and size. They are the perfect shipping Tomatoes, as they may be handled very roughly, and will not decay if the skin is not broken. *They have a tendency to dry up rather than decay.* The skin is very tough, yet, when slightly scalded, peels off nicely. The fruit is the most solid and heaviest of all Tomatoes, almost as heavy as lead, solid

heart, free from green heart and streaks through the flesh. Nearly seedless.

Its upright, self-supporting habit and compact growth allows it to be planted 16 inches apart in rows 2½ feet apart. The effect is a solid row or hedge of green from end to end of the rows, allowing 8,000 to 10,000 plants on an acre without crowding. The plant grows 20 to 30 inches high and supports its fruit off of the ground. See also page 36 of this Catalogue.

The plant when growing resembles Irish potatoes, so much so that it is usual for people to ask, "What kind of potatoes are these?" In season is early, ripening equal with any of the other large size Tomatoes, and is superseded only by the small fruited sorts. Adapted for cultivation on a large or small scale for the cannery, for the market, for the home. See also page 36.

Price, per package 15 cents, 2 for 25 cents, 5 or more at 10c each.
